FURTHER NOMINATIONS-A REPUBLICAN SPLIT IN THE TWENTY SIXTH WARD.—The Republicans of the Twenty-sixth Ward have fallen into Democratic habits, and not having the example of California before their eyes, have placed two tickets in the field. One of these tickets, which was completed about two o'clock on Tuesday morning, after the Convention had been in session nearly all night, is made up as follows:

Select Council—J. W. Robbins.

Common Council—David Gouldy.

School Directors. Charles Serior Charles

School Directors — Charles Begiev, Charles Adams, J. R. Fletcher, Colonel E. R. Badger, Last evening the Executive Committee of the Ward held a meeting at the corner of Federal street and Gray's Ferry road, and endorsed, by a unanimous vote, the ticket placed in nomination by another convention, made up as follows:

Select Council—Robert Armstrong.
Common Council—George A. Shisler and
James S. Stewart. School Directors — Francis Gwynn, David Baker, John Kessler, and George Austin. Mr. Armstrong, the candidate for Select Coun-cil on this ticket, is at present a member of

Common Council.

The friends of the ticket first nominated, however, do not appear disposed to acquiesce in this action of the Executive Committee, as they made a firsh announcement of their candidates in the advertising columns of a contemporary this morning, with a list of the delegates to the nominating Convention appended. From this it appears that two precincts were not represented at all in the Convention. Last year, the vote for members of the Legislature in this Ward stood 2327 Republican to 1774 Democratic, giving a majority of 553, while the average Republican majority in the vote for county officers was about 750. But the Republicans of the Twenty-sixth Ward must remember that a division in their ranks, with so small a majority when presenting a soild front, will enable the Democratic ticket to carry off the victory. Let their petty disagreements be put aside, therefore, and, if necessary, let both tickets be withdrawn and a new one, satisfactory to all sides, agreed upon.

The Democrats of the Twenty-fifth Ward have nominated Edward Onyx for Alderman, in addition to William F. Boucher. The friends of the ticket first nominated,

The burglars tore the wire from the diningroom window and forced up the sash, and with a hickory stick, which they 'left upon the premises, broke the inside shatter, which was fastened with a bar, and scattered the fragments over the floor. This operation made a loud noise, arousing the inmates. The fierce barking of a dok which sleeps in the hall scared the villains, who escaped without securing any booty.

Malicious .- Edward Jones was arrested by Malicious.—Edward Jones was arrested by Officers Irwin and O'Brien, at Frankford road and Harrison street, for drunkenness. While being conveyed to the Station House he repeatedly assaulted his custodians. When placed within the cell, he avenged the incursions by armed law upon his individual rights by tearing to pieces everything that was tearable in his cell. Mr. Myers is at present in Europe, and the rest of the family are absent, so that the real amount of the loss cannot be estimated.

THE SEASIDE.—The Sunday morning train to Atlantic City is still regularly run, and at half-past 7 o'clock to-morrow morning will start for the seaside, returning in the afternoon. This is the most delightful month of the whole year for ocean bathing, a fact which our readers should bear in maind.

COURT OF QUARTER SESSIONS—Judge Petrce.

The usual Saturday business was before the Court. The following opinion, deciding the petition made last Saturday and then reported, was delivered:—

In the matter of the petition of "The Naturcal and Engineering College of Philadelphia" to change its corporate name. Petrce, J.:—

The petitioners in this case pray that their corporate name may be changed to "The Philadelphia Polytechnic University." This is opposed by the trustees of "The Polytechnic College of the State of Pennsylvania," on the ground that their College is located in the city of Philadelphia, and is commonly known as the Philadelphia, and is commonly known as the Philadelphia Polytechnic College, and that the Legislatuse of Pennsylvania, at its last session, refused to incorporate the petitioners by the flame of the Philadelphia Polytechnic College, and that compliance with the request of the petitioners would be detrimental to the well-carned reputation and prosperity of the institution with which they are connected. This application was before this Court previously to change the name of this College to the Philadelphia Polytechnic College, which, after argument, was refused by President Judge Alisson. The petitioners now propose to call their name "The Philadelphia Polytechnic University." Is this name to distinctive that it would not be liable to be confounded with the Philadelphia Polytechnic College, university, though having different origins, and different shades of meaning are of general application to a place of instruction. Thus, Richardson defines a university to be a "school or college for teaching." A university is properly a university in the search of learning on education, as te-"This place shall be at once both School and University, not needing a remove to any other house of scholarship." But though this is the large sense of the term, it also has the other meaning of a schoo

the petitioner, in the argument of this case, that there could be no such evaluative right or proprieterably of the term Polyschuic as to entitle the remonstrants to the sole use of it. The answer to this is of a twofold character—first, that this is not a question of the use of appropriation of words which are open to every one, but is a petition for the great of a corporate privilege, the granting of which once belonged to the Legislature, but which has since been conferred on the Courts of Quarter Sessions of this Commonwealth. It is, therefore, a matter of sound discretize in the Court, and not or rights is the prittioners. Second. It does not seem to me that the objection of the remonstrants resson the use of the word Polytechnic, but in the general resemblance of the two names.

The one is the Polytechnic College of Prinarylyania.

objection of the remonstrants rests on the use of the word Polystechnic, but in the general resemblance of the two names.

The one is the Polytechnic College of Prunsylvania, usually known as and called the Philadelphia Polystechnic College; the other is proposed to be called the Philadelphia Polystechnic University. The objects of these institutions being slike, their focalities being in the name city, and their names to the popular complete of the consourced in the public mind, and disadvantages either to the one or the other, or to both of them, result from this popular confusion of them. On the subject of trade-marks, to which this application of names is analogous, Courts of Equily have restrained a defendant who combigs a colorable artifice, not strictly a fac simile, or imitation. Coffin vs. Brunton. 4 McLesan, 518; Collinday vs. Baird, 4 Philadelphia, 128, So an injunction will be granted to restrain an owner from running omnibuses having on them such names, and words, and devices as to form a colorable limitation of the words, names, and devices on the omnibuses of the plaintiff; 2 Story's Equity Juris, sec. 381; Knott vs. Morgan, 2 Keen's Rep., 218. So a publisher was restrained from putting forth the same milody with different words, but with words so similar as to give if the appearance of being the same, and stating that it had been sung by the same performer at the same place named in plaintiff's publication, which was false. (Chappel vs. Sheard, 2 Kay & J., 17.) And the defendant cannot explain to customers that the music is not the same as the plaintiff's. (Chappel vs. Davidson, 2 Kay & J., 189) It may be suggested, also, that Polyteconic University, if the werd University is used in its full sense, as applied to aria is a misnomer or contradiction of terms. We may say a technic or art university is to imply a universal arianght.

This petition is refused, with leave to the petitioners to the full heaves of this Court, if they

SPECIAL NOTICE.

TO STATIONERS AND ALL BUYERS OF ENVELOPES.

THE LOCKWOOD MANUFACTURING COMPANY

Announce to the Trade and to Consumers that they are prepared to fill orders for Envelopes in lots of 1000 to 5,000,000, for immediate delivery or contract, and have forty different grades of papers in stock, both Engine and Tub or Animal sized, and of a variety of colors and weights.

About a year ago we purchased an interest in certain Patents on Envelopes and Envelope Machinery, whereby a saving of 25 to 30 per cent. is made in the manufacture of Envelopes, and since that time have been engaged in building machinery, intending to add this branch of manufacture to our business. We are now prepared to make from 300,000 to 400,000 a day, and have machinery building

to produce 700,000 daily (which, by running day and night, can be increased to 1,400,000 day, a production nearly treble that of any concern in the country).

The greatest capacity of any Envelope Machine previously invented is 20,000 to 25,000 to

day, requiring from three to five bandlings, while our new machine has an average production of \$0,000 to 90,000 a day, the paper passing in from a continuous roll at one end, and the Envelopes coming out gummed and completed at the other, at the rate of 175 to 200 a minute.

These Envelopes are nester in appearance, more evenly gummed, and are less liable to be

opened than the old style, while to Printers and Lithographers they offer great advantages in the saving in type, and neatness in appearance when printed, there being fewer thicknesses of paper than in the old style, and a more even surface for printing. We are prepared to take orders for Envelopes, Plain or Printed, having ten of Gordon's

latest improved Printing Presses, with 150 fonts of new type. For the purpose of introducing our Knvelopes to the public, we will sell either plain or printed, in lots of 1000 and upwards, and have adopted a uniform scale of discounts, and parties purchasing in lots of 5000 or over will receive a discount from our regular prices—the larger the order, the greater the discount.

To prevent mistakes, and to secure the best goods and lowest prices, parties ordering are advised to send their orders direct to our office, and samples will be sent to or shown those who are unable to call.

Hon. George W. Woodward, Chief Justice of the Supreme Court of Pennsylvania, writes:—

PHILADELPHIA, March 16, 1687.

I find "Hoofland's German Bitters" is not an intoxicating beverage, but is a good Tonic, useful in diseases of the digestive organs, and of great benefit is cases of debility and want of nervous sotion in the system. Yours traily. Principal Office, 681 Arch Street, Philadelphia.

tiat Church, Philadelphia.]

From the many respectable recommendations given to Dr. Hoofland's German Bitters, I was induced to give them a trial. After using several bottles I found them to be a good semedy for deblity, and a most excellent tonic for the stomach.

[From Rev. William Smith, formerly Paater of the Vincentown and Milville (N. J.) Baptist Churches,]

Havirg used in my family a number of sottles of your Hoofland's German Bitters, I have to say that I regard them as an excellent medicine, especially adapted to remove the diseases they are recommended for. They strengthen and invigorate the ayare mended for. They strengthen and invigorate the ayare the liver, loss of appetite, etc. I have also recommended them to several of my friends, who have tried them and found them greatly beneficial in the restoration of health.

Yours truly,

William Smith.

[From A. M. Spangler, Editor of ha Culturist, Not2 North Sixth Street.]

Some eighteen months since, I was a severe sufferer from dyspepsia. I was not only unable to take plain food without suffering great distress, but had become so deblitated as to be aimost unfitted for active business of any kind.

After trying a variety of so-called remedies, all of which proved worthless, I was induced, at the sugestion of a medical irlend, to give Hoofland's German Bitters a trial. I accordingly purchased six bottles, which were taken in accordance with your directions.

bottles, which were taxen in accordance with your directions.

The result was a complete removal of all discreasing symptoms after eating or drinking, and a full restoration of sirength, so that I now eat all ordinary kinds of food with impunity, and aur able to attend to all the active duties of a large and ardoous business as well as at any period of my life the good effects of the Bitters were manifested before I had taken the first bottle.

I have also used it in my family with the happies results, and take great pleasure in adding my tentimony to that of the many others who have been bonelised by it. I find creat benefit from the use of a vigorous appetite, but give a healthy tone to the stomach by strengthening its directive powers.

If the above testimony will be the means of inducing any who suffer from Dyspepsia to give your Bitters a trial (when it, I feel consident, will give them relief) it is at your service.

Yours truly.

A. M. SPANGLEE.
