Lewis C. Cas-sidy, Esq., appeared as their counsel. The in-vestigation was to have commenced at 10 o'clock, but the absence of Robert Evans, Coun-climan for the Fifteenth Ward, who had been summoned as a juror, kept the Coroner, wit-nesses, defendants, counsel, and reporters waiting for half an hour. This caused a great deal of dissatistaction on the part of the abovedeal of dissalisfaction on the part of the above-mentioned parties, and when Mr. Evans ar-rived he was censured by the Coroner. The following testimony was elicited:-

A SCULLING RACE ON THE DELAWARE AT BRIDESHURG.-This afternoon at 2 o'clock was the time appointed for the race on the Delaware between James Hamill, of Pittsburg, and Wm. Myers, of this city. The arrangements for this contest were entered into several weeks ago, the challenge coming from Myers inmediately after his successful race with Mr. William Glenn, on his successful race with Mr. William Glenn, on the Delaware, during the past summer. Myers has been a prominent carsman on the Delaware and Schuylkill for some time past, and having achieved the championship of the former river, he desired to male himself with the hero of the Hudson in the recent affair with Walter Brown. On receiving the challenge, Hamill paid a visit to this city, and finally accepted the terms proposed, although the style of boat selected, a fifteen-feet skill, was somethings to which he was not altogether the style of boat selected, a fifteen-feet skill, was something to which he was not altogether acoustomed, and it was thought at the time that the Delaware champion would get the better of him. The amount of the prize was fixed at \$1000 a side, the race to start from the stake-boat, opposite Bridge street, Bridesburg, and to extend two miles and a half up the river and return. and return.

When Hamili reached this city after his race on the Hudson with Walter Brown, he accepted the hospitalities tendered him by Mr. Thomas Dickson, of Bridesburg. He was accompanied by Mr. Nicholas Smith, of New York, and by Messrs. Spear and Newell, of Pittaburg, who officiated as his trainers for the recent race with Brown. ecent race with Brown.

Yesterday the backers of the two contestants met at the house of Mr. Dickson, at Bridesburg, and made the final deposit of the stakes. Robert H. Newton, of this city, was appointed referee; and Messrs. Nicholas Smith, of New York, and John Newell, of Pittsburg, were se-lected as judges for Hamil, while Messrs. Samuel Rice and William Rice, of Philadelphia. Samuel Rice and william Rice, of Philadelphia, were chosen to act in a like capacity for Myers. The start will be made at 2 o'clock this after-noon. A number of steamboats were chartered for the purpose of carrying up to Bridesburg those who were desirous of witnessing the con-test. At 10 o'clock this morning a preliminary race came off between Messrs. Cornwell and Simons, something of this sort being deemed advisable for working the enthusiasm of the crowd up to the proper pitch.

WIFE BEATER .- Peter Boen, a fellow fiftyfive years of age, was arrested at an early hour this morning for beating his wife. This is not a new offense for Peter, as he has been in the habit of beating his wife at intervals for some years back. The assault of last night was one of rather unusual severity and night was one of rather unusual severity, and as it interfered with the comfort of the neighbors to hear her cries, they had Peter arrested. He had a hearing before Algerman Heins, in which he seemed to think that he was deprived of his just and lawful rights in not being allowed to whip his "vrow," an opinion in which the Alderman did not coincide, and accordingly held the accused in \$1000 bail to answer.

LARCENY OF BRASS COCKS .- John Thompson was arrested in Frankford road, below Otts was arrested in Franciou John Schwerter street, yesterday afternoon, upon a charge of larceny. FROM PRESENT accounts, the Riverside Institute, for the gratuitous education of soldiers' and sailors' orphans, will prove a greater success than was ever anticipated by the most sanguine of its adherents. The liberal plan adopted by the Washington Library Company for securing the funds required for the endowment of this home, has met with such hearty encouragement that a large sum has already been handed over to the Trustees, and the good work will at once commence. Preparations are now being made to admit within the walls of the Institute a certain number of orphans, to be followed by others, as soon as the necessary alterations, additions, etc., to the building are completed. Let those who have not subscribed towards this noble object do so at once. The shares, sold at \$1 each, secure, in return, more than could in any other way be obtained for such a small sum. At the time of purchase a handsome steel-plate engraving is given, with the guarantee that for each share of stock held one present will be awarded. The total value of the presents to be distributed among the shareholders is \$300,000; one being worth as high as \$40,000; another, \$20,000; a third, \$18,000; a fourth, \$15,000; a fifth, \$10,000; a sixth, \$5000; two worth \$2500 each, etc. The circulars, containing a full list of the presents, with their

She remained at that place until the foremast went overboard and the windlass

gave way, when she again drifted and was car-ried by the current alongside of pier No. 28,

where she remained stationary. The engines ceased to work shortly before 4 o'clock, as all efforts to get the fire under had proved unavailing. At a quarter to 5 o'clock the main and mizzen masts went overboard with a tremendous crash, and preparations were again made to scuttle her, as it was feared that if allowed to burn to the water's-edge the dock would be in danger of catching fire. This in-tention was finally abandoned, as it was deemed impossible to carry it out successfully, on ac-count of there being no barge on board.

At six o'clock the engines again went to work. Two were on the dock and two on board a tugboat in the river. They continued to throw streams of water into her hold until about cleven o'clock, when, inding that all efforts to extinguish tha flames were unavailing, the still blazing hull was towed down the East river, of Governor's Island, where streams of water were thrown on her from numerous tugs and the flames extinguished at a late hour last evening.

During the time that the ship lay at the Brooklyn side of the river, John Hinderman, a member of Engine Company No. 9, was seri-ously injured by falling from a ladder. He was conveyed to his residence in Ormond place, and hopes are entertained of his recovery.

The Invincible was built by Mr. Webb about twelve years ago, was 1326 tons burden, and was valued at \$100,000. She was one of a line of mcrchantmen sailing between New York and San Francisco, and was owned by Messrs. Hastings, Billings & Co., of Boston, who, it is re-ported, sustain a loss of about \$60,000. At the time of the accident she was about loading with a general cargo for California, but, very luckily,

nothing had been placed on board. Nothing definite has been ascertained relative to the origin of the fire, although it is presumed to have been caused by a spark from a canile, as the shipkeeper (Dean) was, it is stated, in the hold on Tuesday afternoon with a lighted candle, and there was no other fire on board during the day.-N. [SPECIAL DESPATCHES TO SVENING TELBORATE.] Yellow Fever at Pensacola.

WASHINGTON, Sept. 12,-A letter received this morning at the Navy Department from Captain Armstrong, commanding the Navy Yard at Pensacola, represents that the yellow fever is raging there terribly. From the 8th to the 28th of August, 223 cases were reported, and 28 deaths. Since that time no record has been kept, the caves being so numerous, and so many being sick. Hospitals have been established, and relief in physicians and money has been sent from Mobile. They want more physicians and nurses. Work in the Navy Yard has been nearly suspended on account of so many workmen

The Case of Fitz John Porter.

Fitz John Porter was at the White House this norning, waiting an interview with the Presilent. He also visited General Grant at the War Department, with whom he spent some time, The impression prevails that Porter's applica tion for a new trial will receive a favorable consideration at the hands of the President although it is said some feeling has been created by the early publication of portions of the ap-plication. But this will not affect the merits of the case, which will be decided wholly upon the ground of adequacy of the testimony alleged to have been after discovered.

There is a certain esprit du corps among the regular army officers, and they feel deeply the stain which is cast upon the profession by any officer being cashiered, and this teeling is becom-ing strongly developed in Porter's case, as most of the army officers who have been discussing the matter this morning appear invorable to reopening the case, to allow the accused an opportunity, if he can, to vindicate himself. I am not sure that this feeling is not entertained by the General-in-Chief, for early this morning he visited Porter at his hotel. It is highly probable that Grant will interpose no ob should the President decide to reopen the case. The indorsement of prominent Republicana will also exert a strong influence in Porter's behalf.
