

CHRISTIANITY IN ENGLAND.

Lecture by Rev. Newman Hall—The High, Low, and Broad Churches of Great Britain. From the Chicago Republican, 18th.

Despite the very warm weather, there was quite a large number of persons in attendance at evening at the First Congregational Church to hear the lecture of Dr. Newman Hall on "Christianity and Labor in England."

He said, with the permission of the Chair and his friends present, he would just say a few words by way of finish to his Monday night's discourse, through the subject for the evening, before commencing the subject for the evening.

He wished to say that his greatest object on this side of the water was to convince Americans of the unity of their English brethren. He did not wonder that when the Alabama was not taken but one view of the subject, and had never changed. They had always been on the side of the North.

Then the English people thought it ridiculous that we should fight against slavery when our Constitution forbade it. He said it was erroneous to hold that his countrymen sympathized with the Rebellion.

He then read a letter which she wrote to the wife of our late President, were not only the words of sympathy of one widow for another, but words expressive of love for our great country.

The majority of the papers of his country were favorably disposed towards our country, but we do not seem to see it. There had been a hundred meetings held in all parts of the country, and all in favor of the North, but we would not see them by looking at the Times newspaper.

He then read a letter which she wrote to the wife of our late President, were not only the words of sympathy of one widow for another, but words expressive of love for our great country.

FINANCIAL. 440 MILES OF THE UNION PACIFIC RAILROAD, Running West from Omaha Across the Continent.

Are now completed, and it is expected that the remaining 17 miles to carry the track to the base of the Rocky Mountains, will be finished early in October.

Contracts have already been made for rock-cuttings beyond, to be done during the winter. The work is being pushed forward with equal energy on the California end of the route, under the direction of the Central Pacific Company, commencing at Sacramento, and it is confidently expected that the two roads will meet in 1870, thus completing the entire grand line connecting the Atlantic and Pacific oceans.

On which TWENTY-FIVE MILLION DOLLARS is being expended. The work has already been expended. From the liberal Government aid, the wealth and energy of the stockholders, and the ready market for the First Mortgage Bonds, there is no want of funds for the most vigorous prosecution of the work, and its early completion is as certain as any future business event can be.

NET EARNINGS OF THE UNION PACIFIC RAILROAD. During the quarter ending July 31st of the current year, an average of 325 miles of the Union Pacific Railroad was in operation. The Superintendent's report shows the following result—

Table with columns: Item, Amount. Includes Passengers, Freight, Fuel, and NET EARNINGS TO BALANCE.

From the relative high charges, the operating expenses of the road are but 32 1/2 per cent. of the earnings, and the ratio would be much less if the contractor's business were not done at half rates.
