Governor Morton on the Public Debt. Governos Moston, of Indiana, is one of the soundest statesmen in our whole country. He has the happy faculty of saying the right thing at the right time. He gave examples of this on several occasions during the war, when his wise and inspiring utterances were most valuable and efficacious in modifying and elevating public sentiment. He has just done the country good service by a powerful and timely letter upon the public debt. It is needless to say that Governor Morton shows no favor towards that underhanded method of repudiation, by paying our bonds in paper currency, which has lately been put forth in different quarters. What he proposes is the simple dictate of good sound common sense, as applied to the question in hand, and that is to abandon the absurd idea of anticipating the payment of the debt, to reduce taxation to the lowest possible point consistent with raising revenue enough for paying the interest on the debt and the current expenses of the Government, and to leave the payment of the principal to more prosperous and stable times. We can go on attempting to reduce the principal-and there is something quite gratifying, we confess, in being able to say that we have paid fifty millions of debt during the year-but we can only do so by maintaining a rate of taxation which is not only oppressive, but even destructive, to many branches of industry. Taxation, beyond certain well-defined limits, defeats its own ends by impairing the productive power of the country. The true pollcy, therefore, is to reduce taxation to the lowest figures consistent with the indispensable requirements of the public service.

That the country is fully able to pay every dollar of its debt, and that it will do so, we have no doubt. But we shall do it a great deal more easily and surely if the views of such men as Governor Morton are made the guiding principles of our policy.

The Press on the Antietam Outrage. THE base attempt of President Johnson and his servitors to prostitute the late celebration at Antietam to partisan ends and purposes has called forth universal condemnation, from one end of the country to the other. The gross insult to the States of Pennsylvania. New York, and New Jersey, which were represented there by their Governors, and to every loyal State in the Union, and to every soldier who fought on the side of his country, has inspired a deep feeling of resentment, which is finding very general expression. The event, too, has turned public attention most oppor. tunely to the contrast between Abraham Lincoln's speech, on a similar occasion at Gettysburg, and that delivered by Andrew Johnson at Antietam. The contrast is terrible, and serves to show how appalling is the apostacy of the present occupant of the Presidential office from the principles of his great and good predecessor. The want of appreciation, too, by Mr. Johnson of all the proprieties of his position as the chief officer of a great Government, is a national disgrace. Even the New York Herald is moved by this last exhibition to say of him:-"He is looked to by all eyes as the exponent of what should be manly, gentlemanly, and courteous. Instead of even approaching the ideal, he allows the petty feelings of political passion to enter into all his dealings with those who may oppose his career as a statesman, and on every occasion displays the little mind that disgraces us as a people. Even Antietam, more than sacred to us, was not sacred to the man whom we call our President. How long are these things to be endured ? How long are we to bow our heads in shame whenever a national event like Antietam calls for the broad minds of real statesmen to give it a tone of which we may be proud ? How long are we to entertain the representatives of foreign powers with sights like that which have made Antietam a disgrace, and which have reflected that disgrace throughout the world as a reproach against the republicanism of which we boast ?"

laws and Sunday cars, and all those questions which will tend to weaken us in a political contest. We must repudiate these doctrines. We must separate them from our platform and steadfastly stand by but one great issuethe issue between Andrew Johnson and the people. Maine and California teach us this sson, and if we blindly let ourselves be deceived as our brethren were in the States named, then we deserve the deteat which will surely be ours. But activity and wisdom, and the righteousness of eur cause, can win us the day beyond doubt.

"Joseph N. Peirsol, the Reform candidate for City Treasurer, will receive thousands of votes never before cast for a Democratic nominee. The people of Philadelphia don't want any mare of their money sunk in 'Davy Jones' Looker."—Age.

-Certainly, Mr. Peirsol's claims to the position are incontestable. His chief claim on the votes of our citizens is based on his letter of June 23, 1862. Who could refuse to support a Philadelphian who would write to a

strange Senator in order to say:-

"Sir:-I take the liberty of addressing you upon the subject of the proposed location of the United States Navy Yard at League Island. I have been informed, and I believe, League Island has been wholly reclaimed from the river Delaware, and is only prevented from overflow by large banks of stone and earth. It is suriounded, except upon one side, by a marsh, and for this cause, as well as from insalubrity, it has been unimproved and unoccupied except It has been unimproved and unoccupied, except as pasture land, at a moderate rent, since its re-clamation. Thus the gift of the Island would be dear, and still dearer if \$2,000,000 were added to the gift towards fitting it for use."

Every one who desires to reward this truehearted Philadelphian, the friend of League Island and of the best interests of our city, will vote for him against Mr. David Jones.

ANOTHER PARDON .- The latest Executive clemency has been shown to Dr. Blackburne, of New Orleans. There is no name in connection with our war more notorious and more criminal than that of the man whose crimes have been wiped out by the pardon of Mr. Johnson. This man Blackburne was the scoundrel who endeavored to import yellow fever into our cities, and has been proved to have bought garments containing the infection, and boxed them up for transportation into our midst. Yet it is to such as this that Mr. Johnson extends Executive elemency; and while he strikes down Sheridan, Sickles, and all the patriots, he rewards and reinstates in their rights those fiends who have violated every principle of law and morality. Little by little the Executive is heaping up a record of infamy which will crush its author and compel impeachment.

INFORMATION WANTED .- The people of Phiadelphia who take an interest in curious statistics desire to have answers to the following questions. All replies must be forwarded in a tabular form:-

How many offices has Mr. Peter Lyle tried to be nominated for ?

How many has he actually run for, and been defeated ?

When will he succeed in getting any of the loaves and fishes which his soul has so long craved ?

AN INCIDENT AT THE BANK OF ENGLAND .- The chief of the city police in London recently received information of a remarkable incident which occurred at the Bank of England, and which is expected to prove one of the consequences of a forgery committed by a clerk connected with one of the public companies in the city, and who has since absconded. A few days ago a respectable young man presented himself at the exchange counter at the Bank of England, and tendered five £100 Bank of England notes for change. The clerk, taking up the notes, inquired, "How will you have it ?" "All in gold," was the answer. "What name ?" inquired the clerk. The man gave a name, and the clerk had no sooner turned over the leaves of the Post Office Directory to ascertain if correct, than the man took to his heels and ran out of the bank, leaving the five notes in the possession of the clerk, and the man has not since been heard of. The matter was placed in the hands of the police, who have elicited from their inquiries that the notes were the produce of a forged check, and the man implicated was the registrar in a public company in the neighborhood of Lombard street. A belief has been enter-tained that other forgeries had been committhe by the registrar, but the company have thoroughly examined all receipts that have passed through his hands, and find that this is the only case.

makes purchases, but with the prospect of peace a lively trade will scon spring up for foreign manufactures. Grey shirtings and cotton yarns were in good demand, selling freely at good prices; no demand for woolien goods and metals. The demand for firearms had quieted down, and it was difficult to cover the cost of importa-tion.

The unfavorable state of the home markets bas checked the demand for raw slik, and prices continue high and holders firm. The prices continue high and holders firm. The collection of new season crop of tea aro large, principally for the New York market. The slock is composed of medium to good-medium, with a small portion of fine grades. Prices ad-vanced during the hast fortnight from \$2 to 33 per picul. Imports of rice and sugar have stopped. Prices were lower.

One of Evans & Watson's, Philadelphia, old make, price.. These Sales were purchased, with the exception of Sanborn's Improvement, from the stores of the respective makers, with the guarantee that they were of the best of their respective manufactures.

A Few Words of Advice. THE SUCCESS of the Republican party in the approaching elections is not by any means assured. We are not afflicted with the optimism of Seward, and, therefore, cannot invest the future with the roseate hue which comes only to the blindly hopeful. If we would carry the great State of Pennsylvania in the coming election, we must work hard and act with discretion. The enemy are active and confident. They are over-confident. The result in Maine and California, caused entirely by local issues, has so inflated them that they consider the offices of our State as already given over to them for spoils. This confidence, we think, is a guarantee of their defeat. But, in order to gain the day, we must adopt two lines of action. We must work and talk and strive. This is no time for supine negligence. The workers of the party must canvass thoroughly and bring out all our strength. It will require every vote that can be mustered; but with proper activity, we can secure our majority beyond a doubt.

In the second place, we must throw to the winds all side issues. The Democracy, with a cunning which does them credit, have been seeking to fasten upon us the odium of being the authors and supporters of liquo

In the test of burning, the fire was applied at 31/2 o'clock, on the morning of the 14th, and was extinguished at 1 o'clock P. M. The wood consumed in the burning was sixteen cords, and was equally distributed among the respective safes,

The Committee inspected the condition and the contents (which were equal) of the respective safes before burning, saw that all were properly closed, and a portion of the Committee was present during the burning.

After the burning, and on opening the safes, the results were as follows:-

C. S. Maiser's, contents totally destroyed. Lillie & Son's, contents totally destroyed. American Steam Fire-Proof Safe Company's Steam Fire-Proof Safe, contents in periect condition. Steam Fire-Proof Trunk (Sanborn's Patent), conents discolored and damaged.

Marvin & Co.'s, contents totally destroyed. Evans & Watson's, with Sanborn's Patent Improveent, contents in perfect condition,

Farrel, Herring & Co.'s seemed to resist the fire orger than either of the safes of the old malse, but its ontents were totally destroyed.

E. Hassenforder's, contents totally destroyed. Evans & Watson's, old make, contents totally destroyed.

In view of this result, and inasmuch as no premium has been offered by the Society for this interesting and valuable display, the Committee recommond that a GOLD MEDAL be awarded to the Sanborn Improvement, as shown in the Safe manufactured by EVANS & WATSON, of Philadelphia, and in that made by the American Steam Fire-Proof Safe Company.

An examination of the Safes after they had entirely cooled, showed that the matter contained in the tubes of the Sales made after the Sanborn Patent had not been more than hall exhausted.

JOHN F. HARTRAFFT, ALFRED S. GILLETT, WM. H. JOHNS. ROBERT IREDELL, JOHN SHAFFNER, LLOYD JONES, WM. H. KEMBLE,

The STEAM FIRE-PROOF SAFE has been burne in test fires with Herring's, Marvin's, Lillie's, Valentine & Butler's, Tilton & McFarland's, Edwards & Kershaw's, Hassenforder's, Maiser's, Morse's, Jones', Miller's, The Tremont Co.'s, and Evans & Wat son's Safes (without the Steam Improvement), and ALWAYS WITH COMPLETE AND TRIUM. PHANT SUCCESS, in each and every case pro-serving its papers WHOLLY UNINJURED, white the contents of all its competitors were ENTIRELY DESTROYED.

We invite the public to call and examine the BAF His tested with the STEAM FIRE-PROOF BAFES at Norristown, Pennsylvania, September 14, 1867, compare their condition with that of the STRAM FIRE-PROOP SAFE, and examine the contents of the latter, WHOLLY PRESERVED.
