makerino of the Additution no. 702 Walnut street, at 11% o'clock, Mr. Craig Biddle in the chair. After the reading of the minutes several packages of wheat were presented for distribution. Mr. Joseph F. Perot was then elected a member of the Association. The report of the Farmers' School was read and accepted; after which the question of the new farms, which the Association intends to purchase was dis-cussed, and the necessity of locating one of them near the city was urged.

which the Association intends to purchase was dis-cussed, and the neccasity of locating one of them near the city was urged. Mr. Coleman then moved that Mr. Blight be author-lized to express to the committee, as the opinion of the Association, the nec ssity of locating one of the farms thear the city for agricultural and stock raising pur-poses. Carried. Mr. Thompson then spoke of the habit of horse-racing and betting at the Agricultural Exhibitions. After some talking on the subject, Dr. Thompson presented some fine specimens of the Early Rose. Potato. Mr. Harrison explained the origin of the Early Rose, and stated it was equally as fine as the Mercer in its earliest days. The potato question occupied quite a length of the time, and when at last the subject was exhausted for the day, the question was asked if it was injurious to feed the cow on skimmed or butter milk? and it was decided it was not.

decided it was not.
Mr. Hall then spoke of the advantages of a fertilizer made of the aches of peat.
Mr. Brown announced the death of Mr. Butler.
Several gentlemen then spoke in testimony of the many good qualities of Mr. Butler.
Mr. Joseph Reid and B. F. Miller, of Delaware consty, were proposed for memborship, The Society then adjourned.

#### General Peter Lyle's Speech.

The following is a true copy of General Lyle's speech to the Convention that nominated him, as reported by Mr. McAran, a well-known processional phonographic reporter, and sworn to by him as being correct in every particular;-"Mr. President and Gentlemen of the Convention:

I have to ask one grace of you, and that is, not to ask me to make a speech. I can work, but I cannot talk; but I can say that I owe this Convention a debt of gratitude that I never can pay. This is, I think, the first time in the history of the party where they have given the nomination twice by acclamation as they have given me. The work, gentlemen, is just com monced. This is the commencement of it. Let us canvass our precincts and stop this colonization. Officers of election, where we are in the minority, should attend the meeting; and the Return Judge, where we have one, should attend the meeting next morning, for there is where the damage is done, particularly where we are in the minority, If we stop this cheating, the lowest man on our ticket will be elected by from 6000 to 8060 matority. I have travelled the county over for the last three months. I have met many people in the canvass. I have seen and conversed with many people, and I have failed yet to meet the first man who does not know from one to twenty who have changed their opinions from last year. We were not beaten last year, I WAS NOT BEATEN, I WAS ELECTED BY A HANDSOME MAJORITY; but I was counted out, The right way is not to let those RAECALS do it again. I can do no more than thank you from my heart for the position in which you have placed me. I will leave nothing undone for the success of the ticket." (Applause.)

#### League Island.

The following is a letter of Joseph N. Peirsol, Democratic candidate for City Treasurer, to a member of the U. S. Senate:-

Democratic candidate for City Treasurer, to a member of the U. S. Senate:-PHILADKLPHIA, June 23, 1862. Sir:--I take the fiberly of addressing you upon the subject of the propose location of the United States Navy Y ard at League Island. I have been informed, and I believe, League Island has been wholly reclaimed from the river Delaware, and is only prevented from overflow by large banks of stone and earth. It is surrounded, except upon one side, by a marsh, and for this cause, as well as from insalubrity, it has been unimproved and unoccupied, except as pasture land, at a moderate rent, since its reclamation. The fast land is from six to eight feet below high-water mark at all points, and would cost over a million dollars to level and fit for use as much as will be required for the farge purposes projected. If the object is to erect foundries, the spongy nature of the soil would make it impossible to get a proper foundation for the buildings except at a great cost, nor could a well of sufficient depth be dug for large castings. It could not cost less than two or three million dollars in ship-houses, dry-docks, and other structures now in the old yard, which would have to be abandoned. Thus the sift of the Island would be dear, and still dearer if \$2,000,000 were added to the gift towards fitting it for use. Most of the ship carpenters employed in the yard now reside in Kensington, nearly eight miles dis-tant from the Island, where they would con-tinue, as Government work is not sufficiently regular or remunerative to induce a permanent

tinue, as Government work is not sufficiently regular or remunerative to induce a permanent removal. The Island is at least five miles from the supply stores of the city. The approaches are as low as the Island liself, and unfit for building purposes, and far distant from hydrants, gas, improved streets, police and rail-roads.

roads. The place has only to be visited and seen to de-monstrate its unfilness, and I would humbly suggest a visit by a committee of Congress for the purpose, before so great an outlay is in-curred or promised, where performance is im-possible. There are minor objections, which I possible. There are minor objections, which I will not urge. I am as carnest as any Phila-delphian in the desire of the location of a first-class yard, but it is my duty, impelled by the same feelings which you have, to state to you, as a public man, it will cost at least four million goldars to fit League Island for the least effi-diency as compared with the present yard. If you add foundries, etc., that will be an addi-tional expense, which I will not undertake to estimate.

tional expense, which I will not interestinate. The present yard may be extended for about two humdred and fifty thousand dollars, and provide all the ground necessary now and hereafter with out disturbance or delay. I am ready to give fur-ther information. Being personally unknown to you, I refer you to any of the Philadeiphia delegation of the House to be assured who I am. With high respect. JOSEPH N. PEIRSOL,

A VISIT TO THE OFFICE, No. 1215 Chesnut street, will satisfy all that for every dollar subscribed in behalf of the Riverside Institute, more than a fair equivalent is obtained in the beautiful steel-plate sugraving given free with each share of stock sold. In addition to this, each share guarantees one of the \$300,000 worth to be distributed hereafter.

SALE OF BOOTS AND SHOES.—We would call the early attention of the trade to the large sale of Boots, Shoes, Brogaus, Balmorals, etc., to be sold by McClelinnd & Co., auctioneers, at their store, No. 506 Market street, to morrow (Thurs-day) morning, Oct. 3, commencing at 10 o'clock precisely. precisely.

WHISKY FRAUDS.

The Raid on the Richmond Stills last Saturday. Some of the particulars of the raid made on

the illicit whisky establishments in Richmond

were given in THE EVENING TELEGRAPH of yesterday. The full particulars of the affair

were as follows:-

were as follows:—
 It became known to the Collector of Internal Revenue of the Fifth District, recently, that there were at least one hundred stills in operation in that locality, nearly every one of which was being conducted in an liket manner. Indeed, it is said that in the whole Fifth District there are but two distillers who have regularly inten out a license, all the ethers belonging to the liegitimate class.
 Toder such circumstances, it is necessary that the distillation should be carried on in an underhanded way. Cowstables, with which institutions Richmond abounds, appear to be considered the safest places for these operations. The stills, likewise, are of a very finitation fashing.
 The Collector having determined upon a raid, Mr. L. B. Cole, the chief of the Rind Inspector westerveit, Byrns, Keenan, Donnelly, Einstein, A. H. Brooks, and Ghegan were detailed to assist him. Having received their instructions, they started for freemond on Saturday morning, arriving on the street cars in the store of the street cars in the street cars in the store of the street were started for the street were bened for the street of the started for the street of the street of

A DANGEBOUS SEASON .- An almost unparalleled quantity of rain has fallen during the summer. Vegetation has been wonderfully thick and rank, and, as it decays, an unusual amount of sickness may be expected unless proper means are taken to prevent it.

Fever and ague and billous remittents already prevail to an alarming extent, and as the Fall advances and the malarious night fogs become heavier, the sick list is likely to increase both in the city and the country. It is, therefore, only an act of common prudence to keep the vital forces in full vigor, so that they may resist the unhealthy influences of the season. Reinforced by the tonic operation of HOSTETTER'S STO-MACH BITTERS, the system, however weak and susceptible, naturally will, in nine cases out of ten, successfully combat every species of atmospheric poison by which spidemics are produced.

During the months of September, October, and November the difference in temperature between day night is very great, and the chilling dews and mists of the season are the prolific causes of indigestion cholera-morbus, diarrhosa, and dysentery. Bearing this in mind, remember, also, that the BITTERS not only invigorate the stomach and brace the nerves, but act specifically upon the bowels and the liver, imparting to those important organs regularity and tone. It is not reasonable to expect immunity from prevalent com

plaints if no precautions are taken to escape them. HOSTETTER'S BITTERS are at once pleasant to the teste, and the most certain of all safeguards against febrile allments.

SCRELARS CARRY OFF \$200 IN SILVER PLATE. -Some time during last night, one or more bur-slaricus individuals forced open a window in the back buildings of Mr. Henry Huddy's residence, at No. 1520 Arch street, and thus effected an entrance into the honse. None of the occupants were dis-turbed, but this morning the depredations of the bur-glars were discovered, and it was found that they had carried off with them, in addition to several articles of minor value, a quantity of silver plate, valued at gr of This hast was especially valuable, as it consisted principally of heirlooms which had been in the pos-session of the family for a number of years.

THE GERMANIA ORCHESTRA will recommence their Saturday renearsals on Oct. 12, at Musical Fund Hall. These popular performances will be conducted in the same able manner that has characterized those of past seasons, and, with a view to meet the wishes of or past seasons, and, with a view to meet the wishes of the numerous patrons of the Society, the hour has been changed from the alternoon to 11% o'clock in the morning. This alteration places the performance at a time when there is least demand on the leisure of those that frequent the rehearsals. Under this new arrangement we cannot but predict an increased popularity for these always pleasant and entertaining performances.

He was returned to his old quarters by Alderman Pancoast.

LIVELY TIMES AMONG THE "SAFE" PEOPLE .-

By advertisements in other columns, it will be seen that Mr. M. C. Sadler, the agent of Lillie's sates, has challenged Measrs. Evans & Watson to submit the rival fire proofs manufactured by the two establish-ments to a grand test of their respective merits, and that the challenge has been accepted. A lively and interesting time may therefore be expected.
