## THE ITALO-ROMAN REVOLUTION.

## Ming Victor Emanuel's Proclamation Against the Garibaldian Movement.

Against the Garibaldian Movement. A telegram from Florence, dated on the 21st of September, reports the following royal order as having been issued in the Italian capital. The Ministers say:— The Ministers say:— The Ministers carefully watched up to the present the great agitation which, under the glerious name of Rome, is trying to force the country to violate international stipulations consecrated by the vote of the Parliament and the country to violate later the Parliament and the secrated by the vote of the Parliament and the honor of the nation. The Ministry regretived the injury which such agitation would no to the tranquillity of the State, the publi-ogeredit, and those financial operations on the aich depend the well-being and fortune of the country. Up to the present the Ministry have respected the rights of all citizer, but now that, contrary to those rights. Contain persons would proceed to threats, the aimfarty iteel it their duty to pre-serve inviolate the public confidence and the sovereights, of the law. The Government will remain faithful to, and thoroughly carry out, the declarations laid before and accepted by Parle ament. In a free State no citizen can rise above the law, or substitute himself in the place ab'ove the law, or substitute himself in the place of the high powers of the nation, and thus dis-tarb by violent means the organization of the country and lead her into the gravest complica-

The Ministry has confidence in the wisdom and love of country of the Italians; but if any one should fail in loyalty towards those national stipulations, and should attempt to violate that frontier for which we have passed our word, the Ministry will not permit such an act in any way, and will place on those persons contravening this order the responsibility of whatever acts they may provoke.

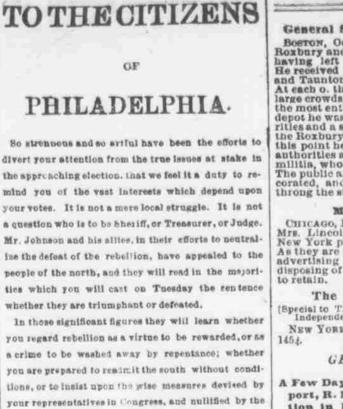

## What Makes Money Tight!

The grain received at the lake ports in Sep-tember was about double the quantity for Beptember of 1866, and all the Western banks were taxed to their utmost in satisfying the wants of the movers of all this product. The Wants of the movers of all this product. The discounting of this paper, and the withdrawal of the balances of Western banks, caused an outflow of currency, legal-tender and bank, of probably \$25,000,000 within the month. The same result will be measurably seen in October. Send us money and we will send you grain, is now the cry in the West. Besides, there is not an average of a wheat crop in Great Britain, and France is making large demands upon that quarter, which must be in part supplied by shipments from the United States. From the 7th to the 21st of September the export of wheat from the United Kingdom was confined to 9006 quar-ters, or 72,000 bushels, while the imports were as much as three millions of bushels, -N. POLITICAL.

Such are the real issues to be decided by your votes for local officers. It may suit the Democracy to-day to assure you to the contrary; but you may rest assured that if you do not an understand it, the country both north and south, is not so blind. It has of late been truly said by one of the ablest men of New York "Upon the fate of the Union Republican party, in the approaching election in Pennsylvania, hang consequences so wastand important that the mind does not readily grasp all the daugers of our position. A Decratic victory in that State would rouse the dormant energies of the whole rebel element of the south." California and Maine are claimed to herald the long looked for Democratic reaction, and have (already

given renewed hopes to he unsubdued rebel spirit. From every part of the unreconstructed States come to us appeals from Union men not to abandon them to the mercies of their enemies, who are only waiting the fulfilment of the hopes held out to them by their Democratic friends in Fennsylvania to renew the bitter proscription of the last six years, and practically to disfranchise all who have suffered for the Union. Fellow-citizens, will you desert them? But even more than this is the great question, whether our government for the fature is to be constitutionally legislative, or a one-man dictatorship? Mr Johnson has arrogated to himself legislative as well as executive functions, and has appealed to you, through his Democratic allies, for support. By your votes on Tuesday you are to deside whather you approve of his asurpation, or whether you are resolved "that gov-

ernment of the people, by the people, for the people shall not perish from the earth." Wm. M. Meredith, Wm. D. Lewis, Isaac Hazelhurst, Daniel Smith. Jr., Benj. Harris Browster, Henry C. HIS ANCIENT PATRONYMIC SAVED HIM NOT .-HIS ANCIENT PATRONYMIC SAVED HIM NOT,-by this time our many readers must have bereased that there is such a secret conclave as the "Schop]-kill Rangers," who prowl about in the day-time and the proughout the city at night, depredating right before the bandaged eyes of Justice. From time to time their favoite schemes-like other men and nice, etc.-have been discovered and made public. On Sunday morning, it will be rememised, that a posse of police arrested puglists, and backers, and friends, who were about having a time of it in the woods back of the Point hereze Gas Works. In the rush of police for prisoners, Lieute ant Larastere spied out a familiar face, and started for its owner, who, quick paced, but short-larged, attempted to

WEASE our readers to give the following Democratic insult to the memory of Abraham Lincoln a perusal. No man can be found in this country who would be guilty of such an outrage on the character and glorious fame of our martyred President, except in the ranks of that party of which Andrew Johnson is the leader-the Democratic party. It is difficult to imagine that any others than fiends themselves were the auditors who applauded this infamous production of our country's enemies. We quote from the Indianapolis Journal:---

At a meeting of Copperheads held at Hills-boro, Mr. Vallandigham was advertised to speek, but just before that apostle commenced, the Chairman, Mr. Jillson, announced that "he had just received a letter, and he would like to read it," Mr. Vallandigham said certainly, and Mr. Jillson read as follows:-

"To the Black Republicants of Ohlows:--"To the Black Republicants of Ohlo:--"I am here suffering torments for my crimes and marpations while on earth. In these flames I am re-minded of my great wickedness, and send these words to you that you may take warning. George Wasning-ton passed by me on the other side of the great will, but only looked at me with unutierable scorn. Take warning by my fate. (Signed) "ABRAHAM LINCOLN."

The impious devil read this with a chuckle and Vallandigiam made it the basis of ar appeal to his audience to avoid hell by voting with the Democratic party.
