The expectation of a great trot between the famous Lady Thorne, Queen of the Turi, and the brilliant trotter Mountain Boy, attracted to the Union Course yesterday one of the targest gatherings of the season, numbering about 2000 persons, not one of whom wore arigoline. The space allotted to carriages outside the track was crowded with stylish equipages, and the field also held a goodly number of them. The betting men were out in full force, and found in the varying peols an excellent opportunity for in- dulging their speculative tendencies. Before the trot and between the heats the pool-selling suctioneer had his hands full of business, and must have cealized a handsome sum from the liberal percentage which he deducted for hus tooble. Lady Thorne was at first the favorite, though not at long odds, for the gallant contest which Mountain Boy made against her last week on the Fashion Course was too fresh in memory for that. A great deal of money was laid out at this time at the odds of 100 to-75 on the Lady. After the Boy had put a heat to his credit, however, betting changed, although the backers of the lanky mare were so couldent of her powers as to lay their money at evens. Mountain Boy had the call in the betting, and although the majority of the pools sold with even figures, he had the most supporters, and gradually ad- vanced in favor until he was held at 100 to 93. After the second heat few were so poor as to de- ber reverence, and the hedgemen wildly endea- vored to get their money back by laying 9 to 2, and 5 to 1, on the Boy. |

vored to get their money back by laying 9 to 2, and 5 to 1, on the Boy. After the usual preliminary exercise the horses came up the home stretch for the *First Heat*, with Mountain Boy on inside. After one unsuccessful attempt at atarting, Mountain Boy going up on approaching the score, they got off, with the horse a length in the lead. The mare broke up almost instantly, went around the turn and passed the quarter with her legs manceuvring wildly in the air. By the time the quarter was reached the Boy had put at least eight lengths of daylight be-tween them, and had a seeming chance of ending the race by a distance. But the Lady came to her feet in time to prevent this, and gained gradually; for McLaughlin, as soon as he saw that he could not distance the mare, eased the horse and let his advantage ground gradually decrease. The half was passed in 1°13, the Boy leadlue by five lengths; the quarter had been made in 35 seconds. At the three-quarter pole the horse kept his lead, but was cased up on the home stretch, and won by three lengths in 2°23⁴. and won by three lengths in 2.254. Second Heat, The word was given on the first Second Heat. The word was given on the first trial. The Boy led by a neck, and on rounding the turn increased this to a length, which ad-vantage he held handly throughout, the Lady, who was evidently all out of sorts, never being able to get nearer. The quarter and half were pussed in the slow time of 33 seconds and 1-17, but the next half was the best of the race, the Lady making her strongest effort. But it mere Lady making her strongest effort. But it was no use, and on coming up the home stretch she went up wildly and crossed the score on a run, a length in the rear. The time of the last haif a length in the rear. The time of the last haif was 1.12, and of the heat, 2.29. Third Heat. This was much the same as the second. An even start was effected; at the quarter the Boy led only by a neck, the time being 37 seconds; but before reaching the half mile pele he had his old advantage of a length, and the Lady again loses her, but on the home stretch he won by three lengths. Time: 2.29, the first half being trotted in 1.16. the first half being trotted in 1.16.

SUMMARY.

It was evident, in this race, that Lady Thorne was not herself; her long, swinging stride was there, but the speed was not, and Mountaia Boy must defeat her again, and in better time than 2.24, before her friends will be satisfied of his superiority .- N. F. Tribune.
