SONG OF STEAM.

The following fine poem, by George W. Cutter, of Covington, Kentucky, Blackwood has pronounced "the best lyric of the cen-

Harness me down with your iron bands, Be sure of your curb and rein, For I scorn the strength of your puny hands,

As a tempest scorns a chain; How I laughed as I lay concealed from sight For many a countless hour, At the childish boasts of human might, And the pride of human power.

When I saw an army upon the land, A navy upon the seas, Creeping along a snail-like band, Or waiting a wayward breeze, When I saw the peasant reel With the toil he faintly bore, As he turned at the tardy wheel, Or toiled at the weary oar'

When I measured the panting courser's speed, The flight of the carrier-dove, As they bore a law a King decreed,
Or the lines of impatient love;
I could not think how the world would feel, As these were outstripped afar, When I should be bound to the rushing keel,

Or chained to the flying ear ! Ha! ha! ha! They found me at last; And they invited me forth at length, And I rushed to my throne with a thunder

blast, And laughed in my iron strength! Oh! then ye saw a wondrous change On the earth and ocean wide, Where now my flery armies range, Nor wait for wind or tide.

Hurrah! hurrah! the waters o'er The mountain steep decline; Time—space have yielded to my power— The giant streams of the queenly West, And the Orient floods divine.

The ocean pales where'er I sweep, To hear my strongth rejoice, And monsters of the briny deep Cower trembling at my voice. I carry the wealth and ore of earth. The thought of the godlike mind, The wind lags after my going forth, The lightning is left behind.

In the darksome depths of the fathomless mine My tiresome arm doth play, Where the rocks ne'er saw the sun's decline, Or the dawn of the glorious day; I bring earth's glittering jewels up From the hidden caves below, And I make the fountain's granite cup

With a crystal gush o'erflow. I blow the bellows, I forge the steel, In all the shops of trade; I hammer the ore and turn the wheel Where my arms of strength are made. I manage the furnace, the mill, the mint-I carry, I spin, I weave;

And all my doings I put in print On every Saturday eve. I've no muscles to weary, no breasts to decay, No bones to be "laid on the shelf," And soon I intend you may "go and play," While I manage the world myself.

But harness me down with your iron bands, Be sure of your curb and rein, For I scorn the strength of your puny hands, As the tempest scorns a chain.

CITY INTELLIGENCE

FOR ADDITIONAL LOCAL ITEMS SEE OUTSIDE PAGES.]

GRANT MEETING IN THE TENTH WARD .- A meeting of the Republican citizens of the Tenth Ward was held last evening at the hall, Broad and Race streets, for the purpose of showing their preference for General U. S. Grant as a candidate for the Presidency and to form a Grant Campaiga Club. On motion of Sheriff Howell, Hon. James Pollock was called to the chair, and Mr. George Freeman was selected to act as secretary.
On taking the chair, ex-Governor Pollock said

that the object for which they had assembled was well understood. It was to form a Grant Club for the purpose of bringing before the people that great and good man for the Presidency. General U. S. Grant. The party had passed through a struggle of late for principles, which to them are considered for the good of the Government. They had been defeated, but the hour will come when their principles will gain the ascendancy. While there are many in this land who are worthy of the important position to which the party seek to elevate General Grant, still the Republican party wish to raise him to this important position. He is man for the hour, for the nation, and the world. With General Grant as their leader the party will sweep the land.

On motion of A. Wilson Henszey, [Colonel J. P. Wetherill was chosen permanent President of the Club. On taking the chair he made an address thanking the Club for the honor conferred upon bim. A number of Vice-Presidents and Secretaries were also chosen, The following preamble and resolutions were

Whereas, Loyalty and Republicanism are identical, upon the success of which depends the feture peace and stability of our country,

Resolved, That in General U. S. Grant we recognize the embodiment of Republican principles, an ardent supporter of the reconstruction policy of Congress, a soldier whose military achievements have dazzled the world-a truly

loyal man. Resolved, That we do hereby form ourselves into a Crant Club of the Tenth Ward, and that we will each and every one of us use all honorable and proper means to secure his nomination and election to the Presidency. Remarks were then made by several members, after which the Club adjourned.

MEETING OF SCHOOL CONTROLLERS .- Yesterday afternoon the Committee on Estimates of the Board of School Controllers held a meeting at their room, to consider the estimates for sciool purposes for the year 1868. The wants f each section or ward are first made known by the application of the respective local Boards and the same being approved or amended by the Controllers, are submitted to the Committee on Schools of Councils, who make a final report to

The appropriation to the Department of Schools for the present year was \$1.137,890.63, of which \$40,000 was for heating and furnaces,

and \$60,000 for faraltute. Some of this will likely merge at the close of this year, and the amount asked for the year 1868 in the general estimate already submitted s \$1,123,052, or \$14,638.63 less than last year. Even this general estimate will be apt to be still turther reduced by the time the committee conclude their labors. The committee is composed of Measure. Hilles. Fagan, Freeborn, Jackson, Haines, Vaughan, Green, and Reed; and sub-committees are appointed for the purpose of visiting the schools in some of the rural wards, and ascertaining more truly their real wants

At the meeting yesterday a few wards only were considered by the Committee, who will at a subsequent meeting likely complete their task, which is one requiring considerable attention

and patient investigation. There are now in active operation nearly four hundred schools in the city, containing, per haps, eighty thousand children. The cost of educating each child per annum is about \$11, an amount much below the cost in other large cities of the United States. This cost includes everything except the expense of new buildings, and it also includes the cost of rents and ground-The average cost of each scholar per diem is a small traction over three cents.

MEETING OF THE FRANKLIN INSTITUTE .- The monthly meeting of the Frankiin Institute was held as usual, last evening, in their hall. At the conclusion of the regular business, Professor Morton read his monthly report on Novelties in the Direction of Mechanical and Scientific Pursuits.

In this, among other matters of equal inte-In this, among other matters of equal interest, an account was given of the tunnel under the Indus, long since begun and abandoned, but lately resumed, as well as of the present plan and prospects of the tunnel under the Chicago river. Mention was also made of a new form of hydraulic press; of differential pump; of steam rollers for roads; of a steam buggy; of forging by pressure; of grinding by a castiron wheel, in rapid motion; of new toolholders; of a ratchet brace and drilling tools.

An account was likewise given of the late and remarkable observations on sun spots, new remarkable observations on sun spots, new modes of developing electricity, new apparatus for cost analysis and chemical researches, as

well as other like matters. At the end of this report Mr. Robert Briggs called attention to the successful employment of glycerine and glue for printers' rollers, and to a new and excellent instrument for measuring the moisture in the air.

A motion was then made to appoint a com-mittee to consider the expediency of recom-mending some amendments to our existing patent laws, after which the meeting was, on motion, adjourned.

VACCINE PHYSICIANS AND COLLECTORS .- The VACCINE PHYSICIANS AND COLLECTORS.—The Board of Health met on Tuesday, and appointed the following-named gentlemen Vaccine Physicians and Collectors:—First District, comprising the First and Twenty-sixth Wards, G. T. Williams, M. D.; Second District, embracing the Second, Third, and Fourth Wards, Joseph Heritage, M. D.; Third District, the Fifth, Seventh, and Eighth Wards, J. G. Allen, M. D.; Fourth District, no appointment: Fifth District Seventh, and Eighth Wards, J. G. Allen, M. D.; Fourth District, no appointment; Fifth District, the Eleventh, Twelfth, Fifteenth and Seventeenth Wards, William M. Welsh, M. D.; Sixth District, the Thirteenth, Fourteenth, Fifteenth, and Twentieth Wards, C. B. Barrett, Jr., M. D.; Seventh District, in the Eighteenth and Nineteenth Wards, J. L. Rhil, M. D.; Eighth District, the Twenty-third and Twenty fifth Wards, W. E. Ely, M. D.; Ninth District, the Twenty-first, Twenty-second, and Twenty-eighth Wards, William C. Todd, M. D.; Tenth District, the Twenty-fourth and Twenty-second Wards, Elisha Crowell, M. D.

FATAL RESULT.—Richard Taylor, aged 38 years, living at No. 530 Wilder street, who was waylaid and badly beaten at Fifth and Reed streets, on election afternoon, died from the effect of his wounds yesterday morning. The deceased stated that his assailants were composed of ten or a dozen men, who were armed with clubs and knives. He stated also that the person who was prominent in the attack had what appeared to him to be a tube inserted in the side of his nose, he judged to remedy some defect in or injury sustained by that member. The deceased at the time of the attack was passing quietly along and had no intimation of the violent in entions of the men. After committing the offense all of his assailants left the ground and no arrest was made. Mr. Taylor continued to suffer intensely from the wounds until the time of his death.

THE CITY RAILEOAD .- The railroad on Market and Broad streets belonging to the city, has proven to be a profit to the city the present year. Mr. John Bosler, the Superintendent, reports that the receipts from October 1, 1866, to September 30, 1867, amounted to \$16,893.03. and the expenses to \$8261.98, leaving a profit of

NOTICE TO MARINERS.

The fairway busy in Gedney's Channel is about 100 yards nouthwest from its proper position.

Busy No. 12 is gone.

The schooner that recently bilged on Romer Shoal has worked off into the Swaab Channel, making a very dangerous obstruction, and should be busyed.

A sunken schr lies in the East river midway of the south ferry route, which should be removed.

The stiention of the proper authorities is solicited to the above.

The iron acraw-pile lighthouse at Shell Keys, Louis-iana, was entirely destroyed during the late storm on the 5th and 6th of October. No temporary light can be exhibited on this shoal at present. The light at Southwest Reef. Louisiana, has been regularly exhibited since the storm, and will be con-tinued notwithstanding the severe damage sustained by the tower. New Orleans, Oct. 14, 1807.

Notice is hereby given that the following change will take place in the lights at the entrance to Bombay harbor on and after the 1st of May, 1865.

The couter floating lightvessel will exhibit a twenty second revolving red light instead of a fixed red light as at present.

W. F. MARRIOTT.

PROPOSALS

UNITED STATES ENGINEER'S OFFICE,

UNITED STATES ENGINEERS OFFICE, No. 200 South SIXTH Street.

PHILADELPHIA, Oct. 12, 1887.

REPAIRS OF CAUSEWAYS AT CHESTER, PA. Sealed Proposals, as follows, with a copy of this advertisement attached to each, will be received at this office, until 20 clock M., MONDAY, October 21, 1867, for materials and labor for repairs of Causeways to Government Plers at Chester, Pa., viz:—One set, in duplicate, for delivery at such points of said Causeways and Piers, as may be required, some three hundred perches, more or less, of foundation, or one man, two man and three man stone, for a double-faced, dry stone wall, and some six hundred or less running feet of coping stone, with natural faces, similar to that aircady used in causeways. The coping may vary in thickness from 6 to 16 Inches, in widths from 29 to 3-6, and in lengths from 3 to 6 feet, All the stone furnished to be of a hard and durable quality, and of such form as when laid to make a strong and compact wall,

Procease will state the rate per perch of twenty-

All the atone furnished to be of a hard and durable quality, and of such form as when laid to make a strong and compact wall.

Procosals will state the rate per perch of twenty-five cubic feet for foundation stone, and per cubic foot for coping, delivered on the premises, in such quantities and at such times as shall be required.

A second set, in duplicate, for furnishing and delivering on the Causeways and Plezs all the filling required. The material to be quarry dirt earth, mud. gravel, one or more of these. The rate per cubic yard of each to be stated, and this rate to cover all expenses, including putting the material in position.

A third set, in cuplicate, for furnishing all the labor and appliances necessary for repairing and building the Causeways, Walls, etc., and for doing said work in accordance with instructions given. The work to be well done, the front and back of wall thoroughly ited together. All stones laid dry.

The proposals for labor will state the rate per perch of twenty-five cubic feet laid in the wall. This rate to cover every expense of preparing foundation where necessary, of building acew, and of removing and relaying portions of old work. As far as practicable, the old materials now on the premises to be used in the construction.

Materials and labor will at all times be subject to rigid Inspection and to rejection by agents of the United States. All materials to be delivered and labor performed by January 1, 1868.

Twenty per centum to be reserved on any part payment made.

The general character of work to be done, and of stone required, will be best understood by an exami-

ment made.

The general character of work to be done, and of stone required, will be best understood by an examination of the premises.

Each bid must be guaranteed by two responsible persons, whose signatures should be appended to the guarantee, and who should be certified to as being good and sufficient security by the United States District Judge, Attorney, Collector, or other public officer. Envelopes to be indorsed, "Repairs of Government

Envelopes to be indorsed, "Repairs of Government autseways at Chester."
The proposals will be opened on MONDAY, Oct, 1, 1867, at 12 o'clock M. Bidders are invited to be present.
To blank forms for proposals and other informa-tion inquire at this office. C. SEAFORTH STEWART,

10:14:6t Lt. Col. of Engineers.

PROPOSALS FOR FORAGE

DEPOT QUARTERMASTER'S OFFICE, WASHINGTON, D. C., October 15, 1897.]

NOTICE,—THE UNDERSIGNED

would call attention of the public to his

NEW GOLDEN EAGLE FURNACE.

This is an entirely new heater. It is so constructed as to once commend their to general favor, being a combination of wrought and cast from. It is very simile in its construction, and is perfectly atrushi; self-cleaning, baving no pipes or drains to be taken out and cleaned. It is so arranged with upright flues as to produce a larger amount of heat from the same weight of coal than any furnace now in use. Same weight of coal than any furnace now in use. Same weight of coal than any furnace now in use.
