IMPORTANT EXPLANATION .- It will be many months before the various triumphs and defeats experienced at the Paris Exposition will be fully understood by the public. In the field of Sewing Machines considerable controversy has been awakened, one company claim. ing this and another that of the honors conferred. It has now transpired, however, that, notwithstanding the Grever & Baker Machines were not on exhibition at all, they received the highest distinction. The fact that the Grover & Baker Sewing Machines are equal to any other machines in all respects, and superior in many to auy other sewing machines extant, is now a matter of world-wide notoriety. Under these circumstances, triumph by actual competition for the one thousandth time, was unnecessary. Suffice it to say that the representative of the Grover & Baker Machine, who was present at the Exhibition, was decorated with the Cross of the Legion of Honor, thus receiving the highest award in the power of the Commission to bestow. The fact, also, that this gen man was placed on the international jury necessarily excluded the machines he represented from competition, but the honor conferred upon him as the repre-sentative of the best seeing machine in the world was cer tainly the very highest compliment that could have been paid to the Grover & Baker Machines.

NEW YORK, Nov. 9.-The steamer Rising Star. with the California mails of the 19th ust., has arrived. She brings \$333,363 29 in treasure.

The Panama Star and Herald of the 1st inst has advices from Central and South America. An attempt had been made to get up a revolution in Costa Rica, Central America, which has proved unsuccessful.

According to the statistics the number of deaths from cholers in the Department of Leone, Nicaragua, alone, from the 24th of March to the 12th of September amounted to

A treaty has been made between Nicaragua and the United States, and is on the way to Washington.

The construction of a railroad across Nicaragua is more of a problem than ever, as its feasibility is not yet proven by the survey made.

The Congress had failed to convene on the day fixed, for want of a quorum. After much skirmishing for several days, a session was obtained, and business was proceeded with.

New discoveries of guano had been made, one of which was by a citizen of the United States. Owing to the want of rain, the crops are endangered.

The report that a truce had been agreed upon between Spain and the allies is doubted. The inhabitants of the South are suffering

greatly for food. The revolution in Peru is gaining ground. Prado is at the head of 43,000 troops, and is marching against the revolutionists, but ex-

pects a stout resistance. In Ecuador an open rupture had taken place between the Executive and the Legislature, and several members of Congress were arrested on suspicion of being revolutionists, bu finally the President agreed to release them and withdraw his troops if Congress would appoint a committee to consult with him and settle the matter, which was consented to. The obnoxious Home Secretary resigned, and everything became harmonious.

Advices from Buenos Ayres had been received, but they contain no news.

The war with Paraguay continues as desultory as ever.

THE UPPER MISSOURI.

ST. LOUIS, Nov. 9 .- The steamer Deer Lodge, from the Upper Missouri, arrived at Omaha yesterday with 120 passengers and \$2,000,000 in treasure. The Colorado papers strongly oppose the scheme of adding a part of that Territory to Wyoming. The Peace Commissioners left North Platte for Fort Laramie yesterday. Nothing has transpired relative to their pro credings on the North Platte,
