Is STIMULATION NECESSARY?-This question is practically answered in the affirmative by thousands of physicians every day. Sometimes they prescribe the ordinary forms of alcohol; sometimes tinctures which are simply sagarior atcohol, more or less medicated; but no small proportion of the faculty give the preference to HOSTETTER'S STOMACH BITTERS, as the most carefully prepared medicinal atimulant at present known. It is impossible for prejudice itself to be blird to the marked success with which this extraordinary tonic and alterative has been administered in cases of Dyspersia during the last twenty years. If It were possible to canvas: the whole country for cases In which it had effected a cure of this obstinate and agonizing disease, they would number millions. No wonder then that it has become a STANDARD MEDI-CIME in every State, city, town, and village in the United States, and that names the most distinguished in literature, art, and science, are the vouchers for its remarkable properties. The immense manufactory at Patteburg, with its extensive storehouses, is the largest establishment of the kind in this country, and probably in the world. The amount of manual labor employed in the preparation of the Bitters, to say nothing of the steam-driven machinery, is greater than that of any other proprietary medicine establishment on this continent, and, by the blessing of Providence, the beneficial results of this unequalled tonic at d alterative are co-extensive with its continually increasing sales.

AN IMPORTANT SUGGESTION .- A very strong point left out in Evans & Watson's disinterested Committee's report as to their Sale Burning.

It is a fact well known to the Committee and others. that after the wood was removed from the Safes, that the water from the hose-pipe forced out a quantity of light shavings from under the Steam Patent Sate not even scorahed, while there was a large quantity of fresh live soals all around and under Lillie's Safe. This is a wonderful fact. It eclipses the Patent Safe that had the rooster frozen up in it in the midst of a great conflagration. Perhaps the Boston Company's agent who managed the fire, who is a professional Safe-burner, and who travels the country for the express purpose, can explain chemically how it is that a large fire can be kept round the Boston Steam Patent Safe for five hours and not even scorch the shavings underneath it! How does this patent protect the shavings outside? It is one of the wonders of the age, and requires elucidation.

A CELEBRATED actress, whose fresh smile and silvery voice favored the description, always called herself "sweet sixteen." Shestated her age at sixteen in a court as a witness. Her son was directly afterwards called up, and asked how old he was, "Six months older than mother," was the honest reply. This little anecdote is very pleasant, but what the public wish to know is that Mr. W. W. Alter sells the est coal in the city, at his great establishment in Ninth street, below Girard avenue, or at his branch office, corner of Sixth and Spring Garden streets.

UPHAM'S FRESH MEAT CURE,-From facts that have come before our own personal observation, we are pleased to state that this article is an almost certain cure for consumption and all lung diseases. It is prepared from the formula of Professor Trousseau, of Paris. It is pleasant to taste, and a single bottle will convince the most akeptical of its virtue as the great healing remedy of the age, \$1 a bottle, or six bottles for \$5. Sent by express. Bold by S. C. UPHAM, No. 25 South Eighth atreet, Philadelphia, and principal druggists. Circulars sent free.

As THE TIME for the grand distribution of the \$200,000 worth of presents among those who purchase shares in aid of the Riverside Institute draws near, the rush to the new office, No. 921 Chesnut street, increases. Those who would secure engravings without being compelled to await their turn, the demand being so great, should leave their orders at once.

INDIAN SUMMER.-I. is an easy matter to make an Indian "some;" that can be done by clothing him in the styles sold at Charles Stokes & Co.'s First-Class Clothing House, under the Continental; that will make anybody "some;" but to make an Indian sum-a er, it requires the month of November to be clothed in the balmy atmosphere of May.

DE. HUMPHREYS' SPECIFIC HOMGOPATRIC REMEDIES for families are viewed with favor by all intelligent citizens, in and out of the profession. The medians or specific for each disease are supplied in proper quantities with fuil directions in a small book, and they have been the means of effecting very great benefit. The system of having a specific for each particular disease, originated with Dr. Humphreys, and has been elaborated and extended with great gare, and for their simplicity and efficiency leave but satic to be desired. It should be the desire of every good person to perform a great act of charity every year. The present year has nearly ron its course; but there is ample sime left yet for the millions of persons residing in this State to do a great act of charity towards the wounded veterans of the late war, whose claims for assistance cannot be attended to by our Government. We advise every citizen of Philadelphia to proceed at once to the office of the Gettysburg Asylum Association, No. 1126 Chesnut street, and there purchase a ticket for the grand concert to be given at Horticultural Hall on the 22d of February, 1888, upon which occasion presents worth nearly a million of dollars will be distributed to the patrons of the Asylum. The ticket coats but a dollar, and hence even little children can afford to purchase one or more, and yet not visibly reduce their Christmas savings. The oldect is one that appeals directly to every patriotic heart, young or old.

PROTO SCULPTURE.—This new art, which has been brought to the highest perfection, is now attracting the notice of all persons. By this ingenious art, a perfect, accurate, life-like model of any subject is produced in the shertest possible time. It is simply necessary that a person should pose for a few seconds in the centre of a circular ball, around which are equally distributed twenty-four cameras; from these, in an instant, twenty-four views of the person, embodying every different appearance and position, are taken; and by an ingenious and scientific manipulation an exact model of the person is reproduced. So far, there have been models made of Grant, Farragut, Greeley, and others, which are perfect likenesses of those persons, setting forth distinctly every feature of the face, and every characteristic of the form. Dutteld Ashmead, at his large book store, No. 724 Chesnut street, has them for sale.

"THERE IS NOTHING NEW UNDER THE SUE," wrote Solomon; and, as a general rule, the maxim bolds true. But Mr. Jules Berr has for once proved the occasional exception to the rule, and in a manner so entirely novel as to merit special notice. He has invented a combined musical and advertising album, which, by its attractiveness and utility, promises to meet with great success. Mr. Berr's plan is to collect in one volume about thirty of the most popular musical morceaux, and to make the binding as beautiful as morocco, bright colors. gilded letters and edges, and the general devices of the art can render it. The regular retail price of the music alone will not be less than \$12, while the total value of the book, including the binding, will be about \$16. On the blank pages of the music sheets he proposes to insert handsomely displayed business cards of all kinds, and then dispose of the volume at a price far below the mere cost of binding. A large edition of these albums will be circulated in each of the large cities in the country, their cheapness warranting the expectation of a ready sale. Those who are so fortunate as to secure the insertion of their business cards in them, will thus have on thousands of planes a book which every frequenter of the parler will not fail to examine. Due notice will be given when and where these novel musical collections can be purchased. Mr. Berr's address is No. 27 Barclay street, N. Y.

SHERIDAN.—On the sit instant, at his residence, Chestnut Hill. Philadelphia, OWEN SHERIDAN, Esq., in the 7sd year of his age.

The relatives and friends of the family are respectively invited to attend the funeral, from his late residence, on Wednesday, the 13th instant, at it o'clock A. M. To proceed to North Lauret Hill. Carriages will be at the Chesnut Hill Depot upon the arrival of the 10 o'clock train from Ninth and Green streets. § OBITUARY.

An old and valued citizen has just departed this life. OWEN SHERIDAN was known to many of our citizens as an active and honest business man for over forty-five years. He was identified with the growth and prosperity of the city in various capacities. He was one of the oldest surviving members of the First City Troop, a member of the old City Councils for thirteen years, and one of the oldest directors of the Germar town Bank. At his farm at Chestnut Hill he was accustomed to extend to his associates that genial hospitality which endeared him to them all. He devoted much of his later years to agriculture, and was an active member of the Agricultural Society. We rejoice to know that he died in the full hope of the resurrection and faith in Christ, having been for the last sixteen years actively employed in the promotion of the interest of religion at Chestnut Hill, and for a considerable time a communicant in the Presby-terian Church. May the memory of his many virtues encourage many to emutate his life of probity and public enterprise. [i] O. S. T.

CHILDREN'S Hespital.-The lady visitors of the Children's Hospital, who are entitled to great praise for their devoted zeal, desire to make an earnest appeal to the liberality of the merchants of our city. The increased expenditure consequent upon the removal to a larger building has for the present exhausted the treasury, and as winter approaches, supplies of every kind are much needed. Our citizens ought to take a pride in this institution, the only one of the kind in America, and it is to be desired, now that it is in an accessible locality. only one of the kind in America, and it is to be desired, now that it is in an accessible locality, that every one should see it for himself. As yet little has been given, because little has been asked. Public appeals have rarely been made, and therefore its wants have not been generally known. Sheeting, counterpanes, toweling, etc., are most needed at present, while donations either in money, provisions, or groceries will be most acceptable, and may be sent to the Hospital building, on Twenty-second street, below Walnut. Walnut.

Assault and Battery with Intent to Kills.

James Dougherty and Jacob Latch, at halfpast 11 o'clock last night, assaulted Theady
Harkenstein, a French Canadian, at the Washington House, kept by Patrick Kelley, at
Thirty-ninth and Market streets. Harkenstein
was intoxicated at the time, and Dougherty
and Latch set upon and knocked him down,
and then beat him with porter bottles and
mugs, and finished by stabbing him in the
bead. He was taken to the Pennsylvania Hosplial, where he is lying in a very critical condition. Assault and Battery with Intent to Kill

Dougherty and Latch were arrested and held y Alderman Maule in \$2000 ball each, to await the result of his injuries.

Kelley was also arrested, and held in \$1000 bail to answer the charges of keeping a disorderly house, and assault and battery.

FIRE .- A fire broke out this morning, about Fire.—A fire broke out this morning, about balf-past 4 o'clock, in a dwelling at the corner of Manellia and Stewart streets, above Ninth, occupied by Mr. Craig, it was caused by Mr. Craig overturning a lamp. The flames spread to the houses adjoining on each side, and completely burned their roofs off. The total amount of the loss will reach \$1000. Each house is insured for \$300. The property is owned by Mr. Viucent. When the officer who discovered the fire wished to give the alarm, he found the nearest box was at the Moyamensing Houe House, but the members of the Company would not allow him to spring their bell, saying, as the Company was out of service, the tox was also. The Mayor will investigate the ease.

AN EARLY COMMENCEMENT .- A trio of preco-An Early Commencement.—A trio of precocious spirits, named Jacob Phillis, Patrick McCann, and Martin, his younger brother, have been doing mischief, and carrying on petty reberies in the vicinity of Fighteenth and Walnut streets. On Sunday morning, at an early hour, they went to a cake stand at that place, broke the lock, and having helped themselves plentifully to the sweetmeats, valued at \$15, were caught by Sergeant Pennington, of the Fifth District. On last election night they did the same thing, only in a more extensive manner. They were committed for a further hearing by Alderman Patchell.

SUNDAY CARS.—At length, after much debate, and private and public discussion, the
decision is made, and the Sunday cars will run.
From the general expression of the people we
should judge this privilege satisfactory.
Yesterday the new movement was inaugurated, the cars made their regular trips, and the
very ones who had long opposed their running
were glad to use them ingoing from one portion
of the city to the other. The day, although
cloudy and drizzly, seemed auspicious for the
inauguration of this movement. The services
at our various churches were to be of the most
interesting nature, consequent upon the attendat our various churches were to be of the most interesting nature, consequent upon the attendance of so many delegates at the various conventions, and the people who would have had to forego their presence at them, or walk through the rain to them, were willing to hall the first car, and sacrifice their prejudices for their present necessities.

From no quarter do we hear of any disorderly proceeding or autovance which were pre-

proceeding or annoyance which were pre-dicted. To the laboring classes this running of Sunday cars is halled with satisfaction, since from long distance or unpropitious weather they will no longer be prevented from travers-

DEATH OF A VENERABLE WRITER.-We regret to anyounce the death this morning of Frederick A. Packard, Esq., the editor of the publications of the American Sunday School Union. Mr. Packard was seventy-three years of age, and a native of Springfield, Massachu-setts, at which place he was engaged in the practice of the law until the year 1829. He was then appointed to the responsible position which he held at the time of his death, and removed to this city, where he continued to reside from the first. Mr. Packard's death was the result of a cancerous affection of the lip but he had already more than survived the allotted threescore years and ten. His death will leave a vacancy not easily to be filled.

ROBBING THE CARS .- Yesterday afternoon, one George W. Smith, a black man, broke into one of the Pennsylvania Raliroad freight cars, standing at Forty-first street, on the track, and helped himself plentifully to the provisions I contained, which he was placing in a bag. Offi-cer Clark caught him in the act and arrested him, and after a hearing he was committed by Alderman Maule to prison. He said that he noticed that that the car was marked "fast freight," and believing that it contained something valuable, he broke the lock by means of a

DEATH OF A POLICE LIEUTENANT .- We regret to announce the death of an old Lieutenant of the Police, Frank C. Hampton. His record, while connected with this department for seven rears, has been a clear and good ene. During the Mexican war his personal abilities secured for him the position of clerk to the Fleet Commander. For a long time past he had been in ill health, resulting from a complication of various diseases, which finally proved fatal yesterday morning. In his various official posi-tions he was brave and determined in the dis-charge of the duties imposed upon him.

Persuny .- Mr. Martin Mars found a setter dog and advertised the same in the daily papers, which advertisement was answered by lapers, which advertisement was answered by Jerome Jacobs and Joseph Robinson, who swore the dog belonged to them. Mr. Mars refused to give up the dog until the bill for advertising was paid, which Jacobs and Robinson refused to do. In the meantime a gentleman named Montague came along and proved the dog to belong to him; when the would-be owners were arrested and held by Alderman Maule in the sum of \$800 ball each to answer the charge of periury. the charge of perjury.

HAT STORE ROBBED .- Some time during Sat urday night or Sunday morning thieves en-entered the s ore of D. B. Newcomer, at No. 400 N. Second street. They passed through the door leading to the second story by means of false keys. From the second story they reached the first by going down the hatchway, where they stole about \$150 worth of caps, hats, and furs. The front door, through which they got out, was found open by Officer Barr, of the Seventh District.

SEIZURE OF A DISTILLERY,-The distillery of James Fagan, No. 1222 Everett street, was seized this morning by the authorities, on the charge of not making proper returns.

In the establishment were found, one copper charge of not making proper returns.

In the establishment were found, one copper still and worm, and worm and tub of 700 gallons capacity, 18 cisterns of molasses mash, containing 400 gallons each, in a state of fermentation; also two hogsheads in the same condition, and seventeen empty whisky bar-

[SPECIAL DESPATCHES TO THE EVENING TELEGRAPH.] The Great Serenade. Johnson's friends facetiously style him. This demonstration is arranged by the conservative element, who wish to bring Johnson prominently forward as a candidate for re-election, and the speech be is expected to make on the occasion has been carefully studied with that object in

Growling at Grant. The Intelligencer this morning growls at Grant for not compelling General Emory to enforce the order of the President directing the dishanding of the colored military companies of this District, and it threatens that if the District Commanders in the South do not disarm and disband all negro military organizations there the President will remove them, upon a request to that effect from the citizens of the Southern States, and if these commanders do not act promptly, the remedy will be applied at once by the President.

Daniel Drew's Donations.

From the Albany Evening Times, Nov. 8. Last year was the centenary year of Metho Last year was the centenary year of Methodism. It was proposed to raise a memorial offering. Mr. Drew was approached to see what he would give, if anything. Without a moment's hesitation he said he would give \$250,000 to found a seminary. He wanted it located in Carmel, Putnam county, where he was born. He waived that wish when the good of the hurch required it. He bought the famous 'Gibbons estate' in Madison. He gave the owner \$150,000 to go out and leave it all furnished, just as it was; and this gorgeous building, furnished fit for a prince, with Ms carpets, gilding, hangings, and scarlet furniture, makes the most gorgeous Theological Seminary in the world. The property consists of two hundred world. The property consists of two hundred and twenty-five acres, enclosed with a cemented stone fence, iron gate, and porter's lodge. Without any alteration the mansion contains chapel, lecture-room, library, readingroom, rooms for professors and recitation rooms sufficient for 100 students. Over \$100,000 have been spent in repairs. \$300,000 will be given as an endowment. A fire-proof building for hisrary and museum is to go up, and the cost of this and other things, which Mr. Drew will meet, will aggregate the sum of from over \$700,000 to \$1,000,000.

LATEST WASHINGTON NEWS

[SPECIAL DESPATCHES TO HYRNING THERGRAPH.]

The Case of Colonel Belger.

The President this morning transmitted to General Grant an order revoking the order of Secretary Stanton of Nov. 13, 1863, dismissing Colonel James Beiger, quartermaster at Baitlmore. Beiger was tried by court-martial on charges of defrauding the Government and acquitted, but Stanton subsequently dismissed him by an order approved by President Lincoln. This order of the President does not restore Beiger to his former position in the army, as all the vacancies have been filled. The President does not direct his reinstatement, and that question has to be settled hereafter. The Attorney-General, to whom this case was referred, is of opinion that Belger must be renominated to the Senate, and confirmed as a new appointment, before he can be restored to his former rank. Other legal gentlemen who have examined the case are of opinion that the President's order settling aside Stanton's order of dismissal restores Belger to his rank without any further action.

Return of Secretary Stanton. Secretary Stanton returned on Saturday evening from his trip to Ohio. Patents.

Three hundred and forty patents will be issued from the Patent Office for the week ending Nov. 19, the largest number ever issued in the same period.
