CITY INTELLIGENCE.

POR ADDITIONAL LOCAL ITEMS SHE OUTSIDE PAGES. MEETING OF THE BOARD OF CONTROLLERS .-

The Board was called to order by the President. Mr. Shippen. The minutes were read to a considerable length, but in the midst the reading was dispensed with.

Communications were received from the various sections, and all were either appropriately referred or approved for the action of Councils. Among them was a communication from the

Board of School Directors of the Fourteenth Section, recommending that the name of R. T. Conrad be placed on the date-stone of the new chool house on Melon street, above Eleventh. Approved.

Also, a communication asking that a school-house be named the James W. Fletcher School was read, and its suggestion approved. The school house is in the Third Ward.

Also, various communications were received promoting several teachers, muscuitue and feminine, to other positions. Referred. Also, a communication from the Twenty-first Ward asking the change of certain school-

houses, they being unfit for school purposes.

Referred. Also, a communication asking that the school at Frankford road and Somerset street be changed to the Saerman School, and that its height be increased one story. Referred.
Also, a communication asking the establishment of a colored school in the Twenty-seventh

Section, Referred. A communication was received from Henry Bernbardt, of the Department of Schools, Washington, asking an account of the schools of Philadelphia, plaus and descriptions of school-hi etc., for a report to Congress. Referred to the President for information.

The Committee on Accounts presented bills to

the amount of \$40,162-22. Approved.

The Committee on Text Books recommended several text books. Further consideration was

ad ourned until next month. The Committee on Property, to which was re-ferred the subject of a school lot in the Sixth Division of the Twenty-fifth Section, and the First Division of the same section, reported that, after visiting the first named locality, they re-commend the lot of ground bounded by Neff, Thompson, Seister, and Edgemont streets in front 194 feet 7 inches, and in depth 151 feet 84 To this resolutions asking purchase were attached. The resolutions were adopted.

A report from the Committee on Property was received, to which was referred the the Twenty-fourth Sectional Board against the division of the unexpended balance of \$35,000 (of the portion of the million loan set aside for

Twenty seventh Section (formerly part of said Section, to which the sum of \$80,000 was appropristed for new school buildings.) After considerable argument the question was referred to the Controllers, whereupon the report of the Committee was adopted.

said Section) between said Section and the

The resolutions attached to the report, dividing \$35,000 between the two Sections, and asking for an appropriation of \$15,000 for the crection of a new school house, from Councils, in the Twenty-fourth Ward, became the subject of discussion.

Mr. Greene moved to amend the second resoby striking it out and appropriating \$25,000 to build a new school-house in the Twenty-fourth Ward. Mr. Greene's motion was lost by yeas, 5; nays,

The report of the Committee on Grammar, Secondary, and Primary Schools came up. Mr. Greene moved that the portion reterring to Miss Laselle and Miss Maginley and the second section be stricken out, and not adopted, and that the balance be adopted. After some discussion Mr. Greene withdrew

his motion. Mr. Nebinger moved to confirm the nomination of Miss Laselle and Miss Maginley, despite the report of the Committee.

Mr. Clark declared himself in favor of sustaining the sectional boards, and be believed that

whatever was their action was right.

Mr. Carrigan advocated the confirmation of ladies, as they took the place of ladic had retired because they were married, and the sectional board had a perfect right to appoint

THE POINT BREEZE GAS WORKS,-In pursuance of an invitation extended by the Gas Trust, the members of City Councils visited the Point Breeze Gas Works yesterday afternoon.

A special train, which was provided for the occasion, left the Pennsylvania Railroad Depot at 1 o'clock, and arrived at the Works at

Having landed, the party speat a couple of hours in visiting the various buildings, among which were the new refort and purifying houses which have been erected during the past year. They are both built in the old English style architecture, and construct d of stone quarried from the grounds above the suspen sion bridge, and opposite Fairmount. The former building is 250 feet long, 60 feet wide, and 58 feet from its foundation to the apex of the roof. This building will accommodate 240 retorts, in settings of five retorts to a hench, of which 120 are now in condition for immediate use; the remaining 120 being in course of completion. There are 24 benches, which are sub-divided into 12 sections, each being distinct one from the other in the main pipe into which the gas flows by means of a dam. which the gas flows by means of a dam. In many works throughout the world a single main is used, but owing to the fact that they are liable to be obstructed, and thus stop the entire works, the present Chief Engineer of the Philadelphia works. Mr. Joseph E. Manuel, has had an auxiliary pipe laid in this new retort house, at a distance of several feet from the main, put which the gas flows through parathe main into which the gas flows through narrow pipes prior to entering the condensers. In case of obstruction the auxiliary can be used while the main is being cleared. These two hundred and forty retorts are capable of manufacturing one-million feet every twenty-four hours, which, in addition to the amount already made, it is thought will be sufficient to supply stemand for several years to come without difficulty.

retorts in this building are of clay. Higherto iron has been used almost exclusively their construction; but in all the London gasrks they are now as exclusively made of fireor built of are-bricks, and they are being ndly introduced in the various cities of the nited States. They cost a great deal less in onstruction, and last-aearly three times as ong, though requiring more fuel for heating than is necessary with iron,

The new purifying-house is 116 feet long and 60 feet wide, has two sets of purnying poxes (each set has four boxes) 20 feet square. Attached to this building is an exhaust and enginehouse 32 fect by 48. Lime from ovster which is made on the grounds at Point Breeze moistened with water, is used as the purifierbeing laid on the sieves in the boxes to a depth of three inches. Through this mixture, kept in constant agitation, the gas is made to pass. It flows through three boxes before it is pronounced at for use, the fourth box being held in reserve. The spent lime, after being removed, undergoes a process by which it is relieved from its disagreeable smeil; after which is sold at a commanding figure, as a compost. The gas, after passing through the third box, is conducted to the meter-house. Here a new iron meter, the largest ever cast in this country, has been erected. Its weight is 20,500 pounds, is 12 feet in diameter, and is capable of passing 1,500,000 feet through every twenty-four hours. Attached to the dial is a "tell-tale," as it is termed by the workmen, by which the amount made every hour can be fold.

On assuming control of the City Gas Works.

On assuming control of the City Gas Works, our present Engineer made a thorough investi-gat on into all its departments and machinery. The gas-holder he considered dangerous, and so reported to the Gas Trust. A new one has been constructed, and was yesterday in operation. It is a mammoth affair, being 160 feet in diame-

of the extension, when completed, will be about \$400,000.

The guests then repaired to the main building. where a magnificent collation was served up. Speeches were made by Nathan Hilles, President of the Gas Trust, Messrs, Willitts, Potter, Duffy, and Smith, of Councils; District Attorney Mann.
City Solicitor James Lynd, and William Elhott,
of the Gas Trust. In the course of his remarks,
Mr. William Smith, of Select Council, asserted
that the newspaper press sought to degrade and beat down everything in the shape of an improvement that was advocated.

THE ELECTION CONTEST .- In the Common Pleas, in the matter of the complaint of Jacob W. Colladay and others, that an undue return was made at the last election for Register of Wills, Clerk of the Orphans' Court, and City Commissioner, the answer of Messrs, Leach, Megary, and Ballier thereto was filed yesterday. In it they deny that the return is a talse and illegal one, or their election an undue one on the contrary, they aver that at the said election they received more votes than is included in the general return for the conincluded in the general return for the con-testants. That the second specification in said complaint is, so far as the same goes, true, but does not state the whole truth— that there were 110 votes counted for the contestants, purporting to be a return of votes of solders from Fort Delaware; all of which should be excluded from the return, for the reason that they were grossly and outrageously traudulent, and imposed upon the Board of Return Judges as the votes of volunteers from Pennsylvania in actual military service at Fort Delaware, when the fact was notor ous that there were not any volunteers from Pennsylvania at Fort Delaware. The respondents further say that they have no know-ledge, information, or belief of the misconduct or trand in the election of officers in the divisions named in the specifications, and they expressly deny, if it be so, that they promoted or procured the same. They also deny all know-ledge of the reception of votes from persons not qualified, and they believe the returns of votes poiled to be true, so far as relates to the visions specified in the petition. The answer then charges the reception of fraudulent votes to the number of ten and upwards in the wards and divisions named, to wit:

First Ward-First, Second, Third, and Sixth Seventh Ward-First, Second, Third, Fourth,

Fifth, and Sixth Divisions, Eighth Ward—Fourth Division. Ninth Ward—First, Fifth, Sixth, and Seventh

Fenth Ward-First, Third, Fourth, Fifth, Sixth, Seventh, Eighth, and Ninth Divisions. Twelfth Ward-Fourth Division. Thirteenth Ward-First, Taird, Fifth, Seventh, and Ninth Divisions.
Fourteenth Ward-First, Third, Fourth,

Fifteenth Ward-Third, Fifth, Eighth, Tenth leventh, Twelith, Thirteenth, and Fourteenth

Sixteenth Ward-Second Division. Seventeenth Ward-First and Third Divisions, Eighteenth Ward-First, Second, Third, fourth, Firth, Sixth, Seventh, and Tenth Di-

Nineteenth Ward-Fourth, Fifth, Eighth, Tenth, Eleventh, and Tweitth Divisions. Twentieth Ward-Sixth, Twelfth, Fourteenth and Fifteenth Divisions,
Twenty-first Ward-Third, Fourth, Fifth, Sixth, and Eighth Divisions.

Twenty-second Ward-Third, Fourth, Fifth, Sixth, Seventh and Ninth Divisions.

Twepty-third Ward-First, Third, Fifth, Sixth. and Seventh Divisions, Twenty-fourth Ward-First, Fifth, Seventh, Eighth, and Fleventh Divisions.
Twenty-sixth Ward-First, Third, Fourth, Sixth, Seventh, Eighth, Ninth, Tenth, and

Eleventh Divisions.
Twenty seventh Ward-Second, Fourth, and

Sixth Divisions.
Twenty-eighth Ward—First, Second, Fourth, Fifth, Seventh, and Eighth Divisions.
The respondents also allege that in the Fifth Division of the Ninth Ward, in pursuance of a c immal conspiracy, a large number, amount-ing to two hundred and fifty and upwards, of diers duable f and supported by the Government of the United States, who were not citio vote in the city of Philadelphia, were brought within two weeks preceding said election from the State of Obio to the city of Philadelphia, and quartered within the said Fifth Division o the Ninth Ward; and that in further pursuance of said illegal and criminal conspiracy, the said soldiers were brought to the polls in said diviion to vote, and did vote at said election, for

the contestants,

It is also alleged that a band or gang of persons, to the number of one hundred and upwards, did fraudulently vote in many election divisions in different wards, under names which had been fraudulently placed upon the assess-ment lists, expressly for the purpose of enabling members of said gang, commonly known as "Rounders," to vote under such names; and that the fraudulent votes thus illegally cast by said "Rounders" were counted for the con testants.

DRUG EXCHANGE MEETING,-A meeting of he Drug Exchange was held yesterday, at 12 clock. Mr. Robert Shoemaker was called to he Chair, and stated the object of the meeting o be to consider the present bearing of the whisky tax upon the business of druggists, chemists, perfumers, etc. He presented to the meeting resolutions adopted by the Board of Directors. They were subjected to a full dis-cussion, and an amendment offered to petition for a reduction to twenty cents per gallon was voted down. The resolutions were finally passed as follows:-

Whereas, A meeting of the Philadelphia Drug Exchange, held on March 21st last, resolved to observe scrupulously the laws relating to dis-tilled spirits, and to give all possible assistance to the Government in the enforcement of the same: and

Whereas, The result of this effort, to those who have faithfully maintained it, has been a ruinous loss in their business and increased encouragement to those who defraud the revenue. while some of the most able officers of the department acknowledge that their efforts to reach and control illicit distillation are utterly hopeless; therefore
Resolved, That, in order to put an end at the

same time to an expensive and useless effort, and to the fearful demoralization which has taken place under the present heavy tax, Con gress be petitioned to remove the tax of two dollars per gallon on distilled spirits, and to subject to a tax of five per cent,; and that any additional tax be placed in the form of a license or special tax at the place of manufacture and also at the place of retailing.

Resolved. That a committee of three be appointed by the Chair, to prepare a petition, and to solicit the co-operation of other associations in this and other cities.

The chairman appointed as the committee Mesers. Eandolph Sailer, Charles Ellis, and H B. Rosengarten, to which his own name was

SUNDAY SCHOOL ANNIVERSARY .- The Twentythird Anniversary of the Sunday Schools of the North Broad Street Baptist Church took place last evening, and was celebrated at the church, Bread and Brown streets. A large number of persons were present, and addresses were made by several clergymen. The schools number 455 scholars, 6 officers, and 41 teachers. During the year thirty of the scholars professed their faith in Christ, and were baptized. A large amount of money has been collected for mis-sionary and other benevolent purposes. The librarian reported 1634 volumes in the library. These works are read by the pupils with much interest. At the present time this church is without a pastor.

QUARTER PESSIONS FEE BILL.-The fee bill of the October term of the Court of Quarter Sestions, just passed by the City Solicitor, shows that the Grand Jury acted upon 318 bills during the term; 183 of the whole number were It is a mammoth affair, being 160 feet in diameter and 95 feet in depth. and is capable of holding about 2,000,000 cubic feet of gas. Its weight is 530,559 pounds, and cost about \$85,000. It is contemplated that the entire cost Sheriff, \$435-87; making a total of \$2918-82.

FRANKLIN INSTITUTE LECTURES. - A course of scientific lectures was inaugurated last evening at the Franklin Institute, by Professor Morton. The subject chosen for this the first lecture was "Light." The lecture-room of the Institute was filled to its utmost capacity, many new and inter-sting experiments being expected, and the anticipation was not disappointed.

A brief explanation of the motion of light-its laws and rotations—was given, in which the most interesting topic of sun storms was treated, and illustrated by an allowance was treated, and illustrated by fine diagrams thrown upon the creen by the lantern.

There could be seen how tempests tore the bright face of the sun, and laid bare the under-

lying surface, whirling and rotating like one of our own hurr-canes or tornadoes; and how the tempest spent itself and passed away, and left the atmosphere of the great orb in its glorious The next points the Professor touched upon

were the laws of refraction and reflection, in velled statute to appear and disappear from the mirror as the veil was placed over it or with-orawn. But the crowning experiment of the evening was the "illuminated fountain." A jet of water pours out of a fountain into a prepared roblet of glass. All about the jet is dark, but the rays or golden and crimson light, impri-soned in the stream, illuminate it along its whole course, and leap up, flashing and spark-ling like fiery foam in the crystal gob et. The lecture elicited frequent tokens of appro-

bation, and was decidedly a great success, THE MERCANTILE BENEFICIAL ASSOCIATION,-The twenty-sixth anniversary of the Mercantile Beneficial Association took place yesterday. The meeting was held at the rooms, corner of Seventh and Sansom streets. Charles F. Norton, President of the Commonwealth Bank, presided. The Secretary, W. F. Rolin, read the annual report, The managers have been quietly yet assiduously pursuing their line of inty, and have experienced particular pleasure and satisfaction in the consciousness that their labors have been productive of the happiest of the beneficial effects of the Association, were given, and the Board state that they cannot conceive of any stronger argument favor of an institution like this than imple narration of these facts, and think at the association presents an appeal to the consideration of every one, no matter how firm he may stand in credit or estate. A full and satisfactory exposition of the financial condition of the association was presented by the Treasurer, by which it was shown that the reccipts from dues, interest on mortgages, ground rents, etc., for the past year, amounted to \$3895'70, and the disbursements for relief of members and other incidental expenses to \$1843-90. The total investments of the society amount to \$22,562.32. The Secretary reports that during the same period 133 annual and fifteen life members have been added to the list, and six transferred from annual to life member-ship. Fourteen deaths and four resignations have occurred, and four names have been stricken from the roll for not conforming with the rules of the Society.

AMUSEMENTS.

EIGHEERG's capital new opera of The Doctor of A ean ara will be presented by the Richings pera Troupe, at the Academy of Music, to night, with a splendid cast. To-morrow (Thursday), Norma. Friday, benefit of Mr. S. C. Campbell, on which occasion Maritana will be sung for the last time.

"SURF" is getting fashionable. The Arch is filled every evening to witness the elegant act-ing of Mrs. John Drew and her company in the new comedy. On Saturday, first Surf matinee.

MRS. Bowens is excellent in ber new play of Morie An oinsite. No one should fail to see her in the part, at the Chesnut Street Theatre. MR. EDWIN FORREST ends his engagement this week. To-night Metamora, only time. This announcement is all that is needed.

MR. ROSERT Fox has a distribution of gifts again this evening at the American. THE CIRCUS at Tenth and Callowhill streets is

doing a fine business. Mr. La Rue and the whole company in a splendid bill to night. Tunison & Co. have added your the great sable prima donns, to their troupe. Frank Brower also continues at the New Philadelphia Opera House, Seventh street, below Arch.

Canneross & Diney are as successful as ever at the "Family Resort," in Eleventh street, above Chesnut. A first-class entertainment every evening.

HORTICULTURAL HALL,-Carl Sentz's Seventh Matinee will take place on Thursday, November 14, when Mme. Henriette Behrens will make her first appearance. The following is the programme:-

gramme:

Symphony No. 2, G Minor,

L Allegro Molto. 2 Andante. 3 Minuetto Allegro,

4. Finale, Allegro Assat,

Robert, toi que l'aime,

Meyerbeer

Mine. Henriette Behrens.

Grand Concerto, for Violin No. 7, A Minor,

Mr. William Stoil, Jr.

Waltz, Volkssanger (Minarrel) (first time),

"IN THE HOURS OF OUR HAPPINESS and prosperity, let us remember the untorunate and disabled soldiers who saved us a country and nationality,"-LINCOLN.

GRAND POPULAR MOVEMENT TO ERECT THE GETTYSBURG ASYLUM

FOR INVALID SOLDIERS, UNDER A SPECIAL

Charter from the State of Pennsylvania, PASSED MARCH 6, 1867.

AN APPEAL TO THE AMERICAN PEOPLE. The object of this Association is to provide, by public exertion, a National Bome for our disabled sollers, to srect an asylum for those was, in their patriotism, have served their count y at the expense of their health and happiness; who in the battle for the mailton's life were mailmed, and are now incapable of working for their own mailtenance. France has other health and happiness; who in the battle for the nation's li'e were manned, and are now incapable of working for their own maintenance. France has her Hotel des Invalices where rest the lashes of the great Napoleon; Ergiand, her Greenwich and Chelses Hospitals, the tor mer beling one of the finest architectural atrictures ever devited to charily. Russia, Prussia, and in fact nearly all European countries have magnificent retreats for the unfortunate soldiers. Monerchies provide for the alleviation of the suffering caused by war, but free, prosperous Republican America has no place for her crippled and sick soldiers but the country poor-house or the sidewalks of her crowded cides. These noble patriots left happy bomes to save our common country in the nour of her deep distress. We pledged to them our lasting gratitude, and now those who are dependent look to us in their later need to redeem those pledges. They have performed their part. We enjoy the result of their sacrifices. We must not be recreant to our obligations. Let us each devote but a single dollar to this purpose, and the Gettysburg Asylum will afford the soldlers a home, and our country will be honored by the noble institution. THE LAND HAS BEEN PUNCHASED

By this Association, and Ten Thousand Dollars have already been paid towards the preservation of the battle-ground—about thirty acres (adjoining the site of General Meade's Headquarters) have been set apart for the uses of the Asylum.

Lexinoton Avenue, New York, Oct. 25, 1867.—Having labored for three years to erect a Home for our crippled veterans, and having passed a bill for that purpose in the New York Legislature, incorporating some one hundred of our best citizens as Directors—but under which bill no action has been had, from that itme to the—and Knowing the great and crying necessity of the case, the shame of leaving our disabled veterans to starve or beg, I hereby most cordially indorse your enterprise, and it shall have all the aid of my torgee, pea, and influence, Very truly yours,

HENLE BROS. Diamond Importers, No. 26

Maiden Lane, New York, J. HERRIMANN, Diamond Setter, No. 304 Broome sire t, New York.
In order to promote cublic confidence in the highest degree, and for the furtherance of this great object, the Association has decided to place the \$300,000 worth or diamonds on public exhibition at the large Jewelry Extablishment of Messra, Browne & Spaulding, under the Metropolitan Hotel, in the City of New York. The world-rerowned yacht "Henrietta" has also been purchased. The Farm of 800 acres is located in Sullivan county. N. Y., and is one of the finest stock farms in the State, has a splendid mansion, and is complete to every on the large. n every particular.

There will be 1,200 (00 tickets issued at one dollar ach, admitting the holders to both of the
