The Reported Sale of the Bay of Samana to the United States-Proclamation by President Cabral.

The London Morning Star of November 5 pub-lishes, in reference to the reported sale of the Bay of Samana to the United States, the subjoined proclamation :-

Jose Maria Cabral, President of the Republic. to the nation:-The enemies of our peace, seeing that public opinion is sgainst them, and that they have nothing to expect from appeals thereto, are now occupied in organizing from their retreat abroad, the most absurd and shameful reports with a view to create difficul-ties and impediments in the way of the Republic. Yes, I say snameful reports, for if a bad Dominican, aided by others, succeeded in taking the country by surprise and infamously selling it, has not this been set aside by the blood of twenty thousand victims?

One of them was preparing to come to "the asylum of the oppressed," but was politely informed by a stranger that Mexican soil was much healthier, and that Matamoras could not dispense with his valuable services. Further developments are daily expected, as some of the band are getting weak-kneed. No surprise will be felt if Colonel Palacios should order a surgical operation before breakfast af

HAVANA, Nov. 17.—The steamer Wilmington has arrived from Vera Cruz, with dates from that port to the 10th instant. The United States steamer Wilderness had arrived at Vera Cruz from Charleston v a Key West, having on board Senor Matias Romero, late Munister of Mexico at Washington with his family.

Washington, with his family. The whole party were pleased with their treatment on board the Wilderness, although the weather was extremely un'avorable. On the trip the Wilderness had a heavy north-

westerly blow, and was forced to heave to for two days. She lost a mainstay and sail, and had a boat, the smoke-stack, and bulwarks store in. The sea washed over into the fire-room. However, she proved herself an excellent sea boat.

at Santisgo. HAVANA, Nov. 16 .- There has been a north-easter blowing here all day, and the sky is quite cloudy. The police are diligently searching for the author of a pamphlet circulated here which reflects on the character of the bishop in a libet-

lous manner. The brig I., Wadsworth, of Portland, loaded with guano, from Nevassa, and bound for Bal-timore, was blown ashore at Santiago to-day in a leaky condition, having been abandoned by her crew four days before.

THE SANITARIUM.

The Citizens' Association of Pennsylva-

The Citizens' Association of Pennsylvania was chartered on the 11th of April, 1866 the act of incorporation prescribing the following as the objects of the i istitution:—

as the objects of the l istitution:--"To crect buildings for the cure of the intem-perate; to open employment offices; to establish branch associations in the various cities and counties of the Commonwealth, and in the different wards of the city of Philadelphia; to examine into the causes and statistics of pad-perism, vagrancy, and crime, and do whalso-ever they may for the prevention of the same, and for the restoration and elevation of the de-mayed and is norant classes of society."

praved and ignorant classes of society." Ey an act of the Legislature approved March 4, 1867, it was further made the duty of the Association to "make an annual report to the Legis-lature, on the dependent, depraved, and crimi-nal population of the Commonwealth; and on all matters relating to the causes of and remedies for pauperism, vagrancy and crime; and for this purpose said Association is hereby empowered to visit and examine into all organizations and Institutions which have charge, either in whole or in part, of said population; Previded, said organizations and institutions are maintained or assisted by the Commonwealth, or by the counties, townships, or municipalities thereof." The official organization of the Association is

It is elegantly furnished, and embraces within itself all the comforts of a happy home. The upper portion is divided into siceping apartments for the patients, the first floor being used as parlors and offices, while in the basement is a billiard and amuse-ment room, and a suit of bath rooms, kitchens, etc. Three are accommodations for fifteen pa-tients, and in case of necessity twenty could be comfortably disposed of. remain. Those who have been discharged from the Sanitarium; have all been much benefited, and most of them are now doing very well and are free from the terrible vice of intemperance. The ruling principle of treatment is kind-ficss and careful attention. All the patients thus far received have been voluntary ones, although at the last session of the Legislature an act was passed providing for the commit-ment of habitual and confirmed drunkards, by the county courts, after proceedings similar to those which take piace in cases of lunacy. Dr. Parrish and his assistants do not pursue the course adopted in the reformatory institution at Binghamton, New York, where there is an instantaneous breaking off from all indugence in spirituous liquors, not a drop of alcohol being administered to a patient, dufing the dist part of his treatment, will be beneficial to blim, there is no hesitation in resorting to this remedy. The average charges for board and treatment are \$12 per week, but where the patient is unable to pay this sum, a less charge is made, and several are admitted free of all expense. From this class some light labor is exacted, several of the gratuitous patients being now engaged in the compliations of the returns from the diffe-

the compliations of the returns from the diffe-rent county prisons and almshouses throughout the State, which are being received every day, and will comprise the leading feature of the next annual report of the Association. Thus far, although the operations of the Sanitarium have necessarily been conducted on a limited scale, the results have been crowned with success, and afford another in-controvertible proof of the fact that intem-perance is a disease, which will yield to proper and indicious treatment. This enterprise of the Citizens' Association is fraught with benefit to the State at large, and it should receive the hearity encouragement and support of all good to the State at large, and it should receive the bearty encouragement and support of all good citizens. Three-fourths of the crime and misery of these latter days can be traced directly or indirectly to the use of ardent spirils, and the prevention and cure of intem-perance among all classes is the true and only practicable method of diminishing the most glaring evils of society. glaring evils of society.

RECONSTRUCTION IN ALABAMA.

The Convention-The Day of Adjournment Fixed-Reports of the Executive, Judicial, and Militia Committees.

MONTGOMERY, Nov. 16.—A resolution was adopted to-day in the Convention fixing the date of adjournment for the 25th inst. This will allow of the question of ratifying the new con-stitution being decided before the end of the present year.

If notice of the election be given on the day of adjournment, it can be held on Christmas day, which has always been kept by the negroes, even when they were slaves, as the great holiday of the year. They would naturally flock in large numbers to the towns and cities on that day, even if there were no electron; and the radicals hope to poll a larger vote on this account than at the election for the Convention. Ordinances were referred to the Committee on Ordinances, changing the names of two counties from Cleburne and Colbert to Lincoln and

Republican Senators and Representatives who have arrived here agree that Congress must not and will not recede in the work of reconstruction, but that if a majority of the white men at the South stand aloof, the minority and the colored citizens must be upheld and encouraged. It is known, however, that more whites have taken part in these elections than the Southern papers have indicated.

The Committees.

Some of the Western representatives advocate the appointment of General Garfield, of Ohio, as chairman of the Committee of Ways and Means, with the reappointment of Thaddeus Stevens as chairman of the Committee on Appropriations, and of Mr. Hooper as chairman of the Committee on Banking and Carrency.

Rev. Mr. Hawley's Mission. Secretary Seward has sent Rev. Mr. Hawley, of Auburn, New York, to St. Thomas, to point

out the advantages that will accrue to the inhabitants of that island and of the island of St. John, if they will vote in favor of transferring their allegiance from Denmark to the United States. The United States squadron in the West Indies will also be at St. Thomas to aid in electioneering.

General Sheridan to Testify. General Sheridan has been subpoenaed to

opear here before the Judiciary Committee on Thursday next, the day of the meeting of Congress.

Illegality of the Approaching Session The Intelligencer this morning says the communication published on Friday last, over the signature of "H. S.," was not written by Attorney-General Stanbery, but by a New England Republican, who has won reputation as a Constitutional lawyer. The article maintained that the additional session of the Fortieth Congress is unconstitutional and illegal, which opinion, the Intelligencer says, is entertained by the President and all his Constitutional advisers.

Association directed its labors towards an esti mation of the "dependent and criminal classes" of the State; but as the records of Pennsylvaof the state; but as the records of rennsyru-nia were very meagre and uncertain, it was found necessary to base the calculation in great measure upon the official returns of such classes in Massachusetts. The following was he result:

The proportion of the insane is one to every four hundred and twenty-one inhabitants, which would give to Pennsylvania an aggre-gate of \$716 of these unfortunates. Of these, about two thousand are inmates of the different public and private hospitals; one thousand ent public and private hospitals; one thousand or more are cared for in the county poor-houses; and a few hundred, perhaps, in insti-tutions outside of the State; and the remainder, many of whom are unknown to the census-takers or other officials, in their own homes or there of those formed. those of their friends.

The proportion of idiots to the population is one in one thousand and fifteen, which esti-mate includes only those who are born idiotic or became so in early childhood. This would give a total of 3615 for the State, of whom but a few hundred, at the most, are cared for in public institutions, the great bulk of them remain-ing in their homes. The blind and deaf mutes exist in about the

same proportion as idiols. The institutions provided for their care contain of the former class one hundred and eighty-one, and of the latter one hundred and twenty-six.

The ratio of pauperism in Massachusetts—one to three hundred and sixty-five—would give to Pennsylvania an aggregate of 10,053. Philadelbla alone has at the present time more than 500 of these in her Almshouses.

During the past fourteen years the number of cersons committed to jail in Massachusetts was one in two hundred and twenty-nine. there was one in 9824 committed to the State Prison, while in Pennsylvania, during the state year, the proportion was one in \$295. Accept-ing the Massachusetts basis, which is seen to be below the real state of the case in our own State, Pennsylvania would have had a criminal population, during the past year, of 16,023, exclusive of the large number who are never brought to ustice,

With regard to the number of vagrants there can be no accurate estimate; but there were at least thirty thousand of them prowling over the State during the past year, The proportion of drunkards is set down at

one in seventy-four, which would give to Penn-sylvania 49,657 of this class. The general summary of the above is pre-sented by the following figures:—

One in Whole number

Infare persons		8,715 8,615
Blind Deaf mutes Paupers		2 000 2,000 10 053
Vagrants and beggars Criminals	120	$ \begin{array}{r} 80,000 \\ 16,023 \end{array} $
B Drunkards	78	49 587

121,094 Total ... Such is the vast extent of the field to which the labors of the Association are restricted! At present, the Association is devoting all its energies to the last named department-the prevention and cure of intemperance. For the purpose of carrying these objects into effect, they have purchased a farm of one hundred and seven zcres, located in Darby township. Delaware county. The location is easy of access to the city by both steam and horse cars, and being completely surrounded by lorest trees, enjoys that privacy which is so essential in all reformatory institutions. It is intended, in the erection of the necessary buildings, to depart from the besten track, and instead of congregating large numbers of intemperate energies to the last named department-the congregating large numbers of intemperate persons under the same roof and at the same table" to provide for their accommodation onses which will contain families of from five

dilitia recorted. The first recommended that Lieutenant Governor should hereafter be elected. and provided that the Governor should not have the power to pardon the crime of treason, all offenders on that head being only pardonable by the Senate, who misht either commute or reprieve the proper legal penalties. This latter clapse is intended as guarantee for the good faith of any ex-Rebels who may enter the radical party for the sake of having their disabililes removed.

The Judiciary Committee recommend that all judicial officers except justices of the peace and county commissioners shall be filled by the Goverument, the pominees being subsequently confirmed or rejected by the Senate. The Militia Committee recommend that all

militia officers shall also be appointed by the Governor, subject to the approval of the Senate. None of the reports were acted upon.

A great deal of excitement has been already created by the ordinance proposed yesterday to compensate negroes for services rendered as slaves from the time of the Emancipation Proclamation down to their actual enfranchisement by the Federal army. The ordinance was not regarded as a serious proposition, but it now seems that some of the delegates are not only determined to carry it, but also to fix the compensation at the present price of labor, \$10 a month

This would practically give every negro who otes for the new Constitution a bribe of \$280. Confiscation would not result in nearly as much ruin as this. It is scarcely probable that so extensive a measure can pass the convention; but it is quite likely that some percentage of the present compensation for labor will be voted to the negroes.

The Power of Dismissal.

The Government organ this morning in a ong editorial maintains that the President has the power without consulting the Senate, to dismiss any Cabinet officer appointed by his predecessor. It says, "In the case of Stanton, the President's power of dismissal is clear and absolute whenever a new appointment shall be made. If Mr. Stanton is so disposed, then he will have time, and no doubt abundant leisure, to test judicially the question whether he or the President's new appointee be the de jure Secretary of War."

FROM BALTIMORE TO-DAY.

A Legal Difficulty-Oard from the Wise Boys-Important Missionary Meeting, Etc. Etc.

SPECIAL DESPATCH TO EVENING TELEGRAPH.] BALTIMORE, Nov. 18 .- There still continues lifficulty regarding the recent City Judges. Clerks of Court, Sheriff, etc., taking their seats and filling their offices, in consequence of their commissions having been lost or missing. They were directed to Alfred Mace, present Clerk of the Superior Court, before whom the parties are required to take the oath of office; but they preferred waiting to take the oath from the new Clerk. There are various rumors regarding this mystery, which puts all our Courts in abeyance for the time being.

The Wiscs publish a card saying that Polard shot first, and his wife was not present. The testimony will not justify such a statement. About forty ministers of the Episcopal Church are now here, and had a large meeting at St. Paul's last night, to commence an organization throughout the country of missions to advance the cause of the Church.

FROM WILMINGTON, DEL.

Church Dedication-Large Subscription Yesterday-Inactivity of Trade, Etc. WILMINGTON, Del., November 18,-The new Union Methodist Episcopal Church in this city was dedicated yesterday, Bishops Ames and Scott officiating. The whole cost of the church and lot was \$34,000, of which \$8600 were collected yesterday. There is still about \$3000 of debt against the church.

Many industrial interests, including leather, cotton, and woollen, are greatly depressed, but there is much activity in iron, ship building, and the machine shops, and some others, giving employment to those engaged in such pursuits.

an annual examination is provided The lieutenants with the instruction batteries will be relieved and replaced by others every year; but a tailure to obtain a satisfactory certificate at the annual examination will be a bar to promotion until after another year's instruction.

It is understood that the tract of land lying just north of the Fort and actoss Mill creek, is to be purchased by the Government for the practice school. It will embrace a large extent of territory, formerly occupied as a camping ground during the war, but now thickly stadded with rude log huts which are occupied by the freedmen, and the place is now yclept "Slab-town." It will be a great improvement should the Government purchase this place and turn it into a practice school; and certainly no better place for the purpose could be found. It is to be hoped, therefore, that the purchase will be made and the school be established; and if this is done, we may then expect some lively times on the Point again.

A large lot of colored recruits who have been waiting in Norfolk for cool weather and the abatement of the yellow fever, sailed last evening for New Orleans. They were recruited by General L. H. Warren, for the 39th United States Colored Infantry, now stationed there. The wrecking tug Resolute left Norfolk this morning for Barbadoes, to raise an English which went ashore there in the late gale The United States sloop-of-war Portsmouth is at anchor at the Compass Buoys, in the roads. The barque William, from Liverpool, sailed this morning for Baltimore.

The weather for the past few days has been very beautiful, with the wind from the southwest.

-Dr. Dorsey was ill; his friend, the Rev. Peter Quick, applied to the patron for the next presentation; but the doctor recovered, and upraided the Rev. Peter with such a breach of friendship, saying: - "You looked for my death." "No, no, doctor," said Peter, "you death." quite mistake; it was your living I looked for.'

-A red-nosed gentleman asked a wit whether he belleved in spirits. "Ay, sir," replied he, looking him full in the face too much evidence before me to doubt that."
