MRETING OF THE HISTORICAL SOCIETY OF PENN-FYLVANIA.-A stated meeting of the above So-ciety was held last evening, in their rooms in the Athenseum Building, Sixth and Aielphi streets, Vice-President Dr. B. H. Coates in the chair.

John Jay Smith, Esq., upon being introduced to the meeting, read a paper entitled "An Even-ing with the Peon."

The subject was suggested by the lecturer reading in the London Times of the death of Granville John Penn, the great grandson of the founder of this State.

The only remaining relative now is Rev. Thomas Penn, to whom all the estates of the family descend, his brother Granville having died suddenly, leaving no will. The estate is now in the care of the Lord Chancellor, Rev. Thomas Penn having been declared by a com-mission issued out of chascery incapable of managing it, he having become of late years insane. Some idea of the immense value of the family estate may be gained from the fact that Stoke Park, one of the family country seate, was sold lately for £350,000, or about \$1,750,000. The only remaining relative now in Rev. \$1,750,000.

The lecturer visited the lately deceased Granville John Penn, at Stoke Park, in 1845, and was

most kindly and hospitably received. The name of Admiral Penn is far more familiar to the English than that of William Penn, and it sounds strange to the ear of an American to hear the former's name so often and the latter's so seldom.

Is referring to the visit to this country, in 1861, of Graville John Penn, the lecturer stated that Thomas Penn had given the ground apon which the city of Easton is built, it being provided in the deed that a red rose should be given the head of the family yearly, thus secu-ring a small consideration. Some time ago the city government desired to put to other uses the public squares, but could not do so without the consent of the living representative of Penn, and accordingly application was made to Granville John Penn in 1852, who granted the request. The deceased was for a long time Governor of the Island of Portland, during which time he there built a palace, and named it "Pannsylvania Castle." He also built a mansion called "Solitude," on the west bank of the Schuylkill, which still remains.

Stoke Park was the scene of the poet Gray's "Long Story," and the church and graveyard that inspired his celebrated "Elegy" are in the immediate neighborhood.

At the conclusion of the reading the thanks of the society were tendered to the fecturer, and a printed copy of the paper ordered to be placed among its archives. Adjourned.

ANNIVERSARY OF A YOUNG MEN'S CHRISTIAN Association,-The anniversary of the Young Men's Christian Association of the Tenth Baptist Church was held last evening at the church,

Eighth street, above Green. The officers of the society are Charles Reed, President; Edwin F. Kennedy, Vice-President; Charles A. Hale, Secretary; and Henry Webb, Treasurer. The annual report refers to the organization

young men's associations thirteen years ago, with every indication of pro-perity. Time, however, dulled the prospects, and a general relaxation was manifested, until in a year or two nearly all of them terminated their exist-

In 1858 this society was established, and continued until 1861, when two-thirds of its members entered the army. It was originally con-templated to establish mis-ion schools and prayer-meetings, and have a general system for the distribution of tracts. One year ago the society reorganized with seventeen members, but thus far no missions have been established. but the subject has been agitated, and is under advisement. A prayer-meeting has been estab-lished on Bush Hill, and a number of colored persons have availed themselves of the facility thus offered.

During the year prayer meetings were held and visits made to the number of 442, and 17 ouverts are noted as the effects of the work. Of those visited by the members, ten have received the consolation of religion while on their dying bed. The amount received during the

He is obliged to pay \$500 daily for using the He is obliged to pay soon only for any the street in the manner above described, and, as there is considerable contrariety of opinion as regards the respective rights of each party, it was thought best to refer the whole subject to the City Solicitor for examination.

ORIGINAL PLAY .- The editor of the Orty Hem has written an original American play, in five acts, called Light at Last; cr. the Shadow on the Casement, which will be produced by Mrs. Drew at the Arch Street Theatre some time next month. In the face of so many failures among our playwrights, this is a bold undertaking ou year was \$32914, and the an ount expended, \$32214, thus leaving but \$7 in the treasury. The items for which money was expended consisted wishes for success. The scene is laid at Lake Killarnev, and the dramatic effects are said to be very line. "Mr. Millstone" and wife, actors, be very fine. "Mr. Millstone" and wife, actors, are the leading characters, and they are amusing and entretive. Mrs. Drew will play "Catharine Fairlawn" an Irish lady of great beauty and many virtues. From first to last she will hold the sympathy of her audience. The incidental music, a fine boat set g and chorps, and some charming dance music will be written by Mr. Remington Fair-lamb, one of our best composers. Due notice will be given of the production of the play. "THE LILY OF KILLARNEY," Benedict's new opera, was produced at the Academy of Music last evening by the Riching's English Opera Troupe, to a large and fashionable audience. It was a complete success, and made a greater hit than the Crown Diamonds. The cast embraced every member of the company, and all did admirably in their parts. The Lity of Kikarney will be repeated this evening. AT THE CHESNOT Mrs. D. P. Bowers will appear in *Marie Antoinette*, supported by the whole company, for the last time but one.

OBTAINING GOODS ON FORGED ORDERS .- Yesterday, an order for two pieces of silks, pur-porting to come from the firm of Sheppard, Van Harlingen & Co., was sent by a lad to the store of Messrs. Werner, Itschner & Co., No. 233 Chesnut street. The goods were sent by a young man in the store, and on his way up Chesnut street he was met by a man who asked him "if he was going to the store of Sheppard & Co. ?" Upon replying that he was, the other said, "It is all right, I am from there, and I will take the silk." The package was handed over, and the man started up the street with it. Soon alter it was discovered that the man was a swindler, and that he had sold the silk to Mr. John Louty, Eighth street, above Chesnut, upon representation that he had brought on it from England and was anxious to sell it. As Mr. Louty had not enough money in the store to pay for the slik, and had to send to bank for the bilance, the man did not get off before a knowledge of the swindle reached Mr. Louty, and when the individual returned for the balance of the money, he was taken into custody. Last evening he had a hearing before Alderman Beitler, and was bound over under the name of William Harris. In answer to questions by the Alderman, he said he came from England in April last, and had been since then in New York. An additional charge was preferred against him -that of obtaining handkerchiefs on a forged order at the store of Mr. John Huggard, on Chesnut street. He was held to answer that

the matter of the so-called brick-pile nuisance, in the vicinity of the old Pennsylvania Bank building, and complained of to Councils by owners of property and residents on Dock, Walnut, and Second streets. On the one hand, it is alleged that the con-tractor, who only had authority to use Dock street for 80 feet by 5 feet in width, is really using it to the extent of 300 feet in length by over 10 feet in width, for the storage of bricks and general *debris*, and that the stately piles are both dangerous and objectionable. both dangerous and objectionable.

On the other hand, it is stated that the Corn Exchange Building and the one to be used as United States Appraisers' Stores are such im-mense structures as to require all the space used for the old material, and that to interfere with the same would be to actually interfere with important public improvements,
