GENERAL BUTLER Says if a man's house is worth \$10,000 to-day, with the national debt at \$2,500,000,000, when the debt is reduced one-half then your house is worth \$20.000; and ergo, if the debt is reduced to nothing, then your house is worth \$2 500,000,000. Many complaints have been made of some of the awards made at the Paris Exposition, but no one has questioned the Intreess of the bestowal of the First cold medal to the Wheeler & Wilson Sewing Machines. To be sure, certain rival manufacturers, who, for reasons best knows to themselves, did not enter into competition, have endeavored to pooh-pool it but the Wheeler & Wilson stands to-day with the stamp of the world's approval upon it. But the proprietors do not mean to stop here. Their motto is ever "O.ward." Already they have applied to their machines the Bruan Manufacturing Company's New Cloth Plate, by means of which three distinct and different slitches are made. These are:—i. The Lock Stitch, alike on both sides of the fabric: 2 The Elastic Double-loop Stitch, which uses the threat directly from two spools without rewinding on the bobbin; and s. The Three-thread Ornamental Stitch, with which the most exquisite embroidery may be executed. This New Cloth Plate is a great improvement, and Messrs. Peterson & Little are now staching it to every machine they sell, without a third old machines, also, at a cest of \$10. They solicit a call at their saleszooms, No. 70 Chennut street, and feel confident that an inspection will certainly result in the purchase of a wheeler & Wilson. that an inspection will certainly result in the purchase of a Wheeler & Wilson.

The obstruction and discharge from the nose was content, destroying both taste and emel; and at times even interfering, from the change of voice, with his public ministrations. Almost in despair, he combened the use of Humphress Catarrh Spacific No. 19, and after the use of only a few pills—one every night—found himself improved; and ers he had used an entire bar, could consider himself entirely well.

A SWINDLER .- John Quinn some few weeks ago took lodgings at the boarding house of Mrs. Culten, No. 12 9 Market street. Two days ago, without giving any information of his intended departure, he suddenly left, not only swindling the lady out of her rightful fees, but aggravated the swindle by stealing sheets from the beds and clothes from the wardrobe, not forgetting a set of valuable furs. Yesterday this same dishonest Quinn, with a constancy in his disconest profession worthy of a higher allies. profession worthy of a higher calling, went into the store of John Conner, No. 607 South street, and ordered a handsome silk umbreila, directing it to be sent to a house in Ninth street. At the day appointed for the sending, the store boy, with the new umbrella under his arm, was trudging along to the house referred to, when who should arrest him in his progress but this sel same dishonest Quinn. The latter told the boy to hand him the umbrella, and go back to his employer and ask him to make a reduction in the price of the arricle of \$1. The boy did so, and he had no sconer disappeared events. and he had no sooner disappeared around one corner than the untruthful and swindling Quinn disappeared around the other. There were in the celbefore last by burglars. There were in the cellar of this store four barrels of whisky and a lot of empty demijohns. The burglars at ence devising the most feasible plan of stealing the whisky, filled the demijohns, and carried them away, and appearances testify also that when they had used up all the demijohns they rolled the barrels out of the store and into a wagon. Yesterday morning the first car coming in on Race street was stopped by a wagon standing across the track at Twenty second and Race streets. The driver making an examination, found two barrels of the whisky stolen in it. Further investigation led to the discovery of two five-gallon demijohns filled with the spirits on an empty lot opposite. The rest had mysteon an emply lot opposite. The rest had myste-riously disappeared, as had the thieves.

The Snow Storm of to-day gives us a good foretaste of the bitterness of winter to come. At midnight last night the atmosphere suddenly changed in its temperature, and the misty snow which had fallen was changed to ice, making the pavements so slippery this morning that it is difficult to walk in some places—especially before the Custom House—without falling. HAVANA CIGAR OIRCULAR.

We have neither abandoned the CIGAR IMPORT-ING BUSINESS nor commenced manufacturing what are usually called "Domestic Cigars."

We continue to import Havana Cigars, as we have done for forty years.

Their high cost, however, has determined us to introduce a bona fide substitute that can BE RETAILED AT MODERATE PRICE, and to this end we are manufacturing fine Standard Cigars, including grades made entirely of Vuelta Abajo icaf, such as is used only in leading Havana factories. This we prepare and work ON THEIR SYSTEM, guided by long practical experience in this manufacture at Havana.

Our new enterprise is, therefore, in its leading

Havana,

Our new enterprise is, therefore, in its leading objects, a mere transfer of a first-class factory from Havana to Philadelphia, and our manufacture will be, in greater part, strictly Fine Havana Clgars, equal to any imported, yet much cheaper, and by no means to be confounded with even the best customary grades. to be confounded with even of Domestic Cigars.

The smoking public may soon judge of the truth of our assertions, as our Cigars will shortly be offered to them through the Drincipal city dealers.
