SUGGESTIONS OF THE SEASON,-King Winter has waved his sceptre over the land, whitening the earth, bridging the streams, and turning the water-falls to pendent crystal. Upon animated as well as inanimate nature, the trigid atmosphere produces a marked effect. The blood is driven from the surface of the body back upon its inner fountains, and Chilis and Fever, Rheumatism, Pulmonary Diseases, Billpusness, and unpleasant disorders of the stomach and bowels are apt to be the results,

Now, what is required to fortify the system against the attacks of disease thus engendered ? Clearly a TONIC, which, acting through the stomach upon the circulation and the nervous system, shall redeter mine the vital fluid to the surface, and brace the nerves of motion and sensation. But this is not all that is required. With the TONIC must be combined BUCH ALTERATIVE and REGULATING agencles as will tend to keep the whole animal machinery "in good working order."

These three grand requisi es of a winter restorative exist, in their fullest perfection, in HOSTETTER'S STOMACH BITTERS, which are compounded of the purest vegetable stimulants and extracts, of the most genial and healthful roots, barks, and plants that the herbalists and kotanists of the world have yet dis-

IN THIS CHANGEABLE CLIMATE of ours a Cold is easily taken, and without due care another will be contracted on top of it—one Cold thus running into another, until the accompanying Cough becomes set-tled and confirmed, straining and racking the lungs, Iled and confirmed, straining and racking the lunga, and ultimately atimulating the production of tubercies; yet notwithstanding a majority of existing cases of clearly defined Pulmonary disease may thus be accounted for, thousands are now carelessly allowing themselves to drift through the preliminary symptoms, under the fatal delusion that they are troubled with "Nothing but a Coid." How obvious is it, therefore, that a Cold should becarefully cared for from its incipiency, and every exertion used to rid the system of its effects! Coughs and Colds, Pulmonary, Bronchial and Ashmalic Affections, are readily cured by that standard preparation. Dr. D. CATABRE.—A clergyman aged forty-two, had long suffered with catairth, which had not only been a source of annoyance, but began to excite uneasiness in regard to its effects upon his general health. He procured a box of Humphreys' Specific Catairth Phis No. 13, and was entirely cured, even to a return of his sense of amell in the course of a few weeks.

A MEETING of Irishmen, without regard to party was held on yesterday afternoon at No. 12 South Broad street, to take action upon the late exciting news from Ireland, and to express their deep indignation at the conduct of the British Government in executing the Fenians Larkin, Gould, and Alien. It was the first time that the Fenians of both wings of the Brotherhood showed a willingness to unite, notwith-standing the bolsterous conduct of a faw ad-herents of the Savage branch. Dr. Carroll occupied the chair, and speeches were made by John M. Moriarty and others, counselling harmony and united action amongst Irishmen of all creeds and amongst Irishmen of all creeds and classes, and begging forgetfulness and forgiveness for all past blekerings. It was resolved unanimously that suitable funeral obsequies, in memory of Allen, Gould, and O'Brien, take place on New Year's Day; that the whole strength of the Fenian organization turn out to while produces well and o'companies. strength of the Fenian organization turn out in public parade, as well as all other societies sympathizing with the martyred dead; and that all the expenses of carriages, hearses, music, and mourning badges be defrayed equally by both branches of the Brotherhood. A vote of thanks was passed to Simon Gartland, undertaker, for offering gratuitously the use of his hall, hearses, and carriages. A committee of twenty-six persons was then appointed to carry out the objects of the meeting. Communications from other societies will be received by Mr. John Brennan. the meeting. Communications from other societies will be received by Mr. John Brennan, Mr. Finn, Dr. Carrol, and Mr. Nash, who will assign them positions in the parade. It promises to be a very imposing sight.

THE CITY ICE-BOAT, We are glad to say, is hard and efficiently at work, with every pros-pect of being able to keep the channel of the Delaware below the city clear of all obstruc-tions. The defects in her boilers, which were so manifest last winter, have been remedied, and she is now fully able to cope with the ice and tide, having made thirteen miles per hour and tide, having made thirteen miles per hour on a recent trial trip. A full supply of coal was taken in on Saturday, and yesterday was passed in cruising up and down the river. This morning she started down the river with a large tow. Persons in other cities who desire to ship freight to Philadelphia, can therefore do so, with the assurance that it will reach its destination without material delay.

Loss About \$15,000. About 6 o'clock last evening flames were discovered issuing from the smelting room of the Camden Nickel Works, situated on Cooper's creek, opposite the Camden Woollen Mills. The alarm was sounded, and the fire companies proceeded with as much alacrity to the scene as they possibly could, the snow greatly impeding their progress. A hose belonging to the esta-blishment was attached to the donkey engine and a diminutive stream was thrown upon the

By this time the fiames had forced their way through the floor into the upper story, and the roof eatching fire, threatened with destruction the surrounding buildings. The steamers composing the Camden Fire Department were run alongside of the creek, and thus a sufficient quantity of water was secured. All hopes of saving the burning building were then given up, and the streams of water were turned towards the other buildings. The fire burned with great stubbornness for about three hours. The building destroyed was about 40 feet wide by 80 long, and was two stories in height. which by 80 long, and was two stories in height, with a slanting gravel roof. The first floor contained two cupolas, used for smelting purposes. The fire originated in this room, and was caused by the material being over-heated. The second floor of the building was used as a dyeing room. Everything in the structure was desirored. A building adjacent to it was condestroyed. A building adjacent to it was considerably scorched. A high wind prevailed at the time, but fortunately it was blowing in an opposite direction from the other buildings. Had it not been so, the whole works would have been a mass of ruins this morning. Messrs. Wharton & Fleistmann, the proprietors, estimate their loss at \$15,000, upon which there is no insurance. Loss of Eleven Lives.

New York, Dec. 16,—A tenement house in Second Avenue was burned this morning, and eleven persons perished in the flames. Several of the inmates were injured by leaping from the windows of the burning building.

New York, Dec. 16, "The fire in Second avenue, by which so many persons lost their lives, originated on the lower floor of the house No. 596, occupied as the bakery of Max Miller, who with his family succeeded in escaping into the street. The shouts of the firemen awakened the other inmaies, who found their means of egress cut off by the flames. The police and firemen succeeded in rescuing the families re-

siding on the second and third floors.

Mrs. O'Meara and her three children, living on the fourth floor, were either suffocated or burned to death. After the fire there were taken from the

smouldering rulns the bodies of Rosanna Mur-phy, her two daughters, and her son Thomas. The scene presented, as the dead bodies were taken out, was harrowing in the extreme.[Several other persons besides those mentioned are missing and supposed to have perished in the flames. ierday (Sunday) morning at lo clock, rendered a verdict of guilty, with a recommendation to the mercy of the Court. A motion for a new trial was made this morning.

United States vs. Timothy McCarty. In this case the detendant was charged with carrying on the business of a distiller without paying the special tax. It was alleged that the defendant's place was visited on the Bistof August last by the revenue officers, a distillery was found in operation, and the defendant was found in possession. The tax for 1865 had been taken out by the defendants, but that had expired in May, 1867, and a new one for this year was not taken out. The Assessor of the Third District, in which the distillery was, testified that there was no assessment of the defendant; and theremuon the question arose whether or not a distiller, who was not assessed, could be convicted criminally for distilling without naving paid the special tax, which, at the close of our report had not been decided.

COURT OF QUARTER SESSIONS—Judge Brewster.—The second period of the November term began this morning. A new panel of jurors was returned, and considerable time was taken up in hearing applications for excuse from services.

Themas Smith was convicted of a charge of the larceby of a coat belonging to Rodney Wenderoth. The prisoner went to Dr. Allis's office, and found the Doctor out, and Wenderoth alone in the office. After sitting awhile, apparently waiting for the Doctor's return, he suddenly jumped up from his seat, and going through some most astonishing spasms, called faintly for water.

The frightened boy hastened out of the room to fetch the water, but on his return he found the sick man and an overcoat he had left hanging on the wall had disappeared. The prisoner was afterwards arrected with the coat on his person.

WASHINGTON, Dec. 16. General Grant and the Republicans. The resolution offered last week in the Na-tional Union League, to commit the candidate of the Republican party for President to manhood sufrage, excites much discussion here, and while some assert it was aimed at Grant, with a view to draw him out, his friends confi-dently declare that he will stand on the broade t platform the party may make, and will, when the proper time comes, so declare himself as to leave no doubt as to his sentiments on the leading questions of the day.

Printing the Stamps. The contract with Butler and Carpenter, of Philadelphia, for printing internal revenue stamps, which expired some months ago, has not been renewed. The Department had sufficient stock on hand to supply the demand for some time, and experiments are being continued to determine whether some improvements cannot be made on the present style of stamps.

Changes in Internal Revenue Laws. John H. Diebl, Collector of Internal Revenue of the Second District of Pennsylvania, is here on matters connected with his district, and to confer with Commissioner Rollins upon proposed changes in the Internal Revenue laws.

Reported Removal of General Pope. The report about Meade being selected to succeed Pope is believed to be only a feeler thrown out by the semi-secesh element to try and bring it about. They have been for some time working for Pope's removal, but if 'Meade should be his successor, the ex-Rebeis would not make much by the change.
