ADDITIONAL ICE BOATS ON THE DELAWARE .-The following petition has been prepared, and will be submitted to the citizens of Philadelphia immediately for their signatures: -

will oc submitted to the citizens of Philadelphia immediately for their signatures;—
To the Honorabis the select and Coamon Councils of the city of Philadelphia,
The undersigned, citizens of the city of Philadelphia, most respectibilly beg leave to call your sitention to the inadequate means at crevent available for the purpose of keeping the Delawate river sufficiently free from ice to be navigable.

It will be remembered that during last winter the regular line of steamin par were compelled to postpone their trips, and that for some weeks no vessels of any description could come line or go out of port, by reason of the river being complexely cosed by ice, and that when the City lice Boat at length succeeded in oneming a channel, the cakes of ice were so large as to render navigation both difficult and sangarous. During the winter, business is almost entirely suspended along the river front, because of the uncertainty of the condition of the river, and importers are compelled to order their goods to be shipped to New York and to pay the extra cost of transportation from that city to their piaces of business in Philadelpila, while hundreds of mich who usually find employment on the warryes as sevedures, longshorement, are deprived of employment in the most inclement acason of the year, when work and money are most essentially necessary to them.

In congress, when the question was pending as to whether League Island should be accepted as a site for the United States Navy Yard, the strongest argument used by the opponents of the League Island should be accepted as a site for the United States Navy Yard, the strongest argument used by the opponents of the League Island should be accepted as a mice for the United States Navy Yard, the strongest argument used by the opponents of the League Island should be accepted as a mice for the United States Navy Yard, the strongest argument used by the opponents of the League Island should be accepted as a mice for the United States Navy Yard, the strongest argument used by th

ment used by the opponents of the League Island sile was that it would be inscessable in the winterseason. There are at the present time a large number of vessels irozen up in the tee between Philadelphia and the Break water, without the least chance of being extricated; and in some instances the crews belonging to vessels outward bound have deserted, going amore upon the ice. This will detain these vessels perhaps a week, in order to obtain new men. Vessels bound up, laden with perhabele commodities, have been compelled to discharge their cargoes down the fiver, at creat expense to the parties to whom the vessels were consigned.

It is evident that the lee-boat now in use is not expalled it keeping the river open during the winter; and in the event of accident to the leeboat or her machinery, the city is a provided with any other boat or appliance which could be used for breaking up the hee and the undersigned would most reaspectfully petition your hom rable bodies that such legislatics may be had as will clace upon the river two additional ice boats, of such d measions and character as the captain of the City fee Boat would deen capable of Being need in to ving to and from sea, believing, as din the befrease in business during the first winter they would be more than relaminated to the clitzens and ax-payers by their earnings by towing, and in the befrease in business during the first winter they would be in operation.

INSTITUTE FOR COLORED YOUTH .- The fifteenth annual commencement of the Institute or Colored Youth took place last evening at National Hall, Market street, in the presence of a large audience. The exercises consisted of orations, essays, and recitations by the pupils, all of which were loudly appliaded. The Salutatory, an oration in Latin, by Pliny I. Locke, was delivered with ease and Locke, was delivered with ease and grace. Rome under Augustus, an oration by E. B. Belcher, was well delivered and very favorably received. Orations were also delivered by R. E. De R. Venning, William H. F. Armstead, A. R. Johnson, J. W. Cole. Joseph T. Seth, and Charles N. Thomas. Essays were read by Misses Frazelia Campbell, V. Camp. Sarat L. Iredell. Lucretia C. Miller, and Mary J. Hawkins. The recitations by a class of girls and class of boys exhibited the thorough training they had received. The Vaicictory was delivered by Horace F. Owens. Professor Hartsborne, one of the Board of Managers, then presented diplomas to the following graduates:—Pliny I. Locke, R. E. De R. Venning, Fraz lia Campbell, Sarah L. Iredell, J. W. Cole, Tonssamt L. Martin, and Horace F.

FENIAN MEETING .- A large meeting of Penians; was held last evening to arrange for the tuperal obsequies of the members of the Brotherood recently executed at Manchester. Andraw Wyrke was appointed chairman and T. Finn Secretary. The Committee appointed at a previous meeting to make arrangements, reported that they had fixed on New Year's Day as the time for the demonstration, and that invitations had been extended to the various beneficial societies in sympathy with them, and to the fremen, to participate in the ceremonies. tations have also been sent to associations throughout the State, and favorable replies have een received from a number. It was stated the line. John O'Byrne, E.q., is to deliver the address. After the funeral procession a meeting will be held, at which addresses will be made by General Owen and others.

In this Changeable Climate of ours a Cold is asily taken, and without due care another will be contracted on top of it—one Cold thus running into another, until the accompanying Couch becomes settled and confirmed, straining and recking the innex, and ultimately stimulating the production of tubercies; yet notwithstanding a majority of existing cases of clearly defined Pulmonary disease may thus be accounted for, thousands are now care-easily allowing themselves to drift through the preliminary symptoms, under the fatal defusion that they are troubled with "Nothing but a Cold." How obvious is it, therefore, that a Cold should becarefully cared for from its inciplency, and every exertion used to rid the system of its effects! Coughs and Colds, Pulmonary, Bronchial and Asthmatic Art citions, are readily cured by that standard preparation. Dr. D. Jayne's Expectorant, and by promptly rescring to it all fears of dangerous results will soon be dissipated. Sold everywhere.

THE MOST DIRECT and salutary treatment for the prevention or cure of Neuraldia, Nerve ache, and all painful nervous affections, is by taking Dr. Turkers, Tic Douldusers of Universal Neuraldia Pril. which effectually lones a d stimulates the nerve ful of the proper action, thereby re-es'abilishing the whole nervous system.
