A SONG FOR SOCIETY. Blanchey Prancey went to a ball: Blanchey Prancey had a great fall; 'Twas all through her wearing a very long

of a dull sermon? The "shard-borne beetle with his drowsy hum." Morro for Hair-Dressers-"Cut and Comb again.'

LIGHT PORTER'S WORK AND HEAVY PAY .- Mr. Labouchere stated in the House of Commons that certain special missions had cost £15,000, granted for the purpose of carrying the Garter to foreign sovereigns. What would they say of this at Washington? Perhaps that anybody was fit enough to carry a garter to a sovereign who was fit to carry interiors to a plantigrade of the ursine family.

Fact.-An impressionable Bill-Sticker was recently so overcome by witnessing the drama of Nobody's Child at the Princess' Theatre, that instead of writing on the wall "Who's Griffiths?" he was discovered sticking up the words "What's Phillips?"

DE LUNATICO .- A correspondent, whose losses have affected his brain, writes to ask if the report is true, that in future the "Yolks" will be run at Engham! We have sent his letter to Dr. Win-slow.

MOTTO FOR A BOX-OFFICE KEEPER, -"So much for Booking 'em."

AN INTERNATIONAL GAME. - Beggar-myneighbor used to be a game of cards. It is now played with bloated armaments. THE PRENCH IMPROVED.

BLACK BALLING .- There is no truth in the report that an enterprising entrepeneur, stimulated by the success of the "Black Cricketers," is about to engage an opposition troupe of Black Beetle-ers.

THE PACE THAT KILLS .- The faster a man starts in life, the sooner he gets into a hobble.

THE WAY TO THE WOOLSACK, The early bird picks up the worm, One morn young Briefless sald; Then I will rise betimes in term, Whilst others lie aned If I, let clients come or no, Am with the lark astir, I needs must be, in being so, A rising Barrister.

A PARALLEL CASE. -- A curious resemblance on one point may at the present moment be traced between Abyssinia and England. A considerable portion of the former country is ruled by the Gallas, while the whole of England is governed by the gals.

SERVE 'EM BIGHT .- What those who would deal a death blow to the flowing bowl should be made to drink-a Stiff Glass.

From Divers Directions.

THE LATEST DEFINITION OF "MAN."-Telegram-inivorous animal. A Painter who should Always be Hung "on

A Distinction .- Our cynical friend Spearsby seeing a new book announced under the title of "Every Man his own Lawyer," suggested that a better name would be "Every Fool his own Client."

-Poor Mrs. Lyon, it is said, has been laboring under "severe indisposition." This is nothing new, seeing that she has been for a considerable time past subject to Home-copathic treatment.

Go Ir !-Mr. Gladstone, we are informed on unreliable authority, intends bringing in a Bill to unfrock that "son of a gun," the "Bishop of Bond street !"

TAKE CARE OF THE PENCE, THE POUNDS WILL TAKE CARE OF THEMSELVES .- This is doubtless the reason why shopkeepers in giving change wrap up the coppers in paper, a mark of dis-tinction never accorded to gold and silver.

HANG IT ALL !- The chances of the abolition of capital punishment-in Ireland, at leastwould seem to be remote. The government has hanged one or two Fenians already, and now it is proposed to suspend the whole Irish

Quite Clear .- A Sonday-school boy was recently asked what conscience is. He re-plied, "An inward monitor." On being plied, pressed for the definition of a monitor, he replied, "One of the iron-clads." We have not heard conscience compared to iron; but have repeatedly heard the expression, "He steels his heart against conviction."

-A Yankee riding on a railroad was disposed to astonish the other passengers with tough stories, At last he mentioned that one of his neighbors owned an immense dairy, and made a million pounds of butter and a million pounds of cheese yearly. The Yankee per-ceiving that his veracity was in danger of being questioned, appealed to his friend:-

"True, isn't it, Mr. - ? I speak of Deacon Brown." "Y-e-s," replied the friend; "that is, I know Deacon Brown, though I don't know as ever I heard precisely how many pounds of butter and cheese he makes a year; but I know he has twelve saw-mills that all go by butter-

It is so constructed as to at once commend itself to general favor, being a combination of wrought and cast from it is very simple in its construction, and is perfectly airtight; self cleaning, having no pipes or drains to be taken out and cleaned. It is so arranged with upright fines as to preduce a larger amount of heat from the same weight of coal than any firmace now in use.
