ITON ADDITIONAL LUCAL ITENS SHE INSIDE PAGES.

SUR-STROKE .- James Riley, who keeps a cake stand at Eighteenth and Walnut streets. was overcome by heat, and removed to his home

An unknown man was picked up at Gray's Ferry Road and Shippen streets, and removed to the Ho-pital.

Sarah Green, who works in a factory on Germantown Road, was taken to her home, No. 162 Master street, suffering from the heat. Wittiam Bell was taken to his home, Galloway

and George street. Catoline Demer, employed at Hummell's Morocco Factory, at Third and Beaver streets,

ad to be taken nome. William Lancaster was picked up at German-

town Road, below Second street, struck. The person reported as Margaret Miller, who ded on Wednesday evening of the heat, should have been Margaret McMillen; her husband James McMillien died last night from the same couse.

Toomas Ellis, working at the Lazaretto, was sun-struck yesterday and removed to his home, No. 2310 Ashburton street, where he died.

The Coroner was notified to hold an inquest on the body of Edward Cavanaugh, who died very suddenly at his house, northwest corner of Fourth and Redwood streets, supposed to have been caused by the heat.

A BRIGHT (?) PROSPECT .- The strike among the workmen at the Gas Works is about to place us in a rather dark situation. The gas meters are almost empty, and no gas is being gene-rated. The men still refuse to work till the 25 per cent, advance in salary is agreed to by the Trust.

The Board of Trustees say it they accede to the demand it will cost them \$129,960 extra per year, and they cannot afford to do so, unless they take the price on the consumer. They will hold a meeting some time this afternoon to decide on a course of action. It is said that some of the trusters have stated they would uti the works with men at \$1.75 per day. Now is their opportuni'v.

It is doubtful whether we will have gas to-might or not, even should the men resume work, as all the apparatus for generation of the gas is cold and it will require some time to heat it properly; we will be compelled to fall back on kerosene oil and candles, The Gas trust should do something soon to

satisfy both consumers and workmen. Chief Engineer Brown, of the Gas Trust, al-

vises the citizens to supply themselves with lamps and candles for a few days, till the gas difficulty can be settled.

THE SEA-VIEW HOUSE at Atlantic City is one of the most pleasant of resorts for visitors. It is a large and airy structure, elegantly fitted up, well managed, and altogether guests will find in it everything for comfort and satisfac tion. It is one of the nearest hotels to the beach, thus making it a desirable stopping-place. Mr. Henry Kelly, the proprietor, makes It the one object of his every-duy life to see that all his patrons are well supplied, and are enjoying their periodic visits to the City of the Sea. It is a quiet location, where those wishing for rest can amply find it. It is near enough to the places of entertainment to make it de irable for pleasure seckers. In all things it is an excellent house.

THE LAST RITES. - This moning, at 10 o'clock, the funeral of the late John F. Mc-Devitt, E-q., took place at No. 417 S. Sixteenth street. There was gathered there a istge a semblage of mourning friends, consisting of relasives, members of the Bar, newspaper profes-sions s, and the members of the Philopatrian Literary Society in a body. The functal pro-cession left the residence for St. Parrick's Church, where solemn and impressive services were rendered. These being conclude1, the --- carried to Cathedral Cemetery, remains were intered to eccording to the riles

of the Catholic Church.

A NARROW ESCAPE .- A young lady named A NARROW ESCAPE. - A young have have Wason, residing in the south western portion of the city, started on a premic yesterday at nall past six o'clock in the morning. When step-ping on the plank of the steamer Swan, at Arch street wharf, the board turned and precipitated iver. A young man named James Sumpson standing on the wharf with a child saw the scodent, and placing the child in a sate place, plunged in and brought the lady sately out of her owth. The only inconvenience experienced was the wet clothes.

### Railroad Projects.

Special Despatch to The Evening Te egraph, WASHINGTON, July 17 .- The Senate Pacific Railroad Committee had under consideration to-day a bill to build the railroad from Cairo Illinois, to the Rio Grande, through Arkansas and Texas. The bill calls for Government aid in the shape of a guarantee or endorsement of the United States upon the Company's bonds. The Committee have also considered a bill for building a road two hundred miles long, through the lowlands of Mississippi; and, also, for building levees along the same section. Both bills were postponed until the next session. It is understood that General Fremont is at the head of the proposed road between Cairo and the Rio Grande.

### The Third Party

movement seems to have fizzled out. Several of the leaders who were supposed to be interested in it have abandoned it, and have written letters informing their followers that the thing is inexpedient and unwise. It is now proposed to make a square fight between the New York and Chicago candidates and the platforms.

#### The Finance Committee

of the Senate regard the action of the Ways and Means Committee, in reporting a substitute for the funding bill, as an evidence that the House will not adopt this financial policy at this session.

The Senate will not consent to Schenck's bill, and owing to a diversity of views on the subject, the matter is likely to fail.

The Senate Foreign Affairs Committee Has agreed to report the Alaska Appropriation bill without the House amendment, and to recommend that the Senate insist upon a simple appropriation bill without any proviso. This will throw the bill into the conference committee. It is probable that the Honse will recede from its amendment, so as to allow the bill to pass.

### Imported Merchaudize.

The bill to facilitate the transportation of imported merchandize from ports of entry on the seaboard to ports of entry in the interior was reported from the Finance Committee of the Senate yesterday. It was the understanding that no action is to be had on it this session.

### The Variff Bill.

### LEGAL INTELLIGENCE.

COURT OF QUARTER SESSIONS-Judge Pierce -Judge Pierce charged the jury in the Ficken & Williams nuisance to the effect that among other things-the question was whether the persons occupying the houses in that neighporbood are so annoyed, disturbed, and in terrupted in the enjoyment of their residences as to amount to a common or public nuisance. They would have to find not that, a few persons have been so annoyed and disturbed, but that the approvance has been of so general a character as to sheet the usage comfort and reasonable as to affect the peace, comfort, and reasonable enjoyment of the persons resident in the neigh-borhood in the use of their houses. It was for them to say whether the matters complained of were of so general a character as to constitute a public nulsance. The jury returned a ver-dict of not guilty after an absence of twenty minutes.

Prison cases were pext in order. Philip Madden was charged with committing an assault and battery, with intent to klil, on Gilbert Paul. Paul testified that Mr. Madden told him to pick some money off the pavement; he did so, when Madden knocked him down; he rose, and was knocked down again; he started to run, when Madden shot at him and struck him in the hip. Faul has been in the Hospital three weeks.

ance, and the pistol shot, and when Madden came in his immediate neighborhood, he over-heard him say, "I shot that boy." The officer who arrested Madden says that

Madden had no counsel and no witness. Ver-dict guilty. George Boott was convicted for stealing a sil-

ver watch, the property of E. Prattes. A witness swore that he saw Scott take the watch, and remonstrated with him for "going back on his own color." He replied, no had lost three dollars, and somebody must suffer. # FORTIETH CONGRESS—SECOND SESSION.

WASHINGTON, July 17 .- Mr. Sherman (Ohio) rose to a personal explanation, and reading from a recent article in the Heraid, pronouncing his funding bull a monstrous job in the interest of the Treasury ring and his friends, Jay Cooke and others. He said that the bill gave no power to the Secretary of the Treasury beyond what he already possesses, and that every section of the bill is restrictive upon his power; that nobody from the Treasury was directly or indirectly for the pa-sage of the bill; that Jay Cooke & Co. had never alluded to the subject in his presence, but on the contrary all bankers and brokers were or posed to the bill as tending to destroy their vocation; that so far as he (Sherman) know he had never done any bing to promote the interest of Jay Cooke, though a personal friend, who, if he had made fortune, had done it by honorable means, and not allogether from Government securities, though employed by three successive Secretaries of the Treasury in the sale of bonds; lay Cooke & hat were not respon this measure. He sible for repelled assertion the article that this ot the bill had been shoved through in an underhand manner without calling the yeas and navs, say ing the Senate was aware that he had never called it up except after fall notice, and it was assed after the most mature consideration. His attack was simply a device to defeat important measures before Congress. By the terms of the bill nobody could have a job, but all must be douc by voluntary action in buying and selling.

LONDON, July 17 .- In the House of Commons last evening Lord Stanley, Secretary of Foreign Affairs, made an important statement, in answer to a question asking for information. A reply, he said, had already been sent to the United States Government in the matter of naturalization, the substance of which was that the British Ministry were made to accept the American view of the question, and he, therefore, thought a misunderstanding between the two nations was impossible.

Lord Stanley also states in this reply that he has declined to make a reply at present, as the royal commission was still considering the general subject, and for the additional reason that a bill would be presented at the present session of Parliament.
