A STRIKE RIOT.

The Discontenied somployes of a Mis-souri Railroad Wayiay a Frain. From the St Lou & R publican July 17.

A riot, which thres ened to assume for nidable proportions at the time it occurred, took piace on the Pacific Ba lroad yester iny mornng. Thes en of the dis prosnee was close to the macaune shop, about two miles rom the Seventh Street Dep 4. I was created by some discontented engineers who had lef work, and was participated in by about twenty-four men of this class and breace. The first intimation of the threatened riot was

given shortly be ore 9 o'clock in the morning, when the persons mentioned b gan to congre-gate near the machine shop. Shordy after this, a locomotive, which had come from Franklin. was starting out, when several of these men leaped upon it. It was going at a slow speet. The fireman, who had been lately engaged, jumped off, and tried to es ane, be deeming it perilous to his safety to remain. His efforts to do so were, however fatile, as he was parsied Had not assis ance been at hand it is probable he would have received tatal injuries. It tared rather better with the engineer of the locomotive, for, although well beaten, he was saved

from further injuries. The chief of P lice was notified of the riot, and had a body of 25 or 30 meu q il kly collected on the stol. The rioters, sceing that a slatance was being procured, dispersed, but one of them, a man named Thomas Biley, who put down the breaks of the engine, was arrested. The police prevented any under stoppage of the trans, which ran with accustomed regularity during the day. The Chief left a body of time men under the command of Sergeant O'Neil, to preyeat any further disturbance, and they were relieved at night by a -limitar number.

We learn from Mr. B. Warres, the master mechan c, that the or gin of the disturbance is as follows: - Some days ago one of the engines was taken off this part of the road and trais-ferred to Boon-ville. This left for engines instead of twe, as before, to run between here and Jefferson. But this left the number of miles to be run daily by the engines less than that allotted on the Obio and mealssipol road. The men were spoken to about it, and after ranning a few days they apply d to have another rouning a few days they apply d to have another engine put on. The decomit was made on Wednesday, the Sth instant. Mr. Warren told them he was not in fayor of it, but he would speak to his superior officers about it. He proposed to reter the matter to Mr. Wilson, of the men's society, for decision. but they relu-ed to agr e to it. He next offered to put an ex'ra man on, so that these four engineers would not be overworked, but they demurred to this and said they must have the cogine. He told them that if they were attemp ing to run the road it would not be per-mitted, and on Wednesday he got more men. About twenty-three of the old bands left, under the impression that their places could not be supplied, but they found out their mistake, and the not was the consequence.

The matter in di-pute was not a question of wages at all. The eng neers who complained receive \$28 per week, and the firemen \$2 per There are about ofty engineers on this part of the road, and a rather large number of

It is intended to keep a body of police on duty day and night, at the machine shop, for ome time, and it is not likely that any further difficulty will ensue.

Last evening the Chief of Police sent a squad of pol cemen in uniform and several in citizens? dre a as far as Fracklin, where there is a par-tial strike as well as at Jefferson City.

A MANIACS WORK.

Seventeen Victims sals Under the Knife

of a Madman at Tr.bizo.d. A Constantinople correspondent of the New York Hera/d relates the following occurrence of

few days since, which spread consternation throughout the whole city. In the space of a few mhantes only, seventeen victims tell under the knife of a mailman. Four were killed on the spot, ten mor ally wounded, and three others shightly wounded. Each victim received b t a single wound, which in all cases was

Prog.ess in Manufactures.

In an article which we pu lished in this journal in "Pecember last, under the above cap tion, we refer red at some length to the great soap manufactor, v of Mr. J. B. Dubbins, at Sixth street and German'town avenue, predicting that the soap which Mr. Dobbins manufacturesfamiliarly known as Dob, bins' Electric Soap-was destined to attain a degree of popularity never equaled by any other manu's ctured article in this country; and stating that already the cupidity of certain envious (would'-be) rivalbad been excited by Mr. Dobbins' unparalleled SUCCESS.

It is to the latter of these points that we to day wish briefly to direct attention. As a great economizer of time and labor, we then gave to Mr. Dobbins' Soup the end reement which its merits descree, believing that by so doing we should promote the comort and hap sinces of millions throughout our cities and the country at large. But we are unwilling that our endorsement of a good article shall be faisely used in order to give respectability and character to poor imitations of it. There are certain soap manufacturers of the more unscrupulous class, wuo atter vainly endeavoring to foist their sorp upon the market under certain names have simply changed their names, without in the least improving their washing properties, and are endeavoring to delade the public into the adoption of these miserable shams. They are pretty looking wh te soaps, but for washing purposes are absolutely good for nothing. Let the people therefore bewire. One concern has even gone so far in this deception as to advertise Philadelphia Liectric Soap, very nearly imitating his labels, with the evident design of misleading buyers into the supposition that it is the Dobbins article. Of course no honorable well-estab ished firm would rescrt to such a trick. In fact, we know of respectable firms in the business who denounce the imposture more severely than does Mr. Lobbias humself.

We can hardly imagine a more disreputable mercantile procedure than these "played out" soap-makers, after their soaps have become as "played out" as themselves, endeavoring to resuscitate their dead failures by resurrecting them in new boxes, or rather in the old ones with new tabels, and palming them off upon unsuspecting dealers and consumers as "ELECTRIC SOAP !" It is a wonder that their audacity has not impelled them even to the use of Mr. Dobbias' name to give currency to their wor hiess trash. Again, we say, beware of these imitations! Those woo have not yet tried the merits of the genuine Electric Soap have s ill a real household blessing in store for them, and we recommend all our readers to avail the asselves of it; but let them be careful to buy no other than that manufactured by Mr. Dobbins at his im. mense works, corner of Sixth street and Germantown avenue, Philadelphia.-Press, Ju'y 14, 1868.

Life Insurance by the Co-operative Plan.

The great benefits resulting from life insurance are too generally known to need any comment from us. Some days since we called attention to the method of Co-operative Mutual Life Insurance, as adopted by the Philadelphia Company, loca'ed at the northeast corner of Fifth and Walnut streets, in this city. The amount required to obtain an insurance of \$1000 is only \$5 and upward-, according to age; a sum within the reach of every person of limited income. And that, in addi ion to this, only \$1.25, payable on thirty days' notice, is required on the death of any one of the one thousand of the class to which the insured belongs. Taose who depend upon their earnings from day to day for the subsistence of their families, should take this matter into serious consideration, and there are few who cannot make the small payments required by this Company.

JEWELRY.-Mr. William W. Cassidy. No. 12 South Second street, has the largest and most attractive assortment of fine jewelry and silverware in the city. Purchasers can rely upon obtaining a real, pure article furnished at a price which can ot be equalled He also has a large stock of American watches in all varieties and at all prices. A visit to his store is sure to result in pleasure and profit. I UNG COMPLAINTS, BRONCHITIS, ASTHMA, elc., are

speadily relieved, and, if taken in time, permanently cured by JAYNE'S EXPECTOBANT. You will find in it also a certain remedy for Coughs and Colds. Sold

every where.

DUTY .- It is a duty we owe to ourselves, as well as to those who are dependent upon us to preserve our health and strength. Speer's "Stand ard Wine Bitters" are found to be an unfalling and valuable assistant in maintaining the vigor of the system, and in kceping it in tene. Fold by Druggists and Grocers.

TRENWITH has everything that the reader could wish for in the literary line. His favorite Depot at No. 107 8. Third street is completely stor, ed with Magazines. a m d at the heart. The a-sassen is a man of emali stature, but strong and robust, about dity years of age, sometimes calls him-eff a Persian, somet mes a hussian, sometimes a Christian, and at others a Mussulman.

During the past four months he has occupied a hole in an old walt, balt of which has falten with decay, in one of the most frequented streets of Treb zond, where he sold in the open air, old iron which he collected | rom fevery quarter of the town. He commenced his outch-eries in browl day, at ei, by o'clock in the morning, armed with a knite sharpened ou two edges the plate of which was about six or seven inches in length. Having 'astened the knife to his hand with a cord, keeping the blade beneath his arm, thus prepared he commenced walking slowly up the street he inhabits, seizing his opportunity to stab every one whom he found within his reach, and quist'y concealed his weapon after each murderous blow, let tris surprised victims totally unconscious of the hand that deals their death wound, and unable to denounce the assass'n.

No all ision is make to the action of the police during this time; is lact, they did not appear on the scene until after an end was made to the bloody work of the maimum or fanatic by a baker, who succeeded in telling the assassin to the earth by a well directed blow from a heavy stick of wood, when he was immediately seized. disarmed, and handed over to the authorities, several poncemen having prompily appeared as soon as the danger was past. He was taken bafore the Governor, where after an examination by two physicians, no evidence whatever of insanity was olscovered. At er hav ng auswered the questions relating to his name and place of the manarc, who calls himself Hadgi, birth would give no further tuf-semation. On showing him the dagger with which he had committed such hav c, he pretended not to recognize Bud his only response to all questions was "Bu-mem" (I don't know). The excitement and horror created among the sit re population of Trebizond was so great that the Governor was obliged to hasten the execution, and after a summary trust the colprit was taken into the public square, and beneaded in the presence of the whole population of the city.

A BUFFALO TRAGEDY.

A Drupken Woman Murders and Muti-lates as Oil Lady of Sixty. From the Buffaio Express of Saturday.

A murder of a most shocking character, occurred in this city yestelday attern ion. An old woman, sixty years of age, who was known by the name of Bridget Ba cman or McDermod, and who resided on the Patch (below Genesee street, near the gas house) with a woman called Nelhe Shehan, became engaged in an altercation with Kate Johnson, a woman of abandoned character, about 2 o'clock yesterday af ernoon, and was immediately killed by blows from an axe in the hands of the said Kate Johnson. Bridget was horribly mutilated, having received four cuts in the head and under the ear, which severed the carotid artery and jugular vein. She was also cut under the chin and in the shoulder, and her necs was found to be broken. The woman Johnsou is an anbitually intemperate character, and was intoxicated at the time the murder *a- committed. She preteods that some provocation was given by the fact of Br dget's having thrown sand and gravel in her eyes, but being much in oxicate i when arrested, information could be gathered from ber. She was arr sted soon after committing the by Officers Wagner and Dix, and Coroner Walsh being notified, the inquest will be held to-day. A murder of a nore shocking and diabol cal character than this bas rarely come before the notice of the public.
