HAS THE SUMMER ENFERBLED YOU?-Nine out o every ten to whom this question is addressed, if they answer it candidly, will answer it to the affirmative Some may reply to it from a sick bed; others, of a stronger constitution and greater powers of endurance, may only experience a slight insultude as the consequence of the torrid season. But some portion of the vitality of human beings cones out of them under the pressure of great and continuous heat, and the sooner the loss is completely repaired, the less susceptible will the system be to the unbealthy follow ence of the Fall malaria The most gental and who esome tonic that has ever

It is an invigorant and alterative with out any of the drawbacks which attach to mere stimulants, and is the only preparation of the kind which a conscientious physician would feel inclined to prescribe for ladies in delicate health.
