Explosion of a Train of Cars Contain-ing Nitro-Glycerine — Terrific Shock and Atmospheric Vibration.

Special Despatch to The Evening Telegraph URBANA, Ohio, Sept. 30. -Yesterday morning our citizens were startled by a sharp report, as of an explosion of cannon, which appeared to be right in our midst, shaking and awaying the instant every one was astir to see, if possible, the cause of this tremendous report. They ran to the railroad yards, supposing it to be an

Finding nothing in the city, they came to the conclusion it must have been the explosion of the engine of the Atlantic and Great Western train, No. 6, which had only been gone some fitteen minutes. Hundreds took the track, and went some seven miles east, when the flames of

burning cars met their eyes.

It was ascertained that the car next to the engine had explode! with a terride report, compleicly demolishing the engine and four cars, setting fire to the train, and soon consumed nearly the whole of it. Ten cars were barned to ashes; they were loaded with flour and pork. The car next to the engine which exploded was loaded with pork, and the supposition is that nitro-glycerine was in some way smuggled into it, which caused the explosion, and the serious injury of the engineer, Harry Whipple. The report was tremendous: had the whole train been loaded with powder it could not have been o loud. An iron rail was thrown three hundred, yards from the track, and was bent double by the force. A bouse a quarter of a mile from the wreck was almost demolished, and the vibration came with such force that timbers flew in every direction, and telegraph wires were thrown down for about 600 yards. A gentle-man from Marysville says the shock received there seemed as though it was within a le v feet them. It was also heard five miles beyond Marysville, thirty miles from the wreck. No one but the engineer was seriously hurt. The fireman was slightly hurt, and was blown over

The city has been unduly excited to-day by the riotous proceedings of a small political company last night, who were intoxicated and committed outrages. The Police Commissioners are to investigate the affair this evening. Moderate men of both parties are anxious for the preservation of order, but partisan feeling and bitterness run high, and disturbances are liable to occur at any time.
