I have not had the pleasure of seeing either my brother Justice Agness or Judge Williams at the court rooms. por even yourself, since I have been on the bench, either last month, when I presided several times, nor this month; and what power you had to examine witnesses not being com petent to form or hold a Court, as you say, co not know. If there be error, which is not admitted, in the particular you complain of to wit: want of proper examination of witnesses. Judge Hare.

The following card, signed by members of both political parties, commends itself to the earnest attention of thoughtful citizens. The loss of such a man as Judge Hare would not only be sincerely felt by the profession which thus bears testimony to his merit, but would be a grave public misfortune. His profound learning, his vigorous intellect, spotless character, and his long experience eminently quality him for the post he has filled with such dis-tinction to himself and such advantage to the community, and we do not permit ourselves to doubt that he will be triumphantly re-elected.

To the Electors of the City of Philadelphia—It will be your duty, on the 13th instant, to elect a President Judge of the District Court for the city and county of Philadelphia. The Honorable J. I. Clark Hare, who has been on that Bench for nearly twenty years, is a candidate for re-election.

The principle seems now to be established in Philadelphia that the judiciary must be lifted above mere party politics, and that when pure and capable Judges have acquired respect and experi-ence by long services they shall not be subject to the ordinary chances of an election. In 1861 Judge Sharswood was nominated by both parties and the District Court remained unchanged. The best men of both parties united in 1867 to re-elect Judge Ludiow, who had been ten years in office. Judge Hare, whose judicial services have continued

for nearly twenty years, will receive, we are satisfied, a similar support. A frequent change of Judges is a public mis-fortune. When those who have by years of dis-cipline and labor reached a habit of judicial interourse which tends to harmonize views and facili tate administration are lost to us, and new and un-trained men take thoir places, evils and embarrass-ments arise which only those in our position can fully understand. We trust that such a result may

Taily understand. We trust that such a result may not be reached in the District Court. The undersigned, members of the Philadelphia Bar, unite in testifying to the eminent purity and ability of Judge Hare, and to his long and tried ervices on the Bench, and in asking earnestly that the principle so fully established in the cases jus referred to shall not be forgotten at the comin-election. Party conventions may insist upon presenting rival candidates, but conservative citiz both sides will support tried and faithfu udges

The Chief Justice Responds to Judge Read's Protest.

Chief Justice Thompson has written the following letter, in response to the protest made by Judge Read in regard to naturalization m by Judge Read in regard to naturalization in the Supreme Court, published by us yesterday: PhiLADELPHIA, Oct. 7, 1868.—Hon. John M. Read—Dear Sni:—Your letter dated this day has been received by me, but the business of the Court (Nisi Prius) has prevented my consider-ing its contents as fully as I may hereafter do. if I find it to be part of my official daty to do so. There are some things, however, which it disclose yeary distinction on which supprise one discloses very distinctly, and which surprise me much.

The first of these is that, without consultation with me, the official organ of the Court, you should of your own motion have convoked for consultation Mr. Justice Agnew and Judge Wit liams in regard to the business of the Supreme Court, and that there should have been a consultation held in relation to its business with-out any notice to either Justice Sharswood or out any notice to either Justice Sharawood or myself, or any opportunity given for either to be present. I think it might have struck you that, if the meeting of Judges composing the Supreme Court was to be of any consequence, or to have any significance whatever, we should have had the opportunity, at least, of being present. If any change of the practice in granting naturali-zation papers from what has been stanctioned by your own practice, as fully as that of any by your own practice, as fully as that of any other of the Judges, was contemplated, we should have had the benefit of your views on the point, and an opportunity to express ours, if we desired to do so. It seems to me thus

would have been both reasonable and proper. I am more surprised, however, at the expres-I am more surprised, however, at the expres-sion of an extra-judicial opinion by yourself, and which you say was also expressed by Justice Agnew and Judge Willisms, not yet a Judge of the Supreme Court, in regard to what might pethaps become the subject of judicial action in the Court hereaster. I think you will hardly differ with me in the opinion, that any pre-indement conversed must discussion a prejudgment expressed must di-qualify a Judge expressing it from sitting at the hearing of any expressing opinions that they were not fully apprised of the facts of the case of which they undertake to speak. This, let me suggest, would be a good reason for refraining from expressing extra-judicial opinions; but it expressed, it would not avail to qualify the Judge to act, if a case should happen to come before him in due and legal form, involving the same question. This remark is general, but you cannot doubt its applicability, I think, to what is said by you about the practice observed in naturalizations at Nis: Prius.

You request me to read your letter in open court. I cannot do this. It is in no way con-bected with anything before me, either as matter of testimony or matter of law. Besides, I must decline publishing any extra-judicial opinions of any of my brethren, especially so as Mr. Justice Agnew is absent, although your letter gives me to understand that he is of the same opinion with yourself, and that he will repeat that opinion at any time hereafter. Nor can I think of committing Judge Williams to the pledge you make, that he will repeat the opin on you express as soon as, or whenever, he shall be sworn as a Judge of the Supreme Court, namely:-That the proceedings of the Court of Nisi Prius in naturalizing aliens are void, although you do not pretend that the Court was not legally constituted and legally acting. Excuse me for entertaining the belief that there is some mistake about this advance opinion of Judge Williams -as well as that of Judge Agnew-on so prave a subject as that to which you refer; but if I should be mistaken, they must themselves give them to the public; they cannot come rhrough me. If there indeed were any grounds of complaint that applicants for naturalization the pledge you make, that he will repeat the
