#### MUSICAL AND DRAMATIC.

## What Entertainments Pay Best.

THE managers and the critics are unfortu. nately not always in accordance as to the sivie of entertainments which should be set before the public. The critics preach high art doctrines, while the managers, looking at the matter more from a business than an art point of view, are solicitous about the condition of their treasuries. As a matter of public interest in connection with this subject, we have prepared the following statement of the amounts received at the Academy of Music and the city theatres during the past season, from May 1. 1867, to April 30, 1868, thus covering an entire year. We have not considered concerts, minstrel performances, and other miscellaneous entertainments, but merely give the regular round of operatic and dramatic amusements. In preparing this statement it is not our intention to moralize on the questions of art or good taste, but we leave our readers to draw their own conclusions from the facts. The amounts we give are the gross receipts, or what was actually paid by the public: o' course the expenses varied, and the actual profits of tha managers can only be guessed at. .We give first the performances at the Academy of Music, In May, 1867, Mrs. F. As this is the case, it is perhaps but meet and proper that some formal ceremonies of welcome should be extended him after his long absence. In pursuance of this idea, the design has been to render the demonstration as devoid as pos-sible of any political bias, but the evident fact that, with some few exceptions, the houses of the Democracy alone are docorated, and clubs of Democratic persuasion alone are to compose the procession, proves what might have been of Democratic persuasion alone are to compose the procession, proves what might have been known before, that it is impossible to disso-clate a man and his opinions. Such is the fact. There is no entimisarm at all among the loyal Republican portion of the people, and south to say, there is but very little among the Democrats themselves.
