#### FROM EUROPE BY CABLE

LONDON, Oct 12 .- Mr. Gladstone commenced the political canvass in Lancashire with an able speech at Worrington, in which he denounced the Tories for their bad financial policy and for their course in the Irish Church question.

The Times of this morning has an editorial on the attitude of the parties in the United States in regard to the national debt. It says, admitting that both the Republican and Democratic parties contain large factions who urge the payment of the principal of the debt in paper, the American statesmen, in the present vagueness of the law and in craving necessity for economy, may conscientiously hold that view. But the Times argues that, should this policy be carried into practice, the credit of the country would be so deeply injured that, for all future loans the United States would be obliged to pay a higher rate of interest than six per cent., so that they would lose in the end, and thus their economical objects would be defeated.

London, Oct. 13 .- A meeting was held here today for the relief of the sufferers by the terrible earthquake in Peru and Ecuador. Lord Mayo presided. Among the prominent persons who took an interest and part in the proceedings were the Governor of the Bank of England, the Rothschilds and Barings. Nearly 7000 pounds sterling were

MADRID, Oct. 13 .- The Provisional Junta has issued another circular, urging the extinction of all religious corporations. Internal taxes on home or foreign wares have been abolished.

PARIS, Oct. 13 .- The Gaulois has the following Spanish news: Girgenti is at Paris. General Prim has written to the Emperor Napoleon, stating that the Provisional Junta desires close relations with France. They prefer a ruler who will be acceptable to France and to Europe. The provinces of Barcelona and Valencia, being strongly protectionist, hesitate to recognize the Junta.

HAVANA, Oct. 13 .- Advices from Porto Rico to the 2d instant state that an official proclamation announces the insurrections at Lares and Pepino to be insignificant revolts. Private accounts, however, report them as extensive, and that an outbreak among the native soldiers is feared by the authorities. HAVANA, Oct. 13 .- General Lersundi has not pro-

claimed for the Provisional government, but will maintain order and law. He says he is a loyal Spaniard, and only retains and governs the island as a portion of the Spanish Provinces irrespective of parties governing the mother country. He claims to protect the lives and property of the citizens, and will impede any demonstration of any faction and preserve the peace. A small party assembled at Manzanillo, and another at Bayomo. They consisted mainly of persons of evil repute, and their purpose was unknown. Fifty soldiers were sent in pursuit and dispersed them, capturing their horses and arms. The official organ at the capitol says the public

works will be pushed forward, especially the completion of railroads from the capitol to Toluca, and from Tlalplan to Cueanavaca. A bill has been introduced to the national Congress providing for jury trials, public education and general reform.

Lersundi sent more troops to that re-gion as a precautionary measure, a force sufficient to suppress any insurrection. To-day everything is quiet, and no further troubles are apprehended. The city of Havana and all the island are entirely tranquil. The people respect and obey Lersundi, and are all awaiting events in Spain. Lersundi has issued an address to the people and troops, exhort-ing them to remain tranquil. It is an able docu-ment and is well received.

NEW ORLEANS, Oct. 13.—The Honse Committee of investigation on the conduct of registration reported yesterday that a number of registration offices had been closed by order of the President of the State Board, in consequence of judicial decisions conflicting with the instructions issued by him. The committee censure the State Board for their action in the matter, stating that the Board had no right to issue such rules of instructions to the local Board, but must be guarded by judicial decisions governed by orders from the courts. The committee are of the opinion that a majority of the Board, consisting of Chairman Baker and one member, have exceeded their powers, and recommend the repeal of portions of the registration laws and recall of the rules and instructions issued by order of the Board. Registration offices have all been reopened, and the registration is very full. Political.

Thanksgiving Day Proclamation. By the President of the United States A PROCLAMATION.

A PROCLAMATION.

In the year which is new drawing to its end the art, the skill and the labor of the people of the United States have been employed with greater diligence and vigor and on broader fields than ever before, and the fruits of the earth have been gathered into the granary and the storehouse in marvellous abundance; our highways have been lengthened, and new and prolific regions have been occupied. We are permitted to hope that the long protracted political and sectional dissensions are at no distant day to give place to returning harmony and fraternal affection throughout the republic. Many foreign States have entered into liberal agreements with us, while nations which are far off, and which heretofore have been unsocial and exclusive, have become our friends. The annual period of rest which we have reached in health and tranquillity, and which is crowned with se many blessings, is by universal consent a convenient and suitable one for cultivating personal plety and practising public devotion.

I therefore recommend that Thursday, the 26th day of November next, be set apart and observed by all the people of the United States as a day of

day of November next, be set apart and observed by all the people of the United States as a day of public praise, thanksgiving and prayer to the Almighty Creator and Divine Ruler of the uni-verse, by whose ever watchful, merciful and gra-cious providence alone States and nations, no less than families and individual men, do live and have

their being.
In witness whereof I have hereunto set my hand and caused the seal of the United States to be

Done at the city of Washington this 12th day of October, in the year of our Lord 1868 and of the In-dependence of the United States the ninety-third. By the President. Andrew Johnson. WM. H. SEWARD, Secretary of State.

### EARTHWORKS.

To the Editor of The Evening Telegraph:-In reference to your recent article on Kingake's History of the Crimean War, as you promise to return to the subject, may I beg to remark that it was my nephew, Major Nasmyth, who originated that system of earth defences subsequently carried by Todleben to such perjection at Sebastopol? A youth of one-andtwenty, and on sick furlough in England from an Indian regiment of engineers, he had, in company with a brother officer-the Hon. Mr. Butler, son of an Irish peer-gone out to Silistria as correspondent for the Times (London) journal. To interfere with military operations was no part of his duty, but it occurred to him that the place was capable of defence, and, making the suggestion to his comrade, they made such arrangements that the town was held out against an army of forty thousand Russians for forty days, when the Allied troops of France and England came up and relieved it; the works battered down in the day being regularly restored in the night, so that the enemy was daily foiled in his design to carry it by storm next morning. Lieutenant Butler was killed at an early part of the siege, and my nephew sustained so many wounds in the course of it that the remainder of his life was a life of agony. The Sultan offered him the highest rank in the Turkish service it be chose to change his religion, and, on his declining, got him appointed major in the British acmy, by special request to the Queen of England. The English Govern ment, however, could find no better employment for his engineering abilities than by nominating him inspector of some Irish constrbulary, until a necessity arose for for lifying the city of Sydney, in Australia, whither he proceeded, and would have accomplished his task but for the opposition he encountered from the parsimony of the natives and Sir John Young, the Governor the barnacle who has lately been fastened upon the Government of Canada, as well as a coutemptible aristocratic imbecile named Lord John Taylor, whose enmity to him was aroused by the circumstance that he had obtained his rank by services on the field of battle. His subaltern position, of course, prevented Nasmith from challenging Young, and Taylor, who by toadying had acquired the rank of aid-decamp to Sir John, was too base for his notice. Both of these personages are thus reserved for

the curse of the new Dominion of Canada, I where, unless arrested by the Fenians, they will probably raise a fresh rebellion. My nephew meanwhile "slumbers well," having, in the beautiful language of Kinglake, who has mournfully alluded to him in the early part of his first volume, "quitted us so soon, without, seemingly, being aware that he had accomplished anything great,"

I have the honor to be, sir, your obedient servant, D. WEMYSS JOESON, Author of "History of the Prench Bevolution,"

RAILROAD CO.

UNION PACIFIC

850 Miles Completed.

A limited amount of the First Mortgage Bondsof the Union Pacific Railroad Company are offered to the public, as one of the safest and most profitable in-

1. They are a first mortgage upon the lengest and most important railroad in the country. 2. By law they can be issued to the Company only as the road is completed, so that they always repre

sent a real value. s. Their smount is limited by act of Congress to Fitty Million Dollars on the entire Pacific line, or an

average of less than \$50,000 per mile. 4. Hon, E. D. Morgan, of the United States Senate and Hon. Oakes Ames, of the United States House o Representatives, are the trustees for the bondholders' to see that all their interests are protected.

President of the United States, are responsible to the country for the management of its affairs 6. Three United Etates Commissioners must certify that the road is well built and equipped, and in al respects a first-class rallway, before any bonds can be

5. Five Government Directors, appointed by the

7. The United States Government lends the Company its own bonds to the same amount that the Company issues, for which it takes a second mortgage

8. As additional aid, it makes an absolute donation of 12,800 acres of land to the mile, lying upon each side of the road. 9. The Bords pay SIX PER CENT. IN GOLD, and

the principal is also payable in gold,
10. The earnings from the local or way business were over FOUR MILLION DOLLARS last year, which, after paying operating expenses, was much more than sufficient to pay the interest. These earnings will be vastly increased on the completion of the entire line in 186%.

11. No political action can reduce the [rate of interest. It must remain for thirty years, six per cent. per annum in gold, now equal to between eight and nine per cent, in currency. The principal is then payable in gold. If a bond, with such guarantees, were issued by the Government, its market price would not be less than from twenty to twenty-five per cent. pre-mlum. As these bonds are issued under Government authority and supervision, upon what is very largely a Government work, they must ultimately approach Government prices. No other corporate bonds are

made so secure.

12. The issue will soon be exhausted. The sales have sometimes been half a million a day, and nearly twenty millions have already been sold. About ten millions more may be offered. It is not improbable that at some time not far distant, all the remainder of the bonds the Company can issue will be taken by some combination of capitalists and withdrawn from the market, except at a large advance. The long time, the high gold interest, and the perfect security, must make these bonds very valuable for export.

All the predictions which the officers of the Com-

pany have made in relation to the progress and business su ccess of their enterprise, or the value and advance in the price of their securities, have been more than confirmed, and they therefore suggest that par ti es who desire to in vest in their bonds will And it to their advantage to do so at once.
