THE INDIAN WAR.

Colonel Wynkoop's Letter to the Indian Commission.

During the recent session of the Indian Peace Commission in Chicago, Colonel Wynkoop, who has been commanding on the Plains, sent in the

Colonel S. F. Tappan; -Dear Sir-I am in recoionel S. F. Tappan:—Dear Sir—I am in re-ceipt of your communication of Sanday, and regret that it is impossible for me to furnish you with the details which you require, for the reason that I have not my letter book with me. My opinion is, in regard to the present Indian war, that the same could have been prevented had the Government continued to keep up the supply of subsistence that had been furnished to them during the spring and early summer. They had gradually got weaned from their old habits to that extent that they depended upon the provisions which I issued to them, and, consequently, it was not necessary for them to scatter out in little bands all over the country for the purjose of finding game, thereby run-ning risks of coming in confact with white men, and also being subjected to temptations when hungry; but soon after the supplies were stopped.

Had I been allowed to issue the arms and aumunition to them at the fine promised, they still would have been contented, from the fact of their having the means to procure game. But the failure of the Government to fulfil its promises in the latter respect naturally incenses some of the wilder spirits among them, and consequently the outrages committed upon the Saine. Immediately upon hearing of the said outrages, I, anxious to have the guilty punished. and by that means save those of the different tribes who did not deserve punishment, saw two of the chiefs of the Cheyennes—viz., 'Medicine Arrows' and "Little 'Rock"—and demanded that they deliver up the perpetrators of the aforementioned outraces, which they promised positively should be done, but before anticipant time had classed for them to fail. sufficient time had clapsed for them to fulfil their promises, the troops were in the field and the Indians in flight. The Ktowa and Camanche Indians, up to the present, have been at peace. but I have no doubt they will soon join the Cheyennes, and thus create a general Indian war. My reasons for believing that the Kiowas and Camanches will, this late in the season, engage in this struggle, is that I do not see how they can possibly do otherwise. In consequence of their having been restricted some months since to assemble on the Arkansas for the purpose of waiting to see their agent and for months in a state of destitution, and no agent or goods had made their appearance up to the latter part of last month. They are then told, without seeing their agent or receiving their goods, to leave and go South immediately to travel right through the country where there are troops in pursuit of hostile Indians, and with whom it would be impessible to tell a Kiowa from a Cheyenne. The consequence will be that all the tribes of the Upper Arkansas will before long be engaged in hostilities.

SIR JOHN FRANKLIN.

Another Clue to the Mystery of His Fate. Another clue to the mystery enveloping the fare of Sir John Franklin and his fellowvoyagers amid the icebound regions of the Arctic Zone seems to have been discovered. By the recent arrival from the polar regions of Dr. Goold of Dublin, late and interesting intelligence is afforded respecting the search now prosecuted by Captun Hail for traces or remains of the Erebus and Terror and their crews. In August, 1867, Captain Hall was at Repulse Bay, preparing an expedition to King William's Land, where, from information obtained from the Esquimaux, it seems beyond doubt that important records and some relics of the Franklin expedition are still pre-erved. The point to be reached was 450 miles north of Repulse Bay, and in a country the inhabitants of which were known to be hostile to Europeans and to the Esquinaux living at Repulse Bay. It was the opinion of the latter, who are known as King Albaria followers. Albert's followers, that Franklin's men had been killed by King William's mee. According to native information, the last six survivors of the party built a cavern or rude vault of stones, and leposited in it some documents and such articles as they had no use for, or would be an incumbrance to them in their journey southward. It is Dr. Hall's object to reach this depository, and from his well-known reputation for intrepidity, energy, and endutance, it may be presumed that no dangers or hardships will deter him from his purpose. It will doubt-less cause a thrili of mingled surprise and sorrow to learn that after all that has been done to recover the Franklin expedition, two of its members survived to as recent a period as 1864. These were Captain Crozier and a steward of one of the lost vessels, who died near Southampton Island while endeavoring to make their way to that place, in the belief that they would there find a whaling vessel which would carry them home. Dr. Hall is confident of the identity of Captain Crozler with one of the men so described to have perished, and has in his possession several articles that belouged to him. The fate of these two unfortunate men who, after eighteen years' wandering through the Arctic wastes, had so nearly reached a place within reach of civilized man, forms one of the saddest chapters in the melancholy and mysterious story of the lost expedition.—N. Y. Sun.

POLITICAL.

-The Bichmond Enquirer says:-"We are in receipt of numerous letters from all sections of the State, making inquiries and suggestions in regard to the vote of Virginia in the Presidential election. The tenor of all these letters is decidedly in favor of giving the people an oppor-tunity to cast the vote of the State, and leaving the question of having it counted to be deter-

mined hereafter."

—The Madison (Ga.) Auditor says Senator Hill is improved in health. While in Washington Mr. Hill received the most marked attention from the first men of the nation. Loyal Senators and Congressmen have an abiding confidence in his fidelity to the Union, and predict that he will take his seal without the slightest semblance of opposition.

—The Jonesboro (East Tennessee) Fing says:

"Ku-Klux Klans in 'these parts' went down like a streak of greased lightning, under the hydrau-lic pressure of the Tennessee Legi-lature. Whenever they show their hydra-heads the officers of the law nab them."

- The Lansing (Mich.) Republican says:-"We bave the most cheering news from every por-tion of the State. The work goes bravely on. We predict thirty thousand majority for Grant."

— General Blair declines to address the Democracy of South Carolina, as the canvass in the Western States will require his presence there.

COAL IS GOING UP!-This, of all things, is the least gratifying to our citizens. It is the unalterable des tiny of coal to advance in price when wintry weather gets in. This fact is of itself sufficient to warn our reader: to avoid the tria's of such an event by storing their coal-bins and cellars now. In this case the affluent are not alarmed; but when it comes to the poorer classes, who have a limited sum with which to purchase their winter's stock of fuel, the question Where to get it?" assumes great importance and gravity. All trouble may be avoided by going to William W. Alter's Coal Yard, No. 957 N. Ninth street, where the best coal for the least money can always be had. So popular is he that two cierks are busy almost day and night in filling the orders made

upon him for his best of coal. FOR SALE, a private collection of Oil Paintings, Engravings, Paintings on Glass, Brenzes, Alabasters, etc. To be seen for a few days at No. 4001 Pine street, West Philadelphia, from 9 to 11 A. M.

THE CONDITION OF THOUSANDS,-No appetite; no refreshing sleep; no cheerful thoughts; no disposition to labor; no inclination for society; no interest in anything; no desire to live, even; and yet no specific atlment which can be classed as a positive disease, Thousands, ay, tens of thousands, are in this condition-the martyrs of disabilities to which pathology

assigns no technical name. What is the source of their discomfort, mental and bodily? Tonron or THE Stomach, and, consequent upon that, languor of the circulation, weakness of the nerves and a clouded brain. What does common sense suggest as a remedy for this deficiency in vital power? Clearly, a RE-VITALIZING MEDICINE-something that will stimulate, tone, and sustain the broken-down energies of nature. HOSTETTER'S STOMACH BITTERS meet the case exactly. In this beneficent Toxic are combined all the ingredients necessary to change the condition of the system, and bring the dormant organs into healthful action. In the fall of the year, when the night-dews are chill and heavy, and the moraing togs are charged with missma, the body, debilitated by the heats of summer, is peculiarly susceptible to unwholesome influences. At this season, of all others, therefore, invigoration is required, both as a safeguard against fever and ague and other malarious disorders, and as a preparation for the searchlog cold of winter. Dyspepsia, bilious complaints, nervous disorders, and distressing affections of the bowels are always more or less prevalest in October and November, and the surest and safest means of averting them is a course of this purest, mildest, and most efficacious of all tonics and alteratives. WHAT IS MORE COMMON OR DISTRIBSING THAN

A BILIOUS ATTACK ?- Who is not familiar with the well-known symptoms, oppression across the stomuch and chest, low spirits, restlessness, gloominess of mind, weariness, duil headache, dirty, greasy ap pearance of the skin, yellow tinge of the white of the eyer, loss of appetite, and costiveness? Few, indeed, of the more ordinary ills of life are more widely prevalent than these billous disorders, and yet they may readily be got rid of by using Dr. Jayne's Sanative Fills, by whose operation the liver will be rapidly restored to healthy action, the vitiated secretions of the stomach changed, all costiveness removed, and the whole system assisted in recovering its normal condition. Sold by all druggists.

OUR CHILDREN at this season of the year are often troubled with Worms, the result of eating unripe fult and a weak eigestion, which seriously affect their health. Holloway's Vermifuge Confections, au sgreeable remedy, will expel the worms and restore the digestive functions to perfect health. Sold at 25
