NEW YORKISMS.

From Our Own Correspondent.

NEW YORK, Oct. 16, 1868. Thanks to judges and justice, the fight be. tween Wormald and O'Baldwin has not come off, and these giants of the prize-ring have had an opportunity of losing muscle in station houses, and of testing their powers of endurance in other ways than by blows and knocks. Whatever differences exist between these men are not, or at least ought not, to be of public interest, though I must say Wormal I's appear ance in court yesterday was the occasion of a sort of silent ovation being rendered to him, such as only he and his kind know how to

enjoy. The great success which Fanny Janauschek has met with here is in part due to her being a Jewess, and, therefore, upheld by the Jewish public. Bogumil Dawison's success here was partly due to the same reason. The German actor Heradricks, who is at present p aying at the Stadt Theatre, is not a Jew, and his audiences are smaller than those of Dawison's were or than Fanny Janauschek's are. That lady most emphatically has her hands fall. I should not be surprised to hear that she supervised the wording of even her advertisements. The same simplicity pervades them that characterizes all her appoundements. She seems to have come to this country indomitable, by the very cousciousness of her own genius. She has not depended upon any of the tricks whereby cautious managers are wont to woo success Her triumphs, as I said before, are partly du to the fact of her being a Jewess, and upheld by Jewish patrons. But the great secret of he triumph is her absolute indefatigability. "Katharine of, Russia," a role which she has been play ing for the last few nights, gives a broader and more comprehensive view of her varied power than any other she has yet assumed. If I say so much about public amusements, it is because they are this season engrossing a more enthusiastic amount of patronage than ever before. Even sober-minded plodders rush into them at night with as much relish and abandon as they apply to their respective businesses during the daytime. For instance, on Wednesday night, upon Tostee's rentree at Pike's Opera House, she could not have had a more superb ovation had she been M'me Schneider herself. Such shouts and bravos, such a general uprising and waving of handkerchiefs. are seldom accorded to any singer, much less to so small a one as Tostee. But it is the wickednesses of the actress rather than the voice of the singer that the people applaud. As the "Duchess," Rose Bell continues to be something of a failure. It is no doubt very wrong for people not to prefer the chaste dignity of the diva at the French Theatre to the witching wiles of the Pike's Opera House divinity. Mr. Grau appears to have had some trouble among his prime donne already, if the ominous change in his public announcements is

Hall. An earthquake fund for the relief of the sufferers by the recent South American earthquakes has been attempted here. Subscription lists for the purpose are open at the offices of all the principal bankers, although so far it appears that the charity of the classes who are usually looked to fill subscription lists is, as Sheridan would say, of that domestic sort which never stirs abroad.

withdrawn, in order to produce that of Des-

clauzas, has been superseded by the announce-

ment that the latter lady's debut will occur next

week in Genevieve de Brabant. The farther

prime donne are apart the better for all hands;

vide Foster in New York and Irma in St. Louis.

Miss Kellogg's ovations are to come off Monday,

Wednesday, and Friday evenings next week. A

little girl named Henrietta Markstein is to debut

as a pianist some time next month at Steinway

During the hottest month of summer, when public amusements were dull, the Broadway pedestrian might possibly have noticed a placard in the vicinity of the Museum of Anatomy, bearing the announcement that one of the most wonderful phenomena of nature, viz, a live headless rooster, was on exhibition, and to be seen for the sum of twenty-five cents. How numerous was the audience which was in the habit of assembling I am not prepared to state but it doubtless seemed to Heary Richardson, the headless-rooster proprietor, the means of faring plentifully if not sumptuously; and the number of roosters he sacrificed to this most cruel and disgusting business has not been an item of great expense as they averaged an existence of over a month. The beast's mode of manufacturing a headless rooster was as fellows:-To cut off the bill, to pierce out the eyes, and to remove a portiou of the brain, and, finally, to cut open the skin of the neck and hide the head within it. For a humber of months this wretch has been subsisting on this business of cruelty. He has at length been arrested, though not, I believe, at the instigation of Mr. Bergh, and committed in default of bail. The thoughtless throngs who paid their twenty-five cents, and enjoyed the spectacle of "nature's latest phenomenon in the animal kingdom," are only less culpable than the despicable and wretched criminal.

. The number of arrests made in this district during any one quarter does not give the most flattering idea of the morality and peaceableness of New York. For instance, during the quarter ending with July 31, nearly 28,000 arrests were made, of which one-fourth were females and one-third were citizens of the United States. Of offenders against property there were 3500: against person and the public peace, 2400. The amount of property restored to owners through the instrumentality of the police is estimated at a little over \$230,600. Nothing is known in regard to the amount of money conveyed into the pockets of the police through the same instrumentality. The total police force of the district is nearly 2700, independent of the score of cierks, etc., employed at headquarters. ALI BABA.

Musical Notes.

-Miss Kellogg will make her first appearance since her return from Europe in New York on next Monday evening. In addition to the concert performance the whole of the third act of Faust will be given, and Miss Kellogg will appear as "Marguerite," the character in which she made her most decided hit in Loudon. Miss Kellogg will be supported by Miss Alide Topp, Madame de Gebele, Lotti, Susini, and Petrelli. Mr. Carl Bergmann will be the leader.

-Maretzek will begin a short season of Italian Opera in St. Louis on the 19th instant.

-Adelina Patti is to receive \$1000 in gold for ten performances in Hamburg.

-There has been a trial of excellence of hand organs in Brussels recently, and prizes were distributed. What next?

-Mad'lle Nilsson has been singing with much success at Wiesbaden. Special trains, royal visitors, serenades, and crowns of chiselled gold, we are told, 'were all constituents of her tri-

Dramatic Notes.

-Midsummer Night's Dream has been brought out in fine style at McVickar's Theatre, Chicago, and the papers of that city speak of Mr. Mc-Vickar's personation of "Bottom" in high terms of praise. Miss Fanny Stockton has also made a hit as "Titania."

-Edwin Booth is performing Richelieu in Boston this week, and the Bostonians are delighted, as they always are with Booth's performances.

-The Charleston (S. C.) Theatre opened on last Monday evening. Little Barefoot was performed, with Miss Alice Vane and Mr. John Templeton in the leading characters.

-Miss Kate Reignolds is performing with much success in the principal towns of England.

-On Monday evening last Mr. Edwin Forcest commenced an engagement at Niblo's Garden, New York, and appeared as "King Lear," The part of "Cordelia" was taken by Miss Lillie, Madame Ponisi appeared as "Goneril," and Miss Annie Deland as "Regan." The last-named lady is an old favorite in New York, having occupied a leading position for over two years at Laura Keene's Theatre. She made her first appearance on Monday at Niblo's, after an to go for anything. The explanation given a absence of eight years, and was warmly welfew days ago that Rosa Bell's Duchess was to be comed.

-At Wallack's Theatre, New York. Masks and Faces is now on the boards. Mr. Fisher's "Triplet" is said to be very fine. -Mrs. Kemble commenced a series of readings

in Chicago on Monday evening. -Mr. Edwin Adams commenced an engage-

ment in Washington on Monday evening. -Kansas City is delighted with Ten Nights in a Bar-room. A back woods critic praises all the actors without stint, and, in speaking of the personation of the "Drunkard," says, "It was natural, full of the idiosyncracies of liquor and the joyousness of its stimulant." He probably speaks from experience.

A SERIOUS CATASTROPHE.-Just as we predicted, a startling casualty occurred at the coal yard. No. 957 N. Ninth street. One of the clerks in the office was rung up this morning at 3% o'clock. Opening the office door, he was immediately prostrated by a huge bundle of coal orders that had just arrived. Sitting down, he labored diligently to assort them until this afternoon at 114 P. M., when he was attacked by brain fever. An ante-morten examination made by the whole corps of University Professor revealed three coalorders tightly wedged into the medullary masses which compose the cerebellum. These being removed, he will recover. Alter is doing a huge business in selling the best of coal at the cheapest rates.

THE CONDITION OF THOUSANDS,-No appetite; no refreshing sleep: no cheerful thoughts; no disposition to labor; no inclination for society; no interest in anything; no desire to live, even; and yet no specific ailment which can be classed as a positive disease. Thousands, av. tens of thousands, are in this condition-the martyrs of disabilities to which pathology assigns no technical name.

What is the source of their discomfort, mental and bodily? Torror of the Stomach, and, consequent upon that, languor of the circulation, weakness of the nerves and a clouded brain. What does common sense suggest as a remedy for this deficiency in vital power? Clearly, a BE-VITALIZING MEDICINE-something that will stimulate, tone, and sustain the broken-down energies of nature. HOSTETTER'S STOMACH BITTERS meet the case exactly. In this beneficant Tonic are combined all the ingredients necessary to change the condition of the system, and bring the dormant organs into healthful action. In the fall of the year, when the night-dews are chill and heavy, and the morring logs are charged with miasma, the body. debilitated by the heats of summer, is peculiarly susceptible to unwholesome influences. At this season, of all others, therefore, invigoration is required, both as a safeguard against fever and ague and other malarious disorders, and as a preparation for the searching cold of winter. Dyspepsia, billious complaints, nervous disorders, and distressing affections of the bowels are always more or less prevalent in October and November, and the surest and safest means of averting them is a course of this purest, mildest, and most efficacious of all tonics and alteratives.

FINE PRENCH CALF BOOTS AND GAITERS.-The man who has never experienced the pleasure of wearing a pair of boots made by William H. Heiweg, is to some extent an object of commiseration. We speak knowingly, having worn Helweg's boots for years. Their comfort, however, is not their only recommendation, as they are made of the best material and in the very best manner. Helweg will not employ an incompetent workman; therefore his work is always first-class. His store and factory is at No. 535 Arch Street, next to the corner of Sixth. OVER EXHIBTION,-All feel the necessity, at times

of something to tone up the system, wasted and de-pressed by over mental or physical exertion. Instead of resorting to alcoholis or medicated atimulants, uso Spring "Standard Wine Bitters," the base of which is his pure Wines; they are superseding all others now offered to the public. Try them, and you will be convinced of what we say. Sold by druggists.

JEWELRY.-Mr. William W. Cassidy, No. 12 South Second street, has the largest and most attractive assortment of fine jewelry and sliverware in the city. Purchasers can rely upon obtaining a real, pure article furnished at a price which cannot be equalled He also has a large stock of American watches in all varieties and at all prices. A visit to his store is sure to result in pleasure and profit.

1. Ti ey are a first mortgage upon the longest and most important railroad in the country.

2. By law they can be issued to the Company only as the read is completed, so that they always represent a real value. 8. Their amount is limited by act of Congress to Fifty Mislion Dollars on the entire Pacific line, or an

average of less than \$30,000 per mile. 4, Hon, E. D. Morgan, of the United States Senate and Hon. Oakes Ames, of the United States House of Representatives, are the trustees for the bondholdess to see that all their interests are protected.

5. Five Government Directors, appointed by the President of the United States, are responsible to the country for the management of its affairs 6, Three United States Commissioners must certify that the road is well built and equipped, and in ale

were over FORE MILLION DOLLARS last year, which after paying operating expenses, was much more than sufficient to pay the interest. These earnings will be vastly increased on the completion of the entire line in 1869. 11. No political action can reduce the [rate of interest. It must remain for thirty years, and por cent. per annum in gold, now equal to between eight and nine

per cent, in currency. The principal is then payable

in gold. If a bond, with such guarantees, were issued by the Government, its market price would not be less than from twenty to twenty-five per cent. premium. As these tonds are issued under Government authority and supervision, upon what is very largely a Government work, they must ultimately approach Government prices. No other corporate bonds are made so secure.

12. The issue will soon be exhaulted. The sales have sometimes been half a million a day, and nearly twenty millions have already been sold. About ten millions more may be offered. It is not improbable

that at some time not far distant, all the remainder

of the bonds the Company can issue will be taken by

some combination of capitalists and withdrawn from

the market, except at a large advance. The long time, the high gold interest, and the perfect security, must make these bonds very valuable for export. All the predictions which the officers of the Company have made in relation to the progress and boat ness au ccess of their enterprise, or the value and advance in the price of their securities, have been more than confirmed, and they therefore suggest that par ti es who desire to in vest in their bonds will find it to

The price for the present is 102 and accrued interest at six per cent. in currency, from July 1. Subscriptions will be received in Philadelphia by DE HAVEN & BROTHER.
