THE DAILY EVENING TELEGRAPH-PHILADELPHIA, MONDAY, OCTOBER 19, 1868.

FROM EUROPE BY CABLE.

MADRID, Oct. 17 .- Aguerro has been made President of the Supreme Court.

MADRID, Oct. 17 .- General Dulce, who was appointed Captain General of Cubit by the Spanish authorities, has declined on account of ill health. MADRID, Oct. 17 .- The coinage system of Spain will be radically changed, so as to conform to that of France.

Ros D'Olana, Count of Almena, has been appointed Captain General of Cuba. Serrano and Topeti have arrived at Saragossa,

where they had a triumphal entry, the wildest enthusiasm being manifested.

MADRID, Oct. 18 .- General Prim has received the title of Marshal of Spain, and General Dulce has been made Duke of Madrid. A deputation of Cubans have arrived here and held a consultation with the Central Junta, and agreed to the gradual abolition of slavery. The republicans have commenced agitation in Barcelona. They protest against the acts of Prim and Serrano. The latter has gone to Saragossa, and there made a speech promising that the Provisional Junta at Madrid would resign on the meeting of the constituent Cortes.

He expressed regret that Olozaga and Rivero were not in the Cabinet. The government needed the aid of one of these eminent statesmen in the work of reorganizing the State on a liberal basis.

DRESDEN, Oct. 17 .- Further turnalts occurred here yesterday among the commissioners, but they were promptly suppressed. LONDON, Oct. 17 .- The government of Spain has

appointed Rios Rosas Minister to England. "I manchester Chamber of Commerce will give

a banquet to Lord Salisbury on the 27th. Reverdy

Johnson will be a guest. LONDON, Oct. 17.-Dispatches received here today from Rathkele, Ireland, state that Inspector Murphy, while attempting to capture O'Brien, the Fenian prisoner who escaped a few days ago, was fired at by concealed parties and slightly wounded.

LONDON, Oct. 18 .- The rumors of a large reduction of the French army, confidence in the maintenance of peace, and the expectations of a declaration in favor of liberal reforms by the Emperor, animated Paris, and have had a cheerful influence upon affairs in England.

The Parliamentary canvass throughout Great Britain is becoming very lively. Several Tory members of the last House have withdrawn their names as candidates, and retired discouraged. The Liberals are confident of a majority of thirty-five or more on a full vote in the next House. Mr. Roebuck's hostility to trades' unions injures his chances in Sheffield. Mr. Gladstone is actively canvassing South Lancashire, where he daily addresses large and enthusiastic meetings.

The succession to the Spanish throne remains undetermined. The choice of Prince Alfred, of England, which has been suggested, is regarded as absurd and impossible, because he is a Protestant. The name of Ferdinand, ex-King of Portugal, is mentioned with favor; though an ultramontane in religion, he is regarded as politically a liberal, is popular in Spain, and would be unobjectionable to Napoleon.

LONDON, Oct. 18 .- A dispatch from the east reports that the magazine in a Turkish troop ship at Smyrna exploded, instantly killing seven men and fatally injuring seventy others.

LIVERPOOL, Oct. 18 .- Cyrus W. Field was a passenger on the steamship China, which sailed yesterday for New York.

PARIS, Oct. 17 .--- The "Gaulors" newspaper has a story to-day of an attempt to shoot General Prim at Madrid. The attempt was unsuccessful and the assassin was immediately arrested, but was afterwards released by Prim himself.

PARIS, Oct. 18 .- The Emperor and Empress are at St. Cloud.

From New York.

UTICA, Oct. 18.-A conference took place yester-day between Governor Seymour and certain mem-bers of the National Democratic Executive Combers of the National Democrate Packacarty measures to be adopted in the present canvass. During the con-ference Governor Seymour alluded to the sugges-tions made in some quarters as to a change in the Presidential ticket, and said that any change Presidential ticket, and said that any change which should be made must include his withdrawal; that he was nominated against his wishes, and it would be a relief to him if any other name were substituted for his own. The committee replied that no change had been The committee replied that no charge had been contemplated by any of them, and that in their judgment nothing would be so injurious to the Democratic cause as a change of candidates, and they refused to entertain the question. New York, Oct. 18.—The Train Congressional Committee have sent cable dispatches to George Francis Train, at Dublin, advising him of his no-mination for Congress from the Fifth District of this city, and arging him to pay all claims against him under protest, and fight them outside, and that returning to this country at once would insure his election. The committee to-day received a dispatch from Dublin, stating that the money has been refused, and that his imprisonment is purely political, under pretence of debt; and should his friends see fit to place him in Congress, it would not only greatly in-cllitate the recovery of his own freedom, but would insure the immediate liberation of all our Irish-American citizens who are still lying in British

FROM WASHINGTON.

WASHINGTON, Oct. IL-Nothing has been received at the State Department confirmatory of the cable dispatch that a basis of agreement on the Alabama claims has been reached, though it is not deemed improbable by the authorities here.

The dispatch gave no indication as to the disposition of the points in dispute between the two governments; but should it prove correct, it must be a concession on the part of Lord Stanley, as Minister Johr son has not been empowered to recede from the position hitherto held by our government.

Tront. The many representations made in various news-papers that President Johnson would be a candi-date for the Presidency in case of Mr. Seymour's withdrawal are without foundation. There is the best authority for saying that President Johnson has neither approved the proposition to withdraw Seymour's name nor intimated a wish to be nomi-nated, or a willingness to accept such a nomina-tion, but, on the contrary, bus looked upon the pro-position for a change of candidates as injudicious and ill-timed. and ill-timed.

Reciprocity.

So many contradictory statements have appeared regarding the position of the question of trade with the provinces of British North America, a settlement of the fisheries dispute and the free naviga-tion of the river St. Lawrence, that it was consi-dered proper to obtain correct information on the

subject, and the matter stands thus: Mr. Thornton, the British Minister here, ad-dressed a note to Mr. Seward in July last, calling attention to the distressed condition of the people of Nova Scotia in consequence of their exclusion from our markets, consequent upon the termina-tion of the reciprocity treaty, and asking him to

ion of the reciprocity treaty, and asking him to enter hito negotiations. Mr. Seward referred Mr. Thornton's communica-tion to Mr. McCulloch, Secretary of the Treasury, who replied that the treaty having been abrogated by the legislative branch of the government, he considered it would not be advisable to resume ne-gotiations until Congress should give some intima-tion of its desire that they should be reopened, and tion of its desire that they should be reopened, and at the same time expressing his opinion that it was for the interest of the United States that the ques-tion of trade with the British provinces should be adjusted in some definite manner. This correspond-ence was sent by Mr. Seward to the Committee of Ways and Means just before the July adjournment. In reply to an inquiry by members of the Commit-tee of Ways and Means, Mr. Seward informed them he was ready to one negotiations for a new

them he was ready to open negotiations for a new reciprocity treaty whenever the committee should refer the subject to him.

Messrs. Hoopert to him. Messrs. Hooper, Allison, Logan, Maynard, Brooks and Niblack, of the committee, agreed to make such a report, and Mr. Schenek was willing it should be made. Mr. Griswold was absont. An adjourment, however, took place so early that there was no opportunity of putting a report before the Home, and homes the matter wont over until the House, and hence the matter went over until the assembling of Congress, with the knowledge that the Committee of Ways and Means are nearly unanimous upon the subject, and that Mr. Seward will open negotiations as soon as the committee are

enabled to report. In the Senate the subject has also been referred In the Schate the subject mashes been referred to the Committee on Foreign Relations, and it is known that Chairman Summer is strongly in favor of negotiations. Mr. Summer has frequently stated that he reported in favor of abrogating the old re-ciprocity treaty, not because he desired a cessation of trade with the British Provinces, but because he did not consider the treaty as sufficiently compreof thate with the briss rovinces, but because he did not consider the treaty as sufficiently compre-hensive or beneficial to the United States, and that he believed the proper course was to abrogate that treaty instead of attempting to patch it up, and then to negotiate a new treaty of a comprehensive character which should include manufactures, and be made in the interest of this country, and not as the former treaty with a political chieft the former treaty, with a political object.

CITY INTELLIGENCE.

FOR ADDITIONAL LOCAL ITEMS SER OUTSIDE PAGES.

REV. W. MORLEY PUNSHON. - Yesterday morning, the Spring Garden M. E. Church was morning, the Spring Garden M. E. Church was crowded on the occasion of a sermon by the Rev. W. Morley Punshon, the éminent English divine. He selected as a text the passage of Scripture-St. Matthew v. 16:-"Let your light so shine before men, that they may see your good works, and giorily your Father which is in heaven." Somewhat condensed, the sermon was as

follows:-

In the last verse of the 4th chapter you read thu: -- "And there follo sed him great multi-tudes of people from Gailee, and from Decapolis, and from Jerusalem, and from Judea, and from beyond Jordan;" and in the first verse of the 5th chapter you read:--"And seeing the multi-

tudes, he went up into a mountain." Starting thus, Mr. Punshen made some gene-ral remarks about the manner in which the people flocked to hear the Saviour; about His own Divine tea hings; about the fewness and unskilluliness of the "laborers;" about the fetbleness and ignorance of the first disciples; about the "heir-hip" of the Saints, and the glorious kingdom awaiting them "in the fullness of time."

He then alluded to the "Sermon on the Mount," in which the words of the text are contained; enumerated the "beatitudes" there pronounced by Jesus, and quoted the words of the Holy Writ, directing them to his Christian hearers:-"Ye are the salt of the earth," "Ye are the light of the world," Believers are promired every felicity, their corrupt natures purified, they are kept secure in the hand of God, and Heaven is reserved for them in the future.

With this exordium the speaker passed on. "Let your light so shine." etc. The ultimate pur-pose of the Christian life is to glorify God. This is the plain declaration of Scripture. To this end we must let our "light shine." Why? That the world may glorify us and give us honor? No! That it may glorify our Father which is in Heaven. This purpose commends itself to every propriety of moral life, to every sanction of enlightened reason. God, as the father of His creatures under which endergring mere all His creatures, under which endearing name all His attributes are included, claims, and claims justly, the highest homage. It is true that by this homage we add not to His glory or His power; but He is the author of our life and happiness, and as such our homage is His just due. Christian intelligence recognizes this— recognizes it as a duty, and accords it as a pleasure. An obedient life will do all the glory of God. All the heart's praise of such a one will be to his glery. It is just this which constitutes the main difference between the man who is born and the man who is born again-the one acts for himself, the other aims, in all that he does, at the glory of God. And if you will con-sider for a moment you will discover that an essential to this glorifying of God is that He should be seen. God is always glorided wherever God is seen. Hence the heavens are said to declare the glory of God-He is seen, and therefore glorified in the ends of creation. He is seen in the sun, in the stars, and in the eventsting hills, and glorified. He is seen in the conditions of human affairs-in revolution always issuing in re-construction-in the social compact, in family joys, in the regularity and bencheence of law. He is seen as the ruler of all these, and glory must be given to His name. And so in the work of redemption. Every instance of conversion wrought by Hisspirit, every reclamation of the hardened adult or the innocent child, makes Him visible. Is it not, then, meet that our first duty should be the glory of God? Every question of casuistry is to be settled with referquestion of casulary is to be settled with refer-ence to this alone. Every matter of earthly concernment is to be judged in the light which streams from His throne. Our duty, then, a solitary finger beckons us, that we should obey God and give Him glory, and that without a moment's inlicing. When templation or error area is and the structure is bet with and assails and the struggle is hot, still exclaim, "How can I do this great wickedness and sin against God?" And in the ordinary matters of life, in common things, in which it may be presumed there is no great templation to depart from rectitude, still do all to the glory of God. This is the primary purpose of the Christian life.

Subordinate to this is the second purpose:-

When approaching Cat Island, twenty-five miles below, near the Arkansas shore, Captain Ford was ordered to run his tog alongside the little steamer Hesper, which was tied up and taking on wood. This was no sconer accomplished than the party suddenly sprang aboard the Hesper. Little or nothing was said to the boarders, who evidently had an eye to business, and placed the crew under surveiliance and commenced the work on hand. The gun boxes were broken open and the guns taken out and thrown into the river, and many of the guns were broken before being thrown over.

of the gans were broken before being thrown over. A large quantity of ammunition in the hold marked "sundries" was also thrown overboard, and the "sundries" was also this we overboard, and the party quietly returned to the tag, leaving the Hes-per in the possession of her crew. Gaptain Houston and his brother made for the woods as soon as the Nettic was seen. At midnight the tag reached Point President Island, below the city, and was run aground and the raiders taken on shore in a shift which they signalled. Strict orders were given to Captain Ford to remain below until daylight, and the tag returned here this morning.

Now, then, how shall these be best accom plished? Let us, for a few moments, carry out the analogy of light. There was a time when it was not; when this world was formless. All was chaos, and datkness brooded over the face of the deep. Light was the first born of creation. lod said, "Let there be light; and there was God made two great lights-the greater ight." light to shine by day, and the lesser light to sbine by night. But it is the same light wherever you find it; whether it glitters on the wing of the hre-fly or parkles in the ruby; whether it flashes from the diamond turned out of a pebble by the lapidary's wheel. It is always the same. It belongs not to the things from which it glitters, but comes from another source. So with the Chris tian. His light is not his own, but comes down from the Father of lights, with whom there is no variableness, neither shadow of turning. Every perfect gift cometh down from Him, and therefore let us always bear in mind that as we let our light shine before men, all its lustre breaks down from on high. There is no pride in light. It shines equally as brilliant in the poor house of the peasant as in the place of the prince. It is essential to man, and like a willing servant, is silent and active in its mission. It is universal, too: it visits and illumi-nates every portion of the earth.

Making an application of these analogies, saying that a true Christian light was without pride, all embracing, cuaritable, self-evid-noing and joyous, the reverend speaker brought his sermon to a close.

FATAL RESULT OF A SHOOTING .--- Washington

Hamilton, who was shot on election day, at the polls on Third street, below Christian, by Policeman Robert Swain, died carly yesterday morning. The policeman was arrested on a warrant issued by Alderman Devit, and was committed to await the result of the Coroner's inquest. The allegation at the time of the occurrence was that Hamilton had been flour shing a pistol, and being advised to put it away, did so: that soon after he had a trouble with one of the bystanders and was approached by the policeman, where upon he again drew his pistol. At this point the polic-man drew his pistol and discharged it. The Coroner will bold an inquest on the body to-day.
