 Tus eleotlon recently held in Philladelphia
reasiled in the defeat, in the offlotal oount, of
all the oandidates of the Republiosi party all the oandidates of the Repabliosn party
with the exoeption of the President Jadge of Uhe Distriot Court. The universasal feeling dis.
played in favor of these gentlemen contesting played in favor of these gentlemen oontesting
the seats of their competitors makes it cortatin the seats of their competitors makees it eertsta
that suah a contest will take placee. Wether
the oontest will be sucoessfal or not depends parily on the evidenoe whith will be adduood
and largely on the oharaoter of the connsel
employed. If politioians who employed. If politioians who know nothing
about law and are of doubtful party fidelity
have the management exclusively, sncceess is a great way off. Bat there can be little or no
doubt that a contest will take placs. Fow
people, outaside of the Bar, kiow exacotly how
suoh eleotions are contested, what time is fants now of pablic finterest. We will brietly
statat the etanding of each oflioer.
In the first place, there fact was gained by Mr. Greenbask by a majority
of 125 votes over Judge Thayer. If the lattor
would contest he must do so before a committee of the Legislatare of the State, and he has ten days allowed him after the meeting of the
Legisistare in January to present his coa-
testant papers. Thay mast be signed by fifty
qualififed voters and sworn to by five voters, and a certififate from the County Treasurer,
Prothonotary, or Commissioner mast go with
the affidavit, deolaring that the parties swear-
ing are bona fide residents and duly qualifidd The papers are then referred to a joint com.
mittee, to bo chosen as follows: - The Senate and House, in joint convention, draw from a
box, under cortain cironmastancess stated in
full in the gtatute twelve Sanatora and twentyfuir in the statute, twelve Sonators and twenty-
five members of the Houne of Representatives.
These names are given to the contestant and the sitting offiegr, and they strike off alter-
nate names until there remain four Senators and nine members of the Honse, which oom-
mitteo of thirteen are morn, harr the evidence, In the oase of members of Congress, among
whom we believe Messrs. Myers and Taylor the Rlootion Committee of the Honsee, and that the report.
The remaining offices over which there will
be a contest can be divided into county oflives and munioipal offices.
The county offlers elected this year inolude cat one aotual county offioer and one pseudo
county offioer. The Prothonotary of the Court
of Common Pleas is in every respect a county officort, and the statute makes the Distriet $\Delta t$
torney stand in regard to a contest in the same attitude. Both of these offioers mast prepare
and file their contestant papers, with spooitco
tions, in the Court of Common Pleas, within
. thons, in the Court of common Pelitis, withing
ten disys after the election. A petition of thirty
oitions must accompany these speoifioations, mant be supported by the afflisisits of
two qualifed voters. The Court has

What is Dyspepsia?

| 1. A Constant Pain or Uneasiness in the permanent contraction of the stomach apon undigested food. It generally begins immediately, or a short time after esting; is often very severe and obstinate. <br> 2. Flatulence and Acidity.-These symptoms arise from the indigeation of food, which ferments instend of digesting. <br> 3. Costiveness and Loss of AppetiterThese aymptoms are the effeots of the annatural condition of food in the stomach, and the want of pure biie and gastrio juice. The atomaoh is often painfally diatended by wind; the appetite is sometimes voracions. <br> 4. Gloom and Depression of Spirits.This atate unfits many for the enjoyment of life, and is onused by the impure blood far- nished by imperfoot digestion. of the disaaze, many persons oommit suioide. There is a constant foreboding of evil, and an indifferenoe and positive inability to pertorm the offices of lite. <br> 5. Diarrhea.-After being at first oostive, the sufferer is afllioted with diarrhen, whioh is owing to a disasased condition of the bowela, prodnced by the undigested food, whioh is evacuated in the same oondition as when eaten, and, of course, gives no atrength to the system. <br> 6. Pains in All Parts of the System arise from the aotion of impure blood upon the nerves. They are felt ohiefly in the head, sides, and breast, and in the extremities. In many oasee there is an unensiness in the throst, with a sense of ohoking or suffocation: the mouth is offen olammy, with a bad taste and furred tongue. <br> 7. Consumptive Symptoms and Palpitation of the Heart, Many persons pronounoed as having these diseases have, in faot, nothing but dyspepail, the lung and heart disease being only symptoms. |

| ruth in these revorta, <br> Recently, our attention betag oalled to two ery aggravated cases of poisoning by wearing namelled Paper Collark, wo determined to mploy an expert Chemist, and have soveral yles of goods now offored in this markot nalyzed. <br> The result of the analysts made by Prof. willams, late of the Polytechnio College, $\mathbf{w H _ { 1 }}$ found below, and the Collar referred to, at "Sample No. 1," was Enamelled and Linon inished, with a glossy appearance. <br> A) the same time we invited Prof. Wiluisma o visil our Faciory, and sent to his Laboratory amples of all the articles used in our Oloth Elite," and other styles of Linen Finished Collars, as well as the Collars themselves, ana is report on them will be found below. As all the enamels are prepared and put on in ur own establishment, we had no donbt of helr belng harmiess; but belleved our customProf, Whilama' report after caretul analysis. <br> REPORT OF PROF. WLLLIAMS <br> Chimioal lahoratory, No. sols Cheazut treet, Philadelphia, Sopt. 19, 1888, -Gentto-men:- The Paper Collars whion you sent ma, marked "No. 1, " contaln Carbonate of Lead or White Lead as one of the coustituents of thetr glaze or finish. I regard this substanoe as exertwith the skin, and when acted apon by the Haulds exuding from the surface of the sking The aotion of this aubstance is too generally known to require any further certifoate from known to require any farther eertinoato from ne. I have, at your request, exhiblted the presence of lead in these Collars by submitting hem to the action of Sulphydrio Aold Gat sulphuretted Hydrogen), whilh, as you will percetve, bas blackened them. A quanutative chemical analysis shows that eaoh collar con- tains a fraction one-tenth less than one grain of Carbonate of Lead. The amount seems small but the continued aotion of even this on the surface of the skin must result injurlousty Very respectrally yours, |  |
