The Presbyterian N. S. Synod—Yesterday Afternoon's Session,

FROM READING.

From Our Own Correspondent. READING, Oct. 21.-Synod reassembled, and

had the usual opening religious services. The report of the Committee on Seaman's Friend Society was made. Rev. D. H. Emer-son, Agent, made an address, in which some most interesting facts were developed. It appears that there are three million men who are engaged as sailors from the different nations of the earth. The good work of relinations of the earth. The good work of reli-gion is prospering among them wherever any effort is made for their salvation. An instance wasgiven in which a revival broke out on a ship which left New York, and before it reached Africa every sailor on board was converted to God. The cause was commended by vote of Synod to all the churches.

God. The cause was commended by vote of Synod to all the churches. Narratives of the state of religion in the seve-ral Presbyteries were read, and were deeply in-teresting. The first one was from the District of Columbia, representing the churches to be in a prosperous condition, but regretting the want of greater benevolence in the churches. The Third Presbytery of Philadelphia made no report of statistics, but the narrative showed a gratifying state of things in the churches. The attendance upon the stated services has largely increased. The laity, in many cases, are showing great activity in discovering new agencies for working for Jesus. Growing indications of the spirit of consecra-tion and benevolence are evident. The Sunday schools are increasing in interest and power. The year has been one of spiritual prosperity.

schools are increasing in interest and power. The year has been one of spiritual prosperity. The refort of the Fourth Presbytery of Phila-delphia was read by Rev. Mr. Ford, of Norristown. Several special seasons of revival have been reported during the year. The growth of Sabbath schools is very gratifying, and is full of promise for the future. Nearly all the churches report some increase in numbers and benevolent contri-butions.

butions. It is a matter worthy of inquiry, however, whether the members are doing as much for God and humanity as in former years the members of the Church did.

members of the Church did. The Presbytery of Wilmington reported, and the narrative was read by Rev. Mr. Emerson, No great and stirring events have been re-ported, but there has been a steady growth in the churches. Some of the congregations are making more ample provision for their pastors and the comfort of their families, and manifest-ing greater herevolence. There are four more ing greater benevolence. There are four vacant churches in the Presbytery, but they may soon be filled.

be filled. The Presbytery of Harrisburg made its report through Rev. A. D. Moore. All the indications of the churches are favorable, and all the pul-pits are filled except one. Increased liberality is evidently the marked feature of this Pres-buters.

The Synodical Prayer Meeting was then held for one hour, under the direction of Rev. Mr. Shaw, of Wilmington. It was a season of very special interest, on account of the indications of

the Divine Presence. In the evening the session of the Synod was occupied by the celebration of the Lord's Sup-per. Many of the Christians of this city participated in the holy service.

We take pleasure in informing the public that we have at great expense secured the professional services of Dr. William F. In view of these facts, we most cordially recommend him to the former patrons and friends of the late Dr. Wishart, and to the afflicted, with the full assurance that those who need professional counsel or aid will find in the said Dr. Magee physician of more than ordinary abilities.
