MUSICAL AND DRAMATIC.

The City Amusements.

AT THE WALNUT Mr. E. L. Davenbort will appear this evening in the new sensation drams of F; or, Branded. The nautical drams of The Pilot, adapted from J. Fenning re Cooper's novel. is ancounced, and will shortly be produced. AT TAR ABOH Lotta will give her last kick in Philadelphia-for the present at least-this even ning. Fire-fly will be performed.

ning. Fire-fly will be performed. On Monday the new drams entitled He's Gre Money will be produced with new scenery. On Monday Nov. 9th. H. J. Beron's drama of The Langashire Lass will be brought out.

We understand that Colonel Fitzger ald's new five-act drama of Workes at Boy still be produced shortly. This play discusses the labor question, but only incidentally, and its romantic stiractions are said to be great.

AT THE CHESNUT the Worrell Sisters will appear this evening in the Euclish version of La Bele Heiene, entitled Paris and Heens; or the Greeian E openen'. The performance will conclude with the farce of Good for Nothing, in which Mits Jennie Worrelt will appear "Nan" and will execute a clog dance. The new drama by H. J. Byron, entitled The Lancashire Lass will be produced on Monday, November

AT THE AMERICAN there will be an attractive variety entertainment this evening.

CARL SENTZ' and Mark Hassler's combined orchestras and the New York Philbarmonic Society will perform Mendelssohn's "Reforma-Symphony at Horticultural Hall this afternoon

THE GERMANIA CRCHESTRA will give their first classical matinee, at Mosical Fand Hall to-day

TOOTH PULLING-SENSATION WITHOUT & SENSA-TION .- Yesterday af ernoon, after wrestling with a severe tooth-ache thirty-six hours, we read in the "Democrat" that at the rooms of the Dental Associa tion teeth were extracted without pain. We hav, extracted teeth from apples, dough-nuts, short-cakes, and such things without either pain or paying, but felt a little dubious about trying this new style as advertised; but at last the minery got the better of our fears and we forthwith started for room No 19 Cooper Institute, city of New York Found a very nice place. very nice gentleman; sat down in big chair; leaned our head gentry back; good-looking man examined the destructive works in our cranium; young lady planed a towel about our neck, and did it just as nice

then we took a likile tube attached to a long pipe which led somewhere; gave a few tucks on the afore-said tube, and while we were trying to think of two things at the same time, one of which things seemed to go to the right and the other to the left, we heard a rumbiling, as of a train of cars in the distance p ay-ing the "anvit chorus," with all the distance p may-ing the "anvit chorus," with all the distance p may-ing the "anvit chorus," with all the distance p may-ing the "anvit chorus," with all the distance p may-ing the "anvit chorus," with all the distance p may-ing the "anvit chorus," with all the distance p may-ing the "anvit chorus," with all the distance p may-ing the "anvit chorus," with all the distance p may-ing the "anvit to by the hand of the young lady on our face, and a gentle voice awking in maintive whispers, "How uo you feel." Where upon. following the example of the husky bors of the large cities and simple of the busky bors of the large cities and simple of the busky bors of the store-said doingst when he was zoing to pull "those are teeth, "whereupon he smithed and said, "When they come it sgain." and that is all we knew about it. Sure enough, the two grambiling memors of our molar congress had been successing impeached and removed, and all in the space of half a minute; and we knew tothing of it, and a minute for them inken out. Then we rose from the chair, lisioned to switzerland by Dr. Colton, whe explained to us the beauties of the same. Another gradiennes as down in the chair, and in one mit ue by the watch had eight teets removed from his acoing face, without feeling any pain, or e periodice any unplea-sant feeling of some allow is selicity, this is one of the gradest inventions of the age. There seems to be so is hing fare the age. There seems to be so is hing a firthle about baying teeth extracted, and neople submit to all sorts of horrors while beth are acoing rather than part with them. But his Association for the apperthen we took a little tube atlached to a long pipe baying teeth extracted, and people shamit to all sorts of Forrors while tests are aching, rather than part with them. But his Association certainly does extract teeth without pain or serious inconve-niencer, by means of gas, made and used for the pur-pose, which renders D e person operated upon insen-sible, without leaving behind the deleterious effects of chieroform. After the operation-which con-sumed less time than to read this article-we affixed our name to a register whereou upwards of thirty thousand people had testiled to the same as we now testify here, that the Colion Dentai Associa-tion do for a certain of ready that is thout giving pain to the person. We should not be at all sar-prised some day to learn of rendous children visiting these rooms to have their teeth pailed out for fun,--"The Democrat."

CHEOMO-LITHOGRAFHS, -- Any means that will make art popular, that will serve to educate the rublic taste, and that will furnish really good works FARIES & WARNER. of art for the embellishment of homes at such low prices as whilplace them within the reach of every body, rich and poor ought to be halled with marked satisfaction by all lovers of art, and all who believe in the refining and elevating influence of the beautiful and the good. The modern art of chromo-lishog raphy supplies a desideration that Las long been needed, and the perfection that has been reached in the best works of this class is as astonishing as it is gratifying-While a Chromo will never equal a first-rate originalany person of taste in art will much prefer a good chromo copy, which will give the style, color, and spirit of an approved picture, to an indifferent original painting.

Pitcher, No. fo8 Chesnut streat, has an infinite variety of Chromos, from the simplest to the most elaborate subjects, and at all prices. Among the latest additions to his extensive slock are a couple of companion pieces, one representing the arrival of Bendrick Hudson in New York Bay in 1609, in the Sucht "Half Moon," and the other entitled "The Receding Race," representing the Indiana departing before the march of civiliza ion. "American Spring Flowers" make the s bj cl of two very pretty and attractive Obromos, which would ornament any parfor is the land. A few dollars judiciously expended on such works as these will coofer more real grati fication than they would in almost any other way.

BUY THE GROVER & BAKER.-Weare glad to find that the home necessiry of having a sewing machine in every family is being more and more acknowledged. The business in this branch of trade was never more active than at the present time, at least If we may lidge from what we witness da ly at the rooms of the Grover & Baker Company, No. 720 Cnesnut street. We are pleased also to find that the ma chines of this Company are receiving the general and particular preference which they richly desarva. In the whole range of mechanical inventions there is no instrument in existence which mosts as aplendidly and satisfactorily the claims made for it by its inventors and proprietors as the Grover & Baker sewing machine The specimens of its work manship, the magnificent testimonials, and the remarkable case with which these machines are operated, all combine to render them preferab e to all others.

LATE foreign advices mention the fact-"To the American Button Hole Overseaming and Sawing Machine was awarded the gold medal over all compe titers, at the recent Havre International Exposition." We understand that this truly marvellous machine has also taken the first premium at all the State and county fairs in this country the present season wherever it has been entered for competition. There ports from these fairs are still coming in, and after they are all over we will publish a list of premiums that will astonish all parties interested. The machine is for sale at the S. W. corner of Eleventh and Cheanut streets,
