THE GREAT MEDICAL MISTARE OF former days was an utter neglect of sanitary precautions. No efficient means were adopted for the prevention of sickness. Bewerage was unknown in office; drainage was rarely attempted in the country. Heaps of offal were left to rot in the public streets, and d mest'o cleantiness, the great anticote to febrile diseases, was sadiy neglected. It is not so now. Wise taws, philasthropic institutions, and a vigilant sanitary police bave, to a areat extent, remedied the evil. Nor is this all. Pag VENTIVE MEDICATION has helped materially to leasen the rates of mortality. It is not too much to say that TENS OF THOUSANIS escape sick ness to unbealthy seasons in consequence of having isyto b RATED THRIE SYSTEMS IN ADVANCE by a course of HOSTETTER'S STOMACH BITTERS. This pure and cowerful vegetable tould and alterative comprises the extracts and essences of a variety of roots and herbs, recowned for their atrengthening, soothing vitalizing, and purifying properties. These medicina agents are incorporated with a split absolute y free from the acrid po son which defiles more or less, all the liquors of commerce, and their effect is diffused through the whole frame by this active yet harm less stimulant. The result is such a condition of the sys tem as renders it all but impersions to the exterio couses of disease, such as damp, fog, sudden alterna tions of temperature, etc. Strength, and the perfect regularity of all the functions of the body, are the best suf guards aga pay atm sph ric person and the ficts of unwholes me water and Hosterma's BITTERS are the best strengthentog and regulating medicine at present known. A limited amount of the First Mortgage Bruds of the Union Pacific Ratiroad Company are offered to the public, as one of the talest and mitst proff. able in-

1. To ey are a first morigage upon the longest and most important rallroso in the country. 2. By law they can be based to the Company only

as the read is completed, so that they always repre sent a real value. 3. Their smount is limited by act of Congress to Firty Million Lollars on the entire Pacific line, or an average of has than \$30,000 ter mile.

4, Hon, E. D. Morgan, of the United States Senate and Hen. Oakes Ames, of the Uni ed States House of Representatives are tre trustees for the opnonoiders, to are that all their interests are protected.

5 Five Government Director, appointed by the President eithe United States, are responsible to the

country for the managen ent of he adults. 6 . Three United t tates Commissioners must certify that the road is well built and equipped, and lual respects a bret-class rallway, before any bouds can be issued upon it.

7. The United States Government lends the Company its own bonds to the same amount that the Company seuce, for which is takes a second mo.tgag : as security. 8. As additional aid, it makes an absolute donation

of 12 800 acres of land to the mile, lying upon each side

of the road. 9. The Bords ray SIX PER CENT. IN GOLD, and the principal is also payable in gold, 10. The earnings from the local or way business were over FOUR MILLIUN DOLLARS last year, which, after paying operating expenses, was much more than sufficient to pay the interest. These

earnings will be vastly increased on the completion of the entire line in 1889. 11. No political action can reduce the rate of interest. It must remain for thirty years and per cent per onnum in pold, now equal to between eight and nine per cent. In currency. The principal is then payable in gold. If a bont, with such guarantees, were issued by the Government, its market price would not be less than from twenty to twenty-five per cent. premium. As these touds are lasted under Government authority and supervision, upon what is very largely

a Government work, they must ultimately approach Government prices. No other corporate bonds are made so secure. 12. The issue will soon be exhausted. The sales have sometimes been half a n. Hillon a day, and nearly twenty millions have already been sold. About ten millions more may be offer d. It is not improbable that at some time not far distant all the remainder of the bonds the Company can issue will by taken by some con bination or capitalists and withdrawn rom the market, except at a 'sign advance. The long time, the high gold interest, and the perfect security.

must make these bonds very valuable for export. All ti e predictions which the officers of this Company have n ade in relation to the progress and basi ness su ccces of their enterprise, or the value and ad vance in the price of their securities, have been more than confirmed, and they therefore suggest that par ties who desire to in vest in their bonds will find it to

heir advantage to do so at once. The price for the present is 62 and accord interest at six per cent, from July 1 1888, in currency. Subscriptions will be received in Philadelphia by
