The title of the lecture will be "The Wickedness, Romance, and Rascality of New York." Those who have read Mr. Djer's articles on the Water street dance-houses and other subjects of like character need not be reminded of the fact that he has both the experience and ability to treat such a subject as he appropries for his lecture in a striking and effective manner. For jourisem years Mr. Dyer has been engaged in investigating the haunts of vice and misery and the abodes of poverty in New York, and we are confident that his address this evening will be one that our citizens will listen to with profit. Mr. Dyer will endervor to suggest some remedies for the evils which afflict our great cities, and his views will be entitled to respectful consideration. The New York Money Market.

From the Herald.

"Business in Wall street opened yesterday mersing under the influence of that sober second thought which was wanting on Saturday, and prices for Government securities, gold and railway shares, showed a decline of about one per c. nt. from those current at the close on Saturday; but subsequently the Treasury ring went to wo k again and fresh semi-official stock-jobbing reports were received from Washington, Mr. McCulioch apparently lending his influence in behalf of a Wall strest clique to create the impression that the currency will be influence in behalf of a Wall strest clique to create the impression that the currency will be influence in behalf of a Wall strest clique to permit him to restore a dollar of currency to cir collation that has hitherto neen withdrawn from it. Such a scandalous abuse of official position to aid speculative oberations has never before been known, and after the many other evidences of Mr. McCulioch's complicity with stock-jobbers that we have had, it is high time that the President suspended him, and ordered an investigation to the affairs of his department. It is stated, notwithstanding official contradictions, that the Transary sold eight millions of Five-twenties secretly early in the present mouth in order to embarrant the money market and depress Government securities seed other stocks, for the purpose of enabling the Treasury ring to huy oneaply, and as late as Friday hat the Associated Press was made the vehicle for a semi-official despatich from Washington of a discouraging character, to the effectinatels Secretary had no reserve which he could use for a 'y purpose whetever excepting the Small remaining sum of a third of a militon. But on Saturday moraing beheld the change! The currency resources of tou Treasury were sundenly magnified to an extent which took Wall street by surprise, a d damaged those who had sent letters of inquiry upon the subject to Mr. McCulloch a few days previously, and neen informed by him in reply that h ingt the banks were to blame for the stringency, and so the Tressury, they having extended their loans on speculative stocks so far as to be mastle to afford any relief to the money market. But the purpose of the Tressury ring was served, and they, doubless with Mr. McCollech, chuckled secretly over their tringph. It is needless, however, to say that such conduct as this is a fraud upon the public and a gross national scandal. It is reported that Mr. McColloch has instructed Mr. Van Dyck to reissue ten millions of the three percent. Certificates recently redeemed; but this is a atretch of authority wi hout warrant under the law. Nevertheless, if we admit to be justinable as a mere expedient, we fail to see how it can relieve the money market if relief is necessary, because these certificates can only be used by the banks, and the banks, in order to obtain them, will have to buy them with currency or its equivalent."

"It has become apparent that an elasticity lin the active currency of the country must be provided for in one way or another. Place \$25,000,000 of currency (sreenbacks) in the hands of the Sub-Treasurer in this city, with orders to loss it on Government bonds and stocks at 7 per cent, and on call, taking the bonds as security at 80 or 85. General Grant Again Declines a Demonstration-Judge Kelley has an Interview.

FROM WASHINGTON.

Special Despatch to The Evening Telegraph. WASHINGTON, Nov. 10. Grant Does Not Want Amy Demonstra-tions.

A committee representing the Boys in Blue and citizens of this District called upon General Grant at his headquarters, and tendered him a public demonstration in honor of his election. The General, in reply, said:- "I am very glad to meet you all and receive your congratulations, but I hope you will spare me any public demonstrations. I live here in this city, and will at all times be glad to see my friends, without making any display whatever. It has always been my desire to avoid demonstrations here and elsewhere. If I had my way I would have none. It would be much more agreeable to have any of my friends who wish to see me call at my house or my office here, and I shall always be glad to see them. I fully appreciate the feelings which prompt these demonstra tions, but I am willing to take all that for granted. (Laughter.) Public displays and demonstrations are disagreeable to me, and always embarrass me." At the close of Genera Grant's speech the committee withdrew, con

siderably disappointed. Hon. William D. Kelley had a long interview with General Grant, at his headquarters, this morning. It is said Grant will invite Judge Kelley to a seat in his Cabinet, and that he will be placed at the head of the Navy Department. Kelley has been a member of the House Committee on Naval Affairs for several years, and is thoroughly posted about all the affairs of the Department. It is generally conceded that Pennsylvania will be represented in Grant's Cabinet, and prominent politicians say Kelley is likely to be the man.

The Issues Botween Great Britain and the United States, By Atlantic Cable.

London, Nov. 10 .- The Times of to-day has an editorial article, giving the basis of settlement and the present status of the questions at issue between the United States and Great Britain. A mixed commission, consisting of two members from each nation, will be appointed to adjudge all questions prising since 1853, the date of the last commission. England's responsibility in the matter of the Alabama claims will be referred to Prussia for arbitration.

If the decision is in favor of America, a commission will then investigate the claims. America has withdrawn the question of the recognition of the Southern States by Great Britain during the war. The San Juan business will be referred to the President of Switzerland for
