The right and duty of the Spanish Government to dispossess and annihilate these traitors is no longer a question of politics. It becomes a question of national unity." Special Despatch to The Evening Telegraph. WASHINGTON, November 16.

The Dyer Court-Martial, which met this morning, attracted a large crowd, and the interest in it, which had pretty weil died out, seems to be revived. General Rodman was the only witness examined to day. It not expected anything new will be elicited beyond what was brought out by the Ordnauce Committees of the two houses,

The Cuban Filibuster Committee, which was announced to call upon the Presicent and Secretary Seward to-day, has not made its appearance. It is hardly probable that any committee will come here for the purpose of asking the Government to consent to engage in such business.

Secretary Seward. who had an interview with the President to-day, expresses the opinion that no organization of importance exists in the United States having designs upon Cubs.

General Grant's absence from the city, and the published statement that he refuses to consider applications for office, does not diminish the size of the tundle of letters received every day at the headquarters bespeaking various places under his administration, from Cabinet positions down to petty post offices. Gen. Badeau, Grant's secre'ary, has a way of disposing of these which, bowever it may fail to gratify the senders, certainly gives Grant little trouble.

The "Intelligencer" of to-day contains a three-column article praising Thaddeus Stevens as a statesman and patriot. It holds him up as an example to living public men of all parties.

water at the extremity of the bank extending from
the north end of the breakwater. The ball is painted
red, with a white horizontal band, at an elevation of
if feet above the sea; it is distant 28 yards from the
breakwater, and about hall a cable from the point of
the Lazaret, on the mainland. The beacon must be
leit on the starboard hand when entering the port.

A breakwater is in course of construction off the town of santa Venere, Guif of Santa Euphemia and is to be of a corrillocar form, in the general direction of NE, and SW. The distance of the works in progress is about 32s yards from the shore, and their northern end is marked by a fixed red light.
