

SPiRiT OF THE PRESS.

EDITORIAL OPINIONS OF THE LEADING JOURNALS UPON CURRENT TOPICS—COMPILLED WEEKLY FOR THE EVENING TELEGRAPH.

General Grant and Our Diplomatic Service.

From the N. Y. Herald. One of our newspaper contemporaries, who has kindly undertaken the office of the grand almoner of both our political parties, urges, first of all, the claims of the editorial fraternity...

Our Imprisoned Citizens in Paraguay.

From the N. Y. Times. Marshal Lopez, Dictator of Paraguay, began and is endeavoring to end his career by insulting the United States. His first act in the war for the control of the Paraguay and Parana rivers was to drive our gunboats out of those streams and our commercial and Government agents from its cities...

Mr. Washburn has been waiting at Asuncion for many months the arrival of his successor, General Martin McMahon. From February last to September 1, his Legation was a house of refuge to the foreigners in the capital of Paraguay. Men, women, and children of foreign nationalities looked to his residence on the fall of Humaita, and asked the protection of his flag.

Mr. Washburn appears to have freely accorded them the protection of his flag. Normally a legation is the territory of the foreign Government whose representative occupies it; in theory the flag which surmounts the building is all powerful to protect. But practically foreign flags have no power; foreign Ministers have no protection other than that which the powers to whom they are accredited choose to accord them.

Prompt action is necessary. The condition of Paraguay is such that no foreigner is safe there. A terrible state of anarchy prevails. The country, Mr. Washburn, is entirely denuded of its male population. All the ploughing, planting, and sowing is done by women. Women must yoke the oxen, do the butchering and all the other work usually done by men.

Cuba.

From the N. Y. Tribune. The fact that the insurrection against Spanish rule in Cuba has not been subdued—the only fact which is allowed to reach us through the despotic and other advice vouchsafed us from Havana—invests relative facts with grave importance. For instance: I. It is a fact that the rising in Cuba was not prompted by the revolution in Spain, as we formerly supposed.

It is a fact that the rising in Cuba was not prompted by the revolution in Spain, as we formerly supposed. The Cuban rising preceded the Spanish, and was entirely independent of it. It is a fact that the great body of the native planters neither expect nor desire to retain slavery, no matter what may be their form of government or who may rule over them.

and incorruptible patriot lacks one very essential element of success. The public can have no confidence in his sincerity. He comes too fresh from the stump on which he has been advocating the very party which is responsible for the public and social evils over which he is now shedding crocodile tears...

The parson's theme on Sunday evening was the "Money power of the country." He speaks feelingly of the "money power," for he has felt it. A year or two ago, when he wrote that letter to the "Soldiers and Sailors' Convention" at Cleveland, he denounced the violence and proscription practised by the Jacobin party towards the South, and, like neighbor Raymond, recommended moderation, conciliation, and the immediate restoration of the Southern States to self-government.

Now he sees the "money power of the country" looming up in tremendous proportions, and threatening direful evils. He admits that it controls every thing, and is destroying us. It produces the stealings in the "whisky rings," the bribery in the legislative halls, and the corruption everywhere.

Ah, say you so, parson! Very good. Who created this "money power," and who uphold it? You and your party. Your war of "abolition" soon brought him to "back down" and "fall into line." Now he sees the "money power of the country" looming up in tremendous proportions, and threatening direful evils.

er and Banks being the most conspicuous. But Burke is a martinet and Banks a charlatan, and there is no reason why General Grant would wish to have nothing to do with either. Sherman and Sheridan have no experience in political life, nor are their temper and cast of mind suited to it.

General Grant will do well, in forming his Cabinet, to imitate the wise example of Washington, who also had old and trusted army associates, but appointed only one of them to his Cabinet—General Knox, who was the weakest member in it. Washington took for his advisers the very first and ablest statesmen in the country, putting Jefferson and Hamilton at the head of the two most important departments, and depending chiefly upon their advice.
