## NEWS SUMMARY.

City Affairs. On Saturday atternoon Dr. L. R. Keecker, No. 1302 Wainut street, was robbed by a scamp named George Burgess, to whom he had been a most leptent and liberal friend. He robbed Dr. Kecker once before, was tried, convicted, and sentenced to a long term of imprisonment, but in answer to his pathetic appear and promises of good behavior, the Doctor, with other friends, procured a pardon, and gave the pre-tended penitent shelter and aid until he could procure some permanent employment. Burgess repaid this great kindness by again robbing Or. Kocker on Saturday. On this occasion he carried off three diamond study, a silver travelling cup, lived with gold, and a silver knife, fork, and spoon. The silver articles are marked with Dr. Keeker's name, so that both the police and pawnbrokers can easily recognize them. It is supposed that Burgess has gone to New York, as he had been asking for money to take him there.

The President of the National Board of Trade, Frederick Fraiey, Esq., tog-ther with the rest of the delegation of the Philadelphia Board to that body, including Mesers, J. Price Wetherill, James C. Hand, George S. Allen, and Henry Winsor, substitute for Samuel V. Merrick, left this morning for Cincumati, to attend the first business meeting of the National Board of Trade held since its organization. They were accompanied by the delegations from Buston and Wilmington, Del., and the representatives of the Philadelphia Commercial Exchange.

General Grant's Report to the Secretary of War.

The following is the report of General Grant

HEADQUARTERS OF THE ARMY OF THE UNITED STATES, WASHINGTON. D. Q. NOV. 24, 1868.—General J. M. Schoneld, Seerstary of War.—Sir:—I have the honor to submit the reports of Division, District, and Department commanders for the past year. These reports give a full account of the operations and services of the army for the year, and I refer to does of the army for the year, and I refer to

them for details. I would earnestly repeat my recommendation of last year, that the control of the Indians be transferred to the War Department. I call special attention to the recommendation of General Sherman on this subject, since it has my carnest approval. It is unnecessary that the arguments in favor of the transfer should be

restated. The necessity for it becomes stronger

and more evident every day. While the Indian war continues I do not deem any general legislation for the reduction of the army advisable. The troops on the Plans are all needed. Troops are still required to the Southern States. If further reduction can be made, it should be in the way now in operation, where it is safe, namely:—By allowing compasies to diminish by discharges, without being strengthened by recruits, and by stopping appointments of captains and licutenants. If it should be deemed advisable, the Veteran Raserve regiments might be discontinued, by the absorption and retirement of officers and discharge of men, without detriment to the service. Very respectfully, your obedient servant. U. S. Grant, General Commanding.

New Obleans, Nov. 29. — Phis morning's papers publish a communication dated Havana, November 25, signed Antonio Lucre, Secretary, purporting to be from the representatives of the Provisional Republican Government of Cuba, re-established in the town of Bayamo, retuing the reports circulated in reference to the revo-lutionary movements in Cuba. They say that the propositions for delay, or to lay down their arms on condition of the Captain-General guaranteeing certain reforms, were scountally

and unhesitatingly rejected by the revolutionary chiefs; that they are not fighting for reform but

for independence.
They conclude: - "We, who are fully informed of everything going on, and particularly well informed as to the plans of the revolutionary leaders, with whom we are in communication, beg to assert most positively that, far from being disposed to lay down our arms, we are about to strike a blow that will echo on the Continent. We will lay down our arms when spain shall have recognized our independence, and not before, not with standing Spanish asser-tions and rumors to the contrary." By order of the Revolutionary Junia, how in session in the city of Havana, the 25th day of November, 1868.

Havana, Nov. 28.—The First Battalion of Volunteers, eight thousand strong, leave to-morrow for the seat of war. It is reported that the revolutionists have burned the plantation of Colonel Ascosti, who commands this battalion. It is also rejorted that General Cespedes, of the revolutionists, has had three men executed for robbing and burning. Cespedes, previous to the attack and repulse at Manzanilio, recommended

The confidence of the people and of the Captain-General in the speedy termination of the war is increasing. Another battation of volunteers will march during the coming week.

London, Nov. 28.—The Times of to-day gives
the following as the result of the election for members of the new House of Commons:—Liberals, 381; Conservatives, 266. The following additional returns have been received:—South Devon returns Sir Massey Lopes and Mr.

Kekewich, Conservatives: the latter beauing Viscount Amberly, Liberal. Sir Walkin Wynne, Conservative, and Mr. Morgan, Liberal, are leated for Denbighsbire. In Suffolk East the Hos. J. Henniaer Major and Mr. Corrance, both Conservatives, are elected. In Cork county, Ireland, Mr. Smith Barry and Mr. Downing, Liberals, are elected: the latter beating Boyle, also a Liberal. Mr. Lock, Liberal, is returned from Wicksburgh, Scotland, beating Mr. Lang, Conservative, who is elected from Derbyshire. Arkwright, Conservative, is also elected in

LONDON, Nov. 29 .- The Conservatives have carried the Southeast District of the West Riding of Yorkshire, and also the Western District of Surrey, thus reducing the Liberal majority by four. The result of a majority of the late elections has been in favor of the Conservatives, who have always had disproper-tionate strength in the counties. Their gains in the present instances are also undoubtedly attributable largely to the indifference of the Liberals, who were rendered careless by the heavy majorities they had secured during the firstaweek of the elections.

In the manufacturing districts the bitter spirit of the Orange organization was enlisted against the candidates who favored the disestablishment of the Irish Church. The entrance of this element into the strife did not sail, in some quarters, to lead to mob law and intimication of voters. The Tories are charged with the responsibility of its excesses, and the Liberal party has suffered so severely from them that it has become almost a unit in favor of voting by

commendation of Distaeli's refusal to accept a pecrage, and of its bestowal on his wife. The ournals also eulogize the career of the Premier. Much indignation has been caused among the British ship owners by a rumor that the Alabama treaty does not allow claims of Englishmen based on the decision of the American prize courts to be reopened before the Com-

The Shipping Gazette says that such a provi sion is contrary to precedents established by the Americans themselves, and excludes claims un doubtedly well founded, and the Gazette de clares that, if the report of it is true, the convention is a capitulation, and that Parliament will never sanction it. A writer in the Observer takes the same view of the subject, and discusses it at length, citing many authorities.

London, Nov. 29.—The Times, and Paris cor-respondents of the other London papers have tely given currency to rumors that the health of Napoleon is failing, and public confidence has, in consequence, been somewhat disturbed. These runors have been officially contradicted from Paris, yet it is well understood that, without positive illness, the Emperor decimes to take the usual active exercise, and shows signs of declining strength and mental apathy. nolicy of his Government seems just now to be to make a demonstration of vigor against the Opposition, to render the latter uppopular, and preserve the morale of the departmental

Madrid, Nov. 28 .- The Government has delared that the popular sense of the country is antagonistic to the establishment of a republic and that the Cortes, soon to meet, will wisely ropose a form of monarchy.

Madaid, Nov. 29 .- A great republican demonstration was made here at the close of the week. The young men of the city held a meeting, and with indescribable enthusiasm passed resolutions protesting against the rule excluding all persons under twenty-five years of age from the franchise. The people, to the number of 5000, crowded the square where the meeting was held, and every allosion made by the sneakers to the republic was received with tremendous applause.

LONDON, Nov. 29. - The apprehensions of blood-hed in Spain are increasing, and it is hought that a collision between the Monarchists and Republicans will be the inevitable re-ult of the excited political contest now in progress. Meantime, the patriotic fervor of the ration is unabated. A Madrid despatch states that the subscriptions by the people to the national loan now amount to 319,000,000 reals.

-At a recent meeting of the Historical and Archaeological Association of Ireland, the Rev. J. Graves reported the means which have been taken for the preservation of the tower of St. Francis' Abbey, Kilkenny. The Com-mittee, although not amply supplied with funds, had determined not to take the chances of another winter, but propped the tower with two strong metal pillars. More, however, needs to be done, as the masonry of the southern haunch of the tower must be made good. Money is required for this purpose, the liberal aid of Mr. Smithwick not sufficing. As to the famous Round Tower at Clonmac noise, the same gentleman stated that £109 had been subscribed towards the repairing of the Seven Churches; the cap of the lesser round tower, which had suffered from lightning, needed securing, and the weatherdamage to the walls making good. £47 had been subscribed to repair the cap of the tower, and this work is progressing satisfactorily. The old stones which had fallen were replaced; where new ones were needed they are to be of limestone, a material which is employed to distinguish the new work from the old, of sandstone. When this is done Clonmacnoise is safe for centuries to come. Mr. Graves showed one of the iron hooks on which the wooden window-shutters of the lesser tower at Clonmacnoise were hung. He found that these hooks had been regularly let into the stone-work at the building of the tower; grooves were made to receive them, and they were fastened with lead. The existence of these irons, and their perfect state, prove that the tower in question—it is admitted to be one of the least aucient in Ireland-cannot be so extremely old as enthusiasts declare. The digging at the base of this tower, for putting down scaffold-poles, had proved that, like the Kilkenny Round Tower, it was built in the church-yard earth, and amidst previously-formed graves. The lesser tower at Clonmaenoise is built in connection with the wall of the church of which it forms a coeval part. The architectural decorations of the church are Romanesque. A proposal to petition Parliament for an annual grant of money for the preservation of Irish monuments was heartily agreed to.

—A project has been started for erecting a suitable monument to Baily, the sculptor, in Bristol. Of course a fine copy of "Eve at the Fountain," which is in one of the public galleries of that city, is a very effective and beau-tiful memorial of that great artist; but it is not the less fitting that his fellow-citizens should adorn their cathedral with a personal monument of the man who shed so much lustre on the city.
