NEW YORKISMS.

From Our Own Correspondent.

NEW YORK, Dec. 12, 1868.

THE SOROSIS every now and then gives one reason to believe

it has not altogether died out. Thus, it met some days ago at Delmonico's. and discussed, as usual, the right of woman to be and to do, but more particularly to be.

The subject which excited the chiefattention of the meeting, was the necessity of women governing the fashions, instead of allowing the fashions to govern them.

A series of resolutions thereon was adopted mnanimously.

The idea of the Sorosis is to attempt not so much a reform in fashion as freedom in it, the permissibility to be in fashion or out of it, without becoming a fit subject for obloquy.

Among the new memoers admitted were Miss Virginia Penny, Miss Dunning, Mrs. Dr. Lozier, and Mrs. Tobitt. But, as I have intimated/before, these Sorosis

meetings savor too much of the dilly-dallying of dilettantism rather than of the purposeful efforts of concentrated womanly strength.

They smell too much of Phalon's perfume. and too little of the fresh breezes of nature. THE SEVENTH AND TWENTY-SECOND REGI-MENTS

gave their respective entertainments at the Academy of Music and the 22d Regiment's Armory, with almost equal eclat.

The 7th Regiment's arrangements were mos perfect, inasmuch as the cards were limited to 2500. Consequently, everybody had room without the dancing-floor being disfigured by any of those dreary-looking, deserted patches which do sometimes occur when such an attempt at exclusivism is made.

At the Armory all were crowded and uncomfortable, and many a woman of fashion was yesterday bewailing the ruin of expensive satin The next grand ball that is looked for is that

of Abel and Risley, the celebrated "ballists" o Philadelphia. Uncommon efforts to achieve uncommon Success have been made by these gentlemen. and the Academy of Music, which they have

selected as the scene of their operations, although it will not compare with the Philadel' phia Academy in chaste richness, is so con. structed as to display to the utmost advantage the toilettes of the audience, A GRAND AND A GRANT

reception was that of Mrs. Marshall O. Roberts

to General Grant. Every portion of the immense mansion was fitted up with flags and flowers. One thousand gues's were present, and large as the house is, it would have been overcrowded had not a special supper-room been erected over the spaclous court-yard of Mr. Roberts as well as that of his neighbor.

THE SEASON OF SNOW having set in, all the skaters of New York are anxious and trembling for the inauguration of their favorite amusement.

Only one individual, and that individual a young lady, has as yet been permitted to try the new skating rinks, called the Empire City. on Second avenue, above Sixteenth street.

There has been no skating yet at Central Park, but should the weather prove propitious, all the skating parks will be open to-day. On the 31st of the present month

JOHN T. HOFFMAN is to be escorted to Albany, there to undergo his inauguration as Governor.

He will be escorted by the 71st Regiment, and the 71st Regiment will be escorted to the depot, going, by the 22d Regiment, and from the depot, returning, by the 12th Regiment.

The latest news about

THE ERIE is contained in a succession of "cards" by Com-modore Vanderbilt and Mr. James Fisk, Jr., from which it appears that neither party had "anything to do with it."

This afternoon the

TENTH STREET STUDIOS are to be opened, and the public are expected to admire the works of such artists as J. G. Brown, whose specialty is children; Mr. M. J. Heade, who has two new pictures, one called "Spring," and the other "The Salt Marsh;" J. B. Irving; Gignoux, with a "Fresty Morning;" the De Haas brothers, who present studies from Long Branch and the Hudson.

The collection of new pictures is not large, and, though the studios will probably be crowded, there will be less than the usual amount of interest manifested, owing to the dearth of new subjects.

AUTUMN SEWING .- With the change of apparel indent to the change of temperature at this season of the year, there is necessarily required an increased amount of sewing in every family. To meet this a good sewing machine is absolutely indispensable where health, comfort, and economy are property considered. Every head of a family who has not yet done so should add this essential requirement to his home. A gentleman remarked in our hearing recently that he regarded a GROVER & BAKKE SEW ING MACHINE as necessary to the proper cemp etion of a home as a good cooking-range or a timeplece. He was right. The Grover & Baker instruments, we may state, are preferred now universally on account of their wider range for such work as is required in families, their capacity for fine ornamental sewing. and their greater simplicity, being more easily operated than any other machines, and less Habie to get out of order. The demand for the Grover & Baker Machines, at the warerooms of the agent in this city. No. 730 Chesnut street, is unprecedented.
