Foreign Affairs.

LONDON, Jan. 18 .- The Times alludes in terms of the highest praise to the treaty which has been concluded between Great Britain and China through Mr. Burlingame and the Chinese ambassadors. A dispatch from India reports sharp shocks of earthquake in Calcutta and Assam.

PARIS, Jan. 18 .- The Senate and Corps Legislatif assembled to-day. The session was opened by the Emperor in person, with a speech from the throne. He said that the task before the Legis lature was a serious one, viz .: to conduct the govcrnment with sufficient strength to repress excesses, while accepting all the benefits of liberty. The laws making concessions to the press and granting the right of public meeting had had the effect of preserving public order.

The fact that the recent elections resulted in favor of the government confirmed the justice and wisdom of these concessions. The laws providing for military organization had given strength and confidence to the nation, which was now ready to meet all wants of the future. The armament of the forces was perfect, the arsenals were filled with supplies, the reserves were well drilled, and the reorganization of the National Guard approached completion; the flects had been refitted, and the fortifications at all important points were in good condition. The Imperial wish was realized-France was so placed as to vindicate her status in the destinies of the world.

Peace had been heretofore sought, not because of weakness, but to sustain the honor of the State. The revolution in Spain had not altered the good relations of France with that country.

The Conference which had just terminated its sessions, and which would extinguish a conflict which had become imminent, was the last grand act, the importance of which all should appreciate The members of that body had all agreed on a principle calculated to restore friendship between the Turks and Greeks. If the firm hopes of success which they entertained should be realized, nothing would be left to trouble the general harmony of the nations. The Chambers would attend to the internal development of the country, mainly through its agricultural interests, and might possibly seek to bring about a reduction of the public charges. The Em peror referred to the approaching re-election of the Corps Legislatif, and congratulated the members on the harmony which existed between the Throne, the Legislature and the people, and de clared that he favored a full and free discussion when it did not touch the constitution. That in strument was above all debate, and he recalled the benefits which it had conferred upon the country. The Emperor concluded as follows: "All governments are liable to error. Fortune declines to smile on all enterprises, but the country knows no thought, no act of mine, which has not been given to the glory of France. It knows that I first sought to create a vigorous control of the administration, and then to enlarge the powers of celiberative assemblies, to prove there was a true support of the government in the independence and patriotism of the great bodies of the State Soon the nation, on the election, will make the path which all must follow, and will repeat its rejection of revolution and its desire to forward the desti nies of France in the ultimate union of honor and liberty.'

He affirmed that the present administration of | the United States shared, and the coming administration would continue to share, the sentiments which he had expressed toward the Mexican republic.

The concessions granted in 1868 by the Mexican government to Emil La Sere for building the Tehuantepec roads had been modified. According to the conditions as they now stand, La Sere is to construct a road from Coatzacoalcos, on the Gulf coast, to Ventosa, on the Pacific. Until the road is completed he is obliged to establish communication by wagons, and for that purpose he is allowed four years and a half to finish the wagon road. The Mexican Congress has passed a law allowing

th expertation of minerals free of duty.

HAVANA, Jan. 18 .- A small army of government officials, of all descriptions, has arrived here from Spain. Old and tried public servants, many of them native Cubans, have been discharged to make room for them. These removals have caused much public feeling. General Sturm arrived in the steamer from Mexico, and sails to-day for New York.

Count Valmazeda has officially informed General Dulce that he took possession of Bayamo, the headquarters of the insurgents, on the 16th inst. The rebels, on retreating, set fire to and totally de stroyed the town.

Valmazeda reports that previous to the occupation of Bayamo he defeated the rebels at Canto del Embarcadre and Paso Rio Salada. He adds that the rebel forces are scattered in small parties over the country, and are supplying themselves with provisions by pillage.

Most of the bands are retreating to the moun tains. The official report of the battle of Pass Rio Salada states that the rebels lost 120 killed, with a proportionate number wounded. The loss of the Spanish troops is not given.

The Diario says the proclamations of General Dulce have produced good results in the central department of the island.

The same paper reports that several attempts ave been made to assassinate Spanish soldiers in the streets of Havana. The sugar market is quiet and quotations are un-

changed. Exchanges declining. LONDON, Jan. 18 .- The gratifying intelligence

of the safe landing of the captain and crew of the British ship Southern Empire was received to-day. The first report of the disaster to this vessel, published on January 6, stated that she had foundered while on her voyage from New Orleans to Liverpool, and that all hands were lost.

FLORENCE, Jan. 18 .- It is reported to-day that Prince Amadeus, Duke of Aosta, has renounced the Italian succession in favor of the Princess Clotilde.

The Amnesty Proclamation.

The President transmitted the following to-day:--

To the Senate of the United States:-The resolution adopted on the 5th instant, requesting the President to transmit to the Senate a copy of any proclamation of amnesty made by him since the adjournment of Congress, and also to communicate to the Senate by what authority of law the same was made, has been received.

I accordingly transmit herewith a copy of a proclamation, dated December 25, 1868. The authority of law by which it was made is set forth in the proclamation itself, which expressly aVims that it was issued by virtue of the power and authority in me vested by the Constitution, and in the name of the sovereign people of the United States, and proclaims and declares, unconditionally and without reservation, to all and every person, who directly or indirectly participated in the late insurrection or rebellion, full pardon and amnesty for the offense of treason against the United States, or of adhering to their enemies during the late civil war, with restoration of all rights, privileges, and immuni ties under the Constitution and the laws which have been made in pursuance thereof. The Federal Constitution is understood to be and is regarded by the Executive as the supreme law of the land. The second section of article second of that instrument provides that the President shall have power to grant reprieves and pardons for offenses against the United States, except in cases of impeachment. The proclamation of December 25, 1868, is strictly in accordance with the judicial expositions of the authority thus conferred upon the Executive, and, as will be seen by reterence to the accompanying papers, is in conformity with the precedent established by Washington in 1795, and followed by Presidents Adams in 1800, Madison in 1815, and Lincoln in 1863, and by the present Executive in 1865, 1867, and 1868,

dated September 7, 1867, extending full pard in] to certain persons who were engaged in the Rebellion. This proclamation extends pardon to all persons who were not pardonel by preceding proclamations. Eighth. Proclamation of President Johnson,

of July 4, 1868, granting general pardon au l amnesty to persons encaged in the late Rebellien, with certain exceptions and reservations.

Girard's Will-Decree by the United States Supreme Court. Yesterday, in the case of Vidal vs. the Exe

cutors of the Girard Esta'e, the Supreme Court endered their decision. In the argument pro-

duced the following points of the will in ques tion were cited:-The will of Stephen Girard, after sundry bequests to his relatives and friends, and to certain specified charities, announces (§XX) his great and favorite charity to be the estab ishment of a college for the education of poor orthans. It then proceeds:-"Now I give, devise, and bequeath all the residue and remainder of my real and personal estate, unto the "Mayor, Aldermen, and citizens of Phil-adelphia, in trust, for the several uses, intents, and purposes hereinafter mentioned and de clared.

The attempt to restrain the alienation of the valty, being inoperative, cannot affect the validity of this devise. After many and very pecial directions as to the college, its construc tion and government, it further directs that two millions of the personal es ate be appropriated to the building; and if this sum should not be sufficient, the remainder should be taken 'from the final residuary find bersinafter expressly reterred to," and which is found in the 24th section, as follows:-

The decree of the Court was to the following

In fit e, the decree must be affirmed, because-1. The residue of the estate of S. ephen Girard, at the time of his death, was by his will vested in the corporation on valid legal trusts, which it was fully competent to execute.

2. By the supprement to the act incorporating the city (commonly called the "Consolidation act"), the identity of the corporation is not de-stroyed; nor can the change in its name, the enlargement of its area, or increase in the number of ite corporators, affect its title to property held at the time of such change.
