How Re Passed the Time Testerday in the City. the City.

Seneral U: S. Grant, President-elect, who arrived in this city early yesterday meraling, departed sgain on his return to Washington at noon to-day. Immediately after his arrival here, as stated in yesterday's Telegraph, being somewhat indisposed through fatigue, he went to bed, refused to admit any visitors, and did not arise until near noon. Hefreshed by rest and quiet, in the afternoon at the carnest solicitation of a number of friends, he participated in a social entertainment at Augustine's, on Wainut street. Heturning thence to the Continental Hotel, he remained in his apartment until about 9 o'clock, when he took a carriage and visited the Hebrew Charity Ball, at the Academy of Music. He stayed there, however, but a very brief time. As he entered the Academy, in company with General Badeau, the first quadrille on the programme was just forming. The dancers, although aware of his intention to visit the ball, did not expect him at such an early hour, and, consequently, but few of them were on the lookout. As he walked quietly into the ball, however, he was encountered by one of the Committee of Arrangements, recognised, and conducted to a private box. The General took a seat, conversed awhile with those about him, suged at the Scene presented

one of the Committee of Arrangements, recognised, and conducted to a private box. The General took a seat, conversed awhile with those about him, gazed at the scene presented on the floor, and then, just as quietly as he had entered, departed. It was not until after he had left that the dancers and musicians became aware of his visit, but even then, in his honor, the band played "Hall to the Chiet."

From the Academy he proceeded to the residence of Mr. James H. Orne, No. 1513 Wainut dence of Mr. James H. Elekles of New York, Congressmen Myers and O'Neili, several newspaper editors, and members of the Union League. The General greeted them cordially, and for a while entered into the spirit of the time, but owing to his fallgue remained in their presence only a short half hour. From the dwelling of Mr. Orne he returned to his hotel.

THE NEWSBOYS' HOME .- An association has been organized in this city during the past month, for the purpose of providing a place of shelter for the homeless boys who nightly throng our streets; and the managers, having sketched out their plan of proposed operations, are now ready to appeal to the public for support and interest in an effort which, by universal admission, is so greatly needed. A nome of this character was organized a law years ago, but it has been merged in another institution; and there is now no Home in this result. and there is now no Home, in this city, for the friendless boys who roam its streets, seeking means of subsistence in various sorts of street

means of subsistence in various sorts of street traffic and employment.

The design is to provide an institution for these young outcasts which shall offer them not only food and shelter, but the attractions and interests of a home; and to furnish them with such instruction as will tend to raise their aims, and atimulate their efforts to become something batter than they are.

and stimulate their efforts to become some-thing better than they are. It is proposed to have regular teachers for evening schools, and to give the boys such religious instruction as will interest as well as inform them. The expenses of the institution will be par-tially derrayed by such small payments for board and lodging as the boys can afford to make, but its support must of course depend mainly on contributions and subscriptions. The following gentlemen are the officers of the association:—

Than the "Newsboys Home" no enterprise could be more charitable or more worthy of support. But little has yet been accomplished beyond obtaining pledges for money, which has been liberally promised in aid of the institution, but a committee is actively in search of a house in a suitable location, and another is eking for a proper Superintendent and Matron to take charge of it when located.

It is well known that architects of skill and reputation refuse, as a general rule, to furnish designs in competition for any public work unless they are assured—First. That unsuccessful competitors who have made designs worthy of notice will be paid for their labor, and their drawings returned to them. And third That the duty of deciding upon the merit of their respective designs shall be confided to such as know something of their art.

However just and proper these conditions may be, the committee are of the opinion that in the present case it would not be desirable to guarantee terms like these, even though it were practicable. Nor do they think it would be advisable to issue a general advertisement in the usual way without such guarantees, knowing, as they do, that such a process would knowing, as they do, that such a process would exclude the best inlent of the profession. After mature deliberation the committee

have come to the concinsion that the interests of the city will be best promoted by selecting an artist of acknowledged ability and reputation in his art, and employing him professionally to prepare designs, drawings, and specifications for the new buildings, under the directions of the Committee on Architecture and Plans; the said designs, when completed, to be submitted to the Commission for approval. As soon as this is accomplished, proposals for labor and materials may be advertised for any labor and materials may be advertised for and contracts awarded, as provided for in the ordi-

One or two communications, plans, etc., from architects, were received and referred.

Upon motion it was ordered that the rules of Select Council, so fer as applicable, should be adopted for the government of the meetings of the Commission.

the Commission.

Colonel Page, with some preliminary remarks, disclaiming any intention to reflect upon any member of the Commission, then offerted the following resolution:

Resolved, That the Councils of the city having by urdinance dixed Independence Square as the site for the public buildings, and devolved upon this commission the duty of c rrying out the provisions of the said ordinance, it is incumbent upon us to act as a unit upon the question of the site, however we may differ upon other questions, and that no member, whatever his private opinion may be as to the site cap, in good faith to hir colleagues, seek to defeat if the more especially so if his official position gives him a power or influence not possessed by other members of the Soard.

Allvely dichate ensured upon the offering of the foregoing resolution, Colonel Page re-

the loregoing resolution. Colonel Page re-iterated his statement that in presenting it to the Commission be had not the most remote intention of reflecting upon any member of the Board. He was upon the most kindly and cordial terms with them all, and was only spurred on to offer it by his conviction that the Commission had nothing at all to do with the

auestion of site.

As the resolution, by those not fully acquainted with all the details and circumstances of the "new public buildings" movement, might be construed to bear on its face some reference to the Chairman of the Commission, who is an enemy to placing the proposed structures upon Independence Square an explanation of cer-tein proceedings had in Select Council on Thursday last was offered by Mr. Stokley from

the chair. It will be remembered that on the day meu-It will be remembered that on the day med-tioned Select Council Indefinitely postponed the bill passed through Common Council changing the site of the contemplated new buildings from Independence Square to Penn Square. While the debate preceding this trans-fer was in progress, Mr Stokley sat quietly in his chair, taking no part at all in the discus-tion.

Subsequently, however, when a motion relating to the same subject was made by one of the members, some words, uttered in simple badinage passed between the Chairman and the gentleman who made the motion. A reporter of one of the morning papers—a sheet in favor of crecking the buildings on Independence Square—took down the wordsspoken in Joke as part and parcel of the regular proceedings, and they thus appeared in the paper, Mr. Stokley alleges that this was done for the

sole purpose of having a "slap" at himself, and asserted his intention, if the offense were repeated, to exclude said reporter from his accus-tomed place Mr. Stokley, as a member of that Commission, said he would act with the me lority of the Commission, but as a member of Councils, would exercise his rights as a member of Councils.

His views were concurred in by the members

of the Board present. Some further explanations from the members After passing Colone! Page's resolution, the Commission adjourned.

No special arrangements were made in the half for the accommodation of Senators, the intention being to let them occupy the stats of members nearest the Speaker's chair.

The proceedings were eponed with prayer by the chaptain, Rev. Mr. Beynton, who shinded to the special duty of the day in tucke terms:— 'We beseen Those that they was at so come to distribute that in all their ways they may rece note the country may be e dowed with a double portion of Thy spirit. that is all their ways they may rece note first of all their God their judge, and may they, as raisers, in the name of God, ramember the account which they must give of their ruitings on the last day to kind by whom they have been appointed. May everything that they shall not be as it was a short time since, the precursor of separation and civil war, with all their train of horrors. We bless Thee that we are allowed to believe that this day will inaugurate an ara of place and of universal joy in each other, trust in our magnistrates and legislators, and union among those who rule over na.'

The loums of yesterday was then read.

Mr. Farnavorth asked and obtained the consent of the House to have ladies admitted to the clock rooms. The practical effect of the permission was to have the spaces in the hall outside of the range of the members' chairs immediately occupied by ladies, and in many instances to have the chairs of members so occupied.

NEW YORK, Feb. 10 .- In the Court of Over and Terminer to day the case of the two Logans, charged with the murder of Mr. Rogers, was called. Mr. Howe appeared on behalf of one of the prisoners and asked for his discharge, claiming that there was nothing in the evidence to warrant his detention. The President then called the joint session to order, and called upon the tellers to take their places. Messrs. Conkling, Pruyn, and Wilson of Iowa then took their places at the Clerk's desk, and President Wade proceeded to open the packages containing the electoral vote.

The New York and Washington air line railroad bill came up as the first b winess in order.

Further proceedings on the bill were inserrupted by the p.eximity of the noter for the joint meeting of the two houses, and the S caker had the rule red which regulates the arrangement of the hall for that purpose.

The fulle directs tests to be provided as follows:—For the Frendent of the senate, the Speaker's chair; for the Speaker the chair immediatly on his left; for the Speaker the chair immediatly on his left; for the Speaker, the chair limbediatly on his left; for the Speaker, the chair limbediation of the full of the presiding efficer; for the Representatives, the body of the hall not complete by the Senators; for the tellers, Scoretary of the Senate Clerk's desk; for the other officers of the two houses, in front of the Clerk's desk on either side of the Speaker's platform.

In accordance with this rule, the Speaker stated that the first five tiers of seats is the sentheastern quester were reserved for the Senate, and he requested the members to vacate them and occupy leats in other parts of the hall. This order had hardly been carried out before the Doorkeeper announced "The Senate of the United States." The senators advanced two by two up the main aisle, the members of the H-one standing meanwhile, and look seats in the portion of the hall sasigned to them.

The presiding officer without any preliminary motion or formality, handed to the tellers the electors you of his wild Hampshire, open.

Senator Conkling read the certificates in full, the report being that New Hampshire had given for U.

S. Grant's votes for President, and for schuyler Colfax, for Vice President, vice of Representative Wesburne, of Illinois, lose at the same moment and addressed the Chair.

The preciding officer said, If there be no objection the reeding of the formal certificates will be omitted, unless required by some member.

Senator Summer—I was going to make that motion. The vole of Massachusetts (12) was next announced by renator Conkling, and the vote of Rhode Island 4, Connecticus, and Verment, 5, by Mr. Wilson, of I. was, all for Grant and Colfax.

The vote of New York was then announced by Mr. Pruyn, as 33 for Sevment and Biair. This announcement caused considerable laughter on the fivor and in the gailerier, but there was no violation of propilety—nothing but a very palpable suppression of a tencency to Indulge in a laugh.

The vote of New Jersey was announced, 7 for Seymour and Biair. Pennsylvania 26 for Grant and Colfax.

The vate of North Carolina 9, and of South Carolina 6 were announced for Grant and Colfax. The vote of Replaces, I. for Seymour and Biair. Tennesses 10, and Ohio 21, for Grant and Colfax.

Mr Eid-lege reas to a question of order, and insisted that the rule was in violation of the direct terms of the Constitution, and called a faution to the tweifth amendment, the provision of the Constitution being that the President of the Senate and H use of Representatives, open all the certificates, and that the vote should be counted.

tatives open all the certificates, and that the vote should be counted.

The presiding officer said this will probably be adopted by both houses and therefore the chair will at entertain the question of order.

Mr. Woodward-I rise to a question of order which I think will be entertaized. I submit that the objection coming from the gastleman from Tennessee does not raise the question contemplated by the rule, the remains the some specific objection made, and until such specific objection be made, there is no occasion for the Senate to retire.
