Mannin. Feb. 11 .- The greatest interest is felt m the proceedings of the Constituent Cortes, the sessions of which commence here to-day. Rivero will certainly be chosen President. A majority of the members favor the selection of Ferdinand, father of the reigning King of Portugal, as the future ruler of Spain, and should he refuse, the Duke de Montpensier will probably be chosen.

The movements of the Carlists in Guipescoa, Biscay, and Alava, common'y known as the Basque provinces, are quite active.

The French Government is watching the frontier closely. HAVANA, Feb. 11 .- Telegraphic communication between Havana and Sagua La Grande and Villa Clara, which had been destroyed by the revolutionists, has been restored. Cavada and his brother Frederick; the former recently American Vice Censul at Clenfuegos, and

was, until last week, the American Consul at Trinidad de Cuba, and has just resigned. He was lien-tenant-colonel of a Philisdelphia regiment of zouaves during the civil war in America.

After the usual toasts, Mr. Johnson made a speech, in the course of which he defended the treaty recently made for the settlement of the Alabama claims. He regarded this treaty as one to settle the points at issue and prevent further trouble in future, and quoted from Earl Russell as saying the escape of the Alabama from a British port was due to the insanity of the law-officer of the Crown.

Mr. Bright addressed the company and condemned the profuse expenditure of past years, and urged the necessity on the part of the House of Commons of being more positive and decided on the question of economy.

PARIS, Feb. 11 .- Twenty-eight Carlists who were attempting to cross the frontler vesterday were arrested by a body of the French corps of observation and sent to Bayonne.

FROM WASHINGTON.

The Debate on Butler's Resolution. WASHINGTON, Feb. 11 .- Judge Bingham of Ohio has just finished a very able and sharp speech against Gen. Butier's resolution. He denounced it as revolutionary, and as an act of secession and anarchy. He warned the House against being led into adopting a measure which would involve a difficulty between the two houses. He hoped the resolution would be laid

upon the table, there to rot.

During the delivery of this speech General Butler stood directly in front of Judge Bingham, and seemed quite uneasy under the scathing remarks and criticisms on his resolution. At the close of Judge Bingham's speech Mr. Farnsworth tried to get the floor to move to lay the resolution on the table, but failed. Mr. Schenck getting it to make a speech in favor of the resolution.

Bliss and Masterman.

The Secretary of the Navy to-day sent to the House, in compliance with the resolutions already passed, voluminous correspondence relative to affairs in Paraguay. It appears that on the 4th of December tast Admiral Davis addressed Lopez a letter, in which he says:-"It does not belong to me to consider the status of Bliss and Masterman, but on this subject your Excellency will, I do not doubt repose confidence in the justice and friendship of the United States, which has afforded your Excellency many recent proofs of its respect and Lopez replied that these persons were crimi-

pals, deeply committed in the affair of a horrible conspiracy, very particularly the former. The Virginia Constitution. Washington, Feb. 11.—It is said that the Senate Committee on the Judiciary has determined to report in favor of a modification of the Constitution of Virginia, as suggested by

School Dedication.

the committee of nine.

Last evening the Southwest Grammar School. on the northeast corner of Seventeenth and Pine streets, was dedicated in the presence of a large number of persons, and the affair was of a remarkably brilliant and interesting character. The new school building is not only an archi tectural ornament to the neighborhood in which it is located, but the interior arrangements for purposes of tuition are admirable, The school-house is constructed of brown stone three stories in height, of nest and tasty de sign, and covers an area of 86 by 76 teet, th lot being 140 by 121 teet. It is divided into a large number of class rooms, and is capable of accommoduling eighteen divisions, although only twelve divisions are now being taught there. The cost of the building was about \$42,000. The assembly room is very large and comp. odious and well ventilated, and the entire interior presents a very cheerful and attractive appearance. The building was constructed under the superintendence of John Frazer,

The inauguration ceremonies last evening were held in the assembly room, which was most beautifully decorated with American flags and tri-colored bunting. Over the temporary staging, erected for the occasion, were suspended portraits of George and Martha Washington, and bouquets of flowers added to the general effect of the scene.

The stage was occupied by a number of gentlemen prominently engaged in the cause of public school education, and conspicuous among them were the Rev. Richard Newton, Mayor Daniel M. Fox, Hon. Isaac Hazlehurst, Hon. J. P. Wickersham, State Superintendent of Common Schools; George Inman Riche, Principal of the High School; Edward Shippen. ex-President of the Board of School Control, and

The assembly room was densely crowded and the front seats were occupied by the young lady pupils of the school, who were tastily attired in white dresses.

The exercises were opened by an anthem sung by the pupils, entitled "The Eyes of All Walt Upon Thee," after which an eloquent prayer was delivered by the Rev. Richard Sewton, D. D.

Mr. Lewis Elkin, the Controller for the section, then addressed the audience, commencing with an appropriate reference to the death, on the previous evening, of Mr. Charles H. Rainier, the Principal of the school, who had been a faithful and capable teacher. He then gave a historical sketch of the building and the school section, concluding as follows:—"We congratuate you, the cruzens of the Seventh ward, on he completion of a building of which you may justly be proud, a temple of learning wherein, with God's help, your children and your children's children may be edueducated. We believe that our schools are interior to none, a convincing proof being the fact that our former scholars are now teachers in our schools, thus returning to their Arma Maler to teach where they had been taught. Believe me, my good friends, wherever you place the church or the school you appreciate the surrounding property and improve the social condition of the people; for the teacher and the preacher are the pioneers of civilization; they go together hand in hand in the great work of progress; with their combined forts we need have no lears for the perpetuity

of our now free institutions. "We heed no skeptic's puny hands,
For near the school the church spire stands;
Nor lear the bigot's from rule.
For near the church spire stands the school."

Addresses were also made by Mayor Fox, Mr. Edward Shippen, George Inmas Riche, Hon. Isaac Haziehurst, Colonel A. L. Snowden, Thomas Bradford Dwight, and the exercises were included by the pupils singing the Evening
