The case of Joseph Flannigan was next called. This case of Joseph Flannigan was next called. This defendant is charged with the murder of a lad ramed Henry Perkins, at Front and Otter stre is, on lass election day. A continuace was moved for on the ground that no notice had been given that the case was to be tried to day, and the defense was, therefore not prepared. The Court chose to refuse this application and direct that a jury should be called, resolving not to swear them, but to discharge them in case the defendant's witnesses should not be brought in. The empanelling of a jury was in pro-gress when our report closed.

tells astory of a post boy's horn, which had a number of wicked tunes blown into it one frosty night, but made no response. Nevertheless, when it was hung before a hot fire, the tunes, which had been frozen in, thawed out, to the amazement of all present. Just so the human system, subjected to injurious influences during the winter, sometimes gives no token of the effect they have produced upon it, until the moist atmosphere of apring develops their fruits. Many spring diseases are the result of winter imprudences and great and especial care should be taken of the system in the cold season, so that it may be in a sound and vigorous condition when the malarious fogs of March and April make their appearance. To this end, strengthen the stomach and the general organization at this season with HOSTETTER's BITTEES. Take this pleasant vegetable antidote in advance of the uprising of the mephitic mists and

Darss is one of the various ingredients that contributes to the art of pleasing, and, therefore, deserving careful attention, for we cannot help forming some opinion of a mau's sense and character from his dress. A man should dress well. Let your dress te comfortable and suitable to your condition, and coming to your figure. Great care should be exerclacd in the selection of color and style of the material composing your drain, so that, when departing from plain into what are called "Nobby" styles, you may not look foppish, but well dreared, according to the style of the day. Much depends upon your tallor, to properly arrange the different parts of your dress to harmoniza, and the color and character of the material, especially as plaids and incoy colors are now the leading style for the coming assaon. Above all, have your clothes to fit, and to be well made, so that they will not look as if you had borrowed them from a friend or hired them for the occasion. In this connection we would suggest a visit to CHARLES STORES & Co., No. 824 Chesnut street, who, without doubt, are the leading fashfoners of this city.

Why physicians do not cure Consumption is, they try to do too much; they give medicines to stop the cough, to stop chills, to stop night weats, hectle fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies. Dr. SCHENCK, in his treatment, does not try

to stop a cough, night sweats, chills, or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy. If a person has consumption, of course the lungs are in some way diseased, either tubercles, abscesses, broncheal irritation, plueral adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. SCHENCK'S three medicines. which will bring up a tone to the stomach the patient will want food, it will digest easily and make good blood; then the patient begins
