Orme, residing in Market street, near Fourth, who assisted himself on Wednesday, while laboring under a temporary aberration of mind, died last evening at the Hospital. - The first annual report of the Midnight Mission, Rev. George Brinegar, General Superintendent, has just been published. The Mission Home, at No. 912 Locust street, was opened towards the close of February, 1868, and since then a very large number of females have been entertained. Of these twenty-four remained as inmates for different periods, some of them as long as three months. Ninety-two were restored to their former habits, and twenty were provided with situations in families. The expenses for the year reached the sum of \$6995.98. - William Price had a hearing yesterday before a Federal Judge on the charge of robbery. Andrew A. Smith testified that he received on S. Broad street, and that not long ago his bedroom was robbed of jewelry to the value of about four hundred dollars. Witness had seen some of the stolen property, which had been recovered by the detective force. He identified a gold chain which was exhibited among the stolen effects. Detective Warlock testified that the chain was attached to a watch which the defendant was wearing. Chief Justice asked that the accused be held for further hearing at three o'clock. He was ordered to be held at the appearance of the accused on Thursday next. - During a fog on the Delaware on Wednesday afternoon, the Grand College, Captains Fryer, playing between this city and Salem N. The steamer sank in a few moments in deep water, but her passengers and crew were rescued by those on board the Fantia. At the time of the collision there was a escape of steam on the Swan, by which one of the passengers was killed. The Swan was built in this city, and was formerly known as the Cobansea. Efforts will be made at once to raise her. - The twenty-first annual report of the Board of Directors of Girard College, for Orphans was presented to Councils yesterday. The report states that eighty orphans were admitted during 1868, and sixty seven have been indentured and discharged, making the present number in the college 60. The pupils are divided into ten sections, of which are composed of boys under twelve years of age, are placed in charge of governesses, and five, composed of the older boys, are under preceptors. There are sixteen classes, and when new pupils are admitted to the college the officers are notified, so that as they are qualified to enter. The working class at the present time numbers thirty boys; they are employed with the carpenter and gardener. The Board state that, in consequence of the increasing difficulty of finding employment, they will take boys under indenture, the working class has become too large for our existing facilities for manual labor, and it will soon become necessary to enlarge them by introducing a greater variety of trades, and by carrying out this plan, a large sum of money will be required for shops, tools, materials, etc. The expenditures during the past year amounted to \$135,648.59, of which \$109,927.51 was for household expenses. - Domestic Affairs. - Gold closed yesterday at 13 1/2. - Visitors at the White House are becoming more numerous every day. - Vice-President Colfax left Washington last evening for the office of Secretary of State. - A delegation from Georgia, headed by Foster Blodgett, waited on the President yesterday. - South Carolina and Georgia have wheeled into line, and adopted the fifteenth amendment. - The lease of the Columbus and Xenia Railroad to the Little Miami Road was ratified yesterday. - Both branches of the Maine Legislature have passed a resolution adopting the fifteenth amendment. - The terrible pressure upon Senators and members of Congress by office hunters is becoming unendurable. - It is thought that Major General Schofield will be assigned to the command of the Pacific coast, succeeding General Sherman. - Ensign Whittaker, who was shot by the boy Chaloner, at the Quebec skating rink, died on Wednesday night. - The Rhode Island House of Representatives yesterday defeated the female suffrage proposition by vote of 16 to 25. - President Grant has sent to the Senate the name of General James Longstreet for Surveyor of Customs at New Orleans. - General Butler's military history of U. It would be to select the Emperor of the French as umpire in the settlement of the Alabama claims. We are not of the opinion that the French Government on that question, and that opinion we know to be favorable to the United States. We are not less certain that a note to Lord Clarendon (an intimate friend of the Emperor) of Mr. Gladstone, whose policy on every kind of questions, perhaps, the French as it is English, would settle that question in twenty-four hours. In this manner the honor of the United States would be saved, for there is no doubt (in our estimation) that, introduced under the name of the proposition of the French Government to offer an honorable reparation to the United States would be accepted by the British Cabinet. This once done, the question of pecuniary compensation would naturally follow. It is not necessary a wrong done unintentionally, perhaps, is nevertheless one to the great American Republic. - Paris, March 11.—The Monteur contains the following notice:—The League of Belgium and of the Rhine, the object of which is to bring about the annexation of Belgium and of the Rhine to France, is a "truth," says that paper, "is that, owing to the state of our commercial and international intercourse between Belgium and the left bank of the Rhine, they must inevitably annex themselves 'à l'indivisible' to France. In these countries 'gradations' in the orbit of France, and their agglomeration on the left bank of the Rhine, raised against French ambition by the unassisted jealousy of other powers, has no longer any cause of existence. There is no need of a neutral Belgium between a friendly France and a friendly Germany, and this is why, in our opinion, Belgium must soon cease to exist." - Paris, March 11.—The Liberator announces that E. Laboulaye, the author of "France and America," is coming to the United States, upon the proposition made to him of paying him

1000 per lecture; he is, besides, promised a triumphant reception by the Legal League and a nice apartment in one of our fashionable hotels. - HAVRE, March 11.—Gustave Lambert is actively engaged in preparing his expedition to the North Pole by way of the Pacific Ocean. He has just purchased and paid for the ship which is to transport him and his crew to the Arctic regions. The vessel is a Canadian-built three-masted, of about one thousand tons burden, very strong, and well adapted to such a trial. Lambert's expedition is creating a great interest in France and all over Europe. - FLORENCE, March 11.—The Italian Government has accepted the official invitation to participate in the universal exposition of fine arts which is to be held at Munich, this year, under the patronage of Ludwig, King of Bavaria. - PARIS, March 11.—The Florence correspondent of the Liberie announces that the war estimates have been voted. The Italian army is fixed at a strength of 204,000 men, and 900,000 francs have been voted to better the position of the subaltern officers, whose pay—123 francs per month—was deemed too small. - LONDON, March 11.—The Cabinet is now united in trying to introduce a uniform system of action in the various branches of the administration. The bill quietly presented by Mr. Goschen on the necessity of establishing uniformity in method of assessments, as a preliminary step to uniting all counties in the same cause and organizing common roads, is meeting with the approval of the Cabinet. The proposal, as soon as this bill has passed the House the general law and the road question will be introduced in Parliament. England is now copying to a great extent the local institutions of France. - LONDON, March 11.—The House of Commons, this evening, Mr. Cardwell, Secretary of War, made a statement in regard to the army estimates, showing a reduction of 11,000,000 in the total amount as compared with last year.
