The City Amusements.

AT THE ARCH this evening Miss Lizzie Price will have a benefit, when the new comedy of Birds of a Feather, adapted from the Frencu by Mr. Fred. Maeder, will be given. The performance will conclude with Mr. Craig's buriesque of King Lear the Cust. Miss Price is an established favorite with the public, and there is no doubt but that a brilliant audience will be in atlendance this evening.

To-morrow Shakespeare's comedy of The Merry Wives of Windser and the drama of Dick Turpus will be performed for the benefit of Mr. F. F. Mackay, who will appear for the first time in the cheracter of "Sir John Faistaff." Mr. Mackay is one of the most careful and praiseworthy actors on the stage: wonstever he undertakes to do he does to the best of his ability, and he is deservedly a favorite with the playgoers of Pailadelphia. The Merry Wives of Windser is a most entertaining comedy, which is very seldom performed, however, on account of the difficulty of colaining a suitable representative of "Faistaff" Mr. Mackay has succeeded so well in such pars as "Dagoerry" and "Sir Toby Belch" that there is some carlosity to see bow he will make out as the fat knight. Mr. Mackay ought to have a full house to morrow evening.

Mr. Mackay ought to have a full house to morrow evening.

At the Chesnut Brough's extravaganza of The Field of the Coth of Gold will be performed this evening. A matune to morrow.

At the Walnut Mr. and Mrs. Barney Williams will have a fare well benefit. Three pieces will be performed, Rory O'More, The Widow of the Mill, and Pat's Blunders.

There will be a matinee to morrow, when The Emerald Ring will be performed.

On Monday Charles Reade's drama of Foul Play will be reproduced.

Play will be reproduced.

AT THE ACADEMY OF MUSIC Fraulein Janauschek will appear this evening as "Eizabeth, Queen of Eagland." To-morrow Medea will be given as a farewell performance. AT THE THEATEE COMIQUE a grand perform-

ance will be given this evening for the benefit of "All Right," when the Japanese troupe will execute some of their most remarkable teats. There will be a farewell matthee to-morrow.

AT THE AMERICAN an interesting variety
entertainment will be given this evening. A

Bennett vs. Greeleys

There is a ridiculous proposition to send Mr Greeley as Minister to Spain, supported by some ridiculous argument of his fitness for that place. He is not fitted for that place and should not go there; but he is admirably fitted to represent us in England, and that is where we should send him. Going to England as the American Minister, he would have the greatest influence upon the international relations of the two countries that any Minister has ever had, inasmuch he would put the American and the English people in a more direct communication one with another. No man could more readily throw himself outside of all that routine and throw himself outside of all that routine and conventionality that less original mea require to bolster up their respectability, and the effect with which Greeley would thus "throw himself" would be startling. He should of course go in his original American costume, and should abate no jot of those peculiarities of person and manner that so wonderfully stamp him as a true growth of the soil, torn out by the roots, in the grasp of the American eagle. He should talk to every assembly he can get at and on all his subjects, including mileage, vegetable diet, protection, Jeff. Davis, woman's rights, and cold water taken inwardly.—N. Y. Herald.

Southern Activity.

There is an unwonted activity at the South this year. The election of Grant has settled the situation for four years, and the people no longer listen to political leaders who delude them with such false lights as they held out a year ago. We have a thousand evidences in the papers that the people are turning their attention to agriculture, and that they are walking preparations to raise a larger crop then making preparations to raise a larger crop than for many years past. Land, too, is finding a market, and hundreds of pieces of property are changing bands. There is a change in tone, also, and there are fewer-outrages upon free-dom of speech. They begin to be tolerant of settlers and to speak complacently of those who come among them. Violence and disorder have had their reign and have cone, greater harm to the South than to the North. All these things augur a new cra, which shall usher in a career of prosperity and improvement. Let the Southern people labor as industriously and vigorously as they fought, and they will indeed "create a new nation," which shall surpass the wildest dreams of Southern prophets.—New York Commercial Advertiser.

A Bloodthirsty Kellow.

Here is the bluodthirsty reply addressed by Paul de Cassagnac, editor of the Pays, to a Democratic speaker who had called him a bully and cutthroat at one of the public meetings in Paris:—"surrounded by some hundred knaves and fools, M. Ducasse," says Paul de Cassagnac, "you have insulted us at a distance from our horsewhip, giving yourself the easy appearance of a still easter courage. Now, I tell you you are the cowards of demag seism—the men who demand heads because the executioner would help you, and who dare not ask for breasts be-cause you yourselves would have to put holes in them. You, citizen Ducasse, who always talk of saving the endangered republic, have now a fine opportunity of showing your rare intre-pidity. Never will you have had before your pale and quivering face a more disdainful adver-

Wealth Accumulates-Men Decay.

A curious fact is stated in the report of Dr. Letheby, the Health Officer of the city of London, for the year 1868. It is that the population of the city of London is steadily decreasing from year to year, and showed an aggregate of several thousand less in 1868 than in 1867. Lest it should be hastily concluded from this that the British metropolis is dwindling in importance, let it be explained that the city proper constitutes but a very small portion of London, and is now almost wholly given up to the commercial and financial activities around the Bank and Royal Exchange. New York in like manuer below Chambers street is constantly falling off in its resident population, and satisfies would show that in Wall street and its neighborhood there are few dwellers after nightful besides there are few dwellers after nightfail besides private watchmen and porters -N. Y. Post.

A Negro for Office. Dr. Harris, the Republican candidate for the Lieutenant-Governorship of Virginia at the approaching election, is a colored man. The negroes are enthusiastic about electing him, and it is not improbable that they may succeed in doing so. Even John Brown's soul, in its enward march, must pause in astonishment at the change which has rendered a nomination of a negro for high office in the proud Old Dominion a possibility. Dr. Harris is a native of the negligible that the resting-place of the flower of the peninsula, the resting-place of the flower of the Northern army, and was a doctor in one of the colored regiments raised towards the close of the war. It is said that he has some smartness and culture, and that he is not worse than some white men who are occasionally elected to office.— N. Y. Commercial Advertiser.

English Finances. An account of the public income and expenditure for the years ended September 30, 1867, and December 31, 1868, has been published. For the year ended September 30, the total income amounted to £70,307,561, and the total income amounted to £70,307,561, and the total expenditure was £72,981,986, showing an excess of total expenditure over income of £2,674,425. For the year ended December 31, the decicit is nessly as large, the total income having been £71,860,677; while the total expenditure reached £74,082,280; showing an excess of expenditure over income amounting to £2,221,602.

In the House of Commons, the Chancellor of the Exchequer moved the supplemental estimate of the Abyseinian expedition of £3,600,000, which, with the £5,000,000 already provided, brought up the cost of the expedition to £8,600,000.

-It costs \$85 per ton, in currency, to build ship in Beston; in the British provinces the est is \$45 in gold.

The Scientific American adds its testimony to that which is in all mouths, thus:—"The service of the Patent Office is now inadequate to the demands of inventors. Some of the employes are notoriously inefficient, and ought to be reare notoriously inefficient, and ought to be re-moved; and the Commissioner needs to have his bands strengthened by an energetic and able corps of examiners. There is work enough for all the new Secretaries to do, and President Grant has shown his practical good sense in selecting men who are untrammetled by strict party rules; in other words, while they are pronounced adherents to the political creed of the successful party, they come to their new duties pledged to no class of greedy spoil-seekers, but are free to do honest, fearless work for the country, irrespective of partisan selfishness. The politicians, it is said, growl: but the people, who make parties, are heartly sick of the corrupt rings which, for four years, have made our public service a scandal to the nation. We go for solid reforms, and for an honest collection and application of the public revenues."

Forests.

It is calculated that at the present rate of consumption the entire pine forests of Michigan will be cut down in less than seventeen years; and, as Michigan is by far the largest pine pro-ducing State in the Union, there is every reason to expect a scarcity of lumber before many years. In 1867, 2,378 275,000 feet were produced in that State. Thirty acres of good ship timber are required to build a common take steamboat. It seems as if it were time for us to adopt something similar to the French system for the planting and protection of lorests.

YOU OFTEN hear it said by men but little acquainted with the science and art of money-making: "Life insurance can't be a good thing for us, because the companies make so much money." Why do they not apply the same reasoning to their groser and their tailor, and say that dealing with them must be a losing game because they make money? Is it not. on the contrary, a fact that they find they can deal most advantageously at those very places where the most money is made? for those only make much money who offer great advantages.

THE AMERICAN LIFE INSURANCE COMPANY OF PHILADELPHIA is a thriving institution, and makes money, and for that very reason has an additional claim to the confidence of insurers.

WITHOUT A GOOD DIGRSTION all other temporal dessings are comparatively worthless. The dyspertic millionaire who has tried all the potions of the medical profession in vain, and believes his complaint to be incurable, would give half his fortune to be freed from the horrors of indigestion, and thus enabled to enjoy the other half. Of course he

would. Perhaps Hostetter's Stomach Bitters has been recommended to such a sufferer. Possibly he has turned from the friend who who made the sugges tion with a sucer, intimating that he has no taith in any "patent medicine," If this has been the case, so much the werse for him. His incredulity dooms wealth can purchase are at his command. Not one of them can give him pleasure. His own irrational obstinacy is his bane.

The masses, happily for them elves, are less skeptical. There is such a thing as biguted unbelief, as well as bigoted credulity, and a golden mean between the two, which men and women who are gitted with common sense adopt and profit by. These are the class who patronize and recommend Hostetter's Bitters. Why do they approve this famous anti-Bitters. Why do they approve this famous antidyspeptic and anti-billous preparation? Simply
bectuse they have not been too much the slaves of
senseless prejudice to give it a fair trial, and havfound that when all other tonics, stimulants, and
stomachts failed, it produced the desired effect.

"Strike, but hear," said the Romau sage, when his
ignorant enemies were assailing him. "Doubt, but
try," says the man who has been cured of indigestiop, or billousness, or intermittent fever, by the
Bitters, as herelates his experience of the medicine
to his invalid friends. Whoever is so wedded to his
own foregone theoretical conclusions as to decline to
test the properties of a medicine endorsed by the testimony of intelligent men in every walk of life, and
approved by the people at large, deserves to suffer.

## SCHENCK'S

PULMONIC SYRUP.

SEAWEED TONIC, and MANDRAKE PILLS

WILL CURE

CONSUMPTION. LIVER COMPLAINT,

AND DYSPEFSIA.

If taken according to the directions. Th y are all three to be taken at the same time. They cleanse the stomach, relax the liver, and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to care Consumption.

To these three medicines Dr. J. H. SCHENCK of Philadelphia, owes his

#### UNRIVALLED SUCCESS

In the treatment of Pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe, a slight cough will throw it off, and the patient has rest, and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and food will make good blood.

#### SCHENCK'S MANDRAKE PILLS

Act upon the liver, removing all obstructions; relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the pills can do; nothing has ever been invented except calomel (a deadly poison, which is very dangerous to use unless with great care) that will unlock the gall biadder and start the secretion of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most Prominent Causes of Consumption.

#### SCHENCK'S SEAWEED TONIC

Is a gentle stimu ant and alterative, and the alkali in the seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Palmonic Syrup, and it is made into good blood without fermentation or souring the s

### THE CREAT REASON

Why physicians do not cure Consumption is, they try to do too much; they give medicines to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks

Dr. SCHENCK, in his treatment, does not try to stop a cough, night sweats, chills, or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs are in some way diseased, either tubercles, abscesses, bronchcal irritation, plueral adhesion, or the lungs are a mass of indammation and fast decaying In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver Lave lost their power to make blood out of food. Now the only chance is to take Dr. SCHENCK'S three medicines, which will bring up a tone to the stomach, the patient will want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets flesby and well. This is the only way to cure Consumption.

### WHEN THERE IS NO LUNG DISEASE,

And only Liver Complaint and Dyspepsia Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious cases, as they are

### PERFECTLY HARMLESS.

Dr. SCHENCE, who has enjoyed uninterrupted health, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless, and abandoned him to his fate. He was cared by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office,

PHILADELPHIA, EVERY SATURDAY. Where all letters for advice must be addressed. He is also professionally at No. 32 Bond street. New York, every other Tuesday; and at No. 35 Hanover street, Boston, every other Wednesday, He gives advice free, but for a thorough examination with his Respirometer the price is \$5.
