The Address of the Insurgents to the

The following is a translation from a procla-mation addressed to the Spaniards residing in Cuba, issued in behalf of the revolutionary movement:-

40 the Spaniards residing in Cuba:-Your own as well as our interests call for a conference and an understanding between us at a moment when the formue of arms is still pending upon this country which to us gave pirch, and to you a hospitable recent n. instruments of a corrupt Government, and the numerous satellites interested in the existing order of things endeavor, as the only means of prolenging tyranny and continuing depreuation, to sow hatred and matice in your hearts against the accipient tak of our recomption. Afraid that you may discern caimly and see clearly into the depth of the grave question that moves us, they bandaged your eyes to prevent your feel ngs, and stir up your enthusiasm to misguide it. Playing upon the tender chorus of your patriotism, they inspire you with the false notion that it is both a virtue and a duty to devote your blood and fortunes to maintain a cause not your own nor that of Spain, but which is only belonging to a swarm of immoral and greedy officials, who, through the length and breadth

o. the land, weigh heavily uoon the people, whom they impoverish and fleece, and drain to the very dress of their sufferings. They make you believe that the war is to war of faction; they tell you that hatred a you has inspired it; and they will persuade you that your special interests and the hone of Spain call upon you to risk their lives and kill your brethre. They repeat continually that the trium a of the revolution wounds the honor of the Spanish nation; that it will deprive you of your properties, and expel ou from a country overthrown by destruction

Spaniards! do not listen to those deceitful words. Remove from your sight a picture glowing with perfidious tints; be not deceived by those vain and pompous declarations; be not scared by those lugubrious and senseless prophecies. The noble ambition, the heroic attitude of a people which fulbls its desuny and rises in arms to break the chains that fetter it for three centuries, its determination, its sacrifices, the certainty of an early and undoubted triumph which will be consummated for its welfare, en'all neither shame nor disgrace nor reproach on the old colors that float over the castle and forts of the island. The honor of nations de-pends not on the success of battles, nor are their colors glorified or dishonared by the chaaces of war. It it were so, which of the nations of the earth could show immaculate banners? That which affects, which impairs honor, which stains the flag, is the streamer that bides in its

folds despotism, oppression, and tyranny.

Spaniards! in speaking the language of truth
we have fulfilled our indispensable duty. To day
you may give your aid to despotism, but do not, to morrow, impute the consequent evils to others; yours will be the guilt, if you turn your aims against the country that gave birth to us, hospitality to you, if you reject the friendly band which is tendered to you, in the name of all Cubans, by yours,

THE HAYTIEN EMBASSY. Arrival of the Minister Plenipotentiary at New York.

Says the N. Y. Herald of this morning:—
Ad ong the arrivals on the steamer Georgia, reaching this port yesterday from Havti, was General Everiste Laroche, Minister Plenips-tentiary from the Haynen Government to the United States. Shortly after his debarkation, and, in fact, before seeking rooms hotel, he proceeded to the office of Mr. Ellwood Cooper, Haytien Consul, accompanied General A. Prox, Secretary tion. After a very pleasant interview with the regresentative of his Government in this city, in which he was quite particular and seculous in his inquiries regarding the condition and treatment of the Haytiens here, he went to the Stevens House to engage rooms. General Laroche, h s Secretary of Legation, and the remainder of his retinue of attendants were told that there was not room for them at the botel. Resuming bag and baggage, they jumped into a carriage to find a hotel else where less plethoric in the matter of guests, in which it is to be presumed, they were at length sac cessful. It is certain, however, they did not patronize any of the leading botels, though in a large city like this it is not likely they had to institute a very protracted search for the ac-

The Haytien Minister is a very pleasant gentleman and prepossessingly polite in his bearing. No experienced diplomat could be more gra-ciously amiable and conciliatory. He dresses well, but plainly, and altogether bears his henors very modestly. No one would imagine him to be a minister from a foreign government, and if told that he was, would hardly imagine it to be from any other country than Hayti. His face, a dark, rich ofive, and features somewhat antipodal to the Anglo-Saxon, give convincing token of his birthplace being be tween the tropics of Capricorn and Cancer. His knowledge of the English language is quite limited, but his Secretary of Legation converses in our tongue with very tolerable case and

General Laroche announced to the Spanish Consul his intention of remaining here several days before proceeding to Washington to lay his credentials before this Government.

Hon, James F. Wilson.

From the Boston Advertiser, March 19. We have once or twice referred to the report in circulation as to the offer of a high place to the Cabinet to Mr. Wilson, of Iowa. now learn, upon authority which is not to be questioned, that the President offered to Mr. Wrison first the State Department, and then three other places successively. To this almost unexampled solicitation, which shows so strongly the President's desire to call to his ide a gentleman whom the public was ready to welcome to the Cabinet, Mr. Wilson felt himself compelled to return a final negative.

OFFICE OF THE EVENING TELEGRAPH. }

LATEST BY TELEGRAPH.

The Collectorship of Philadelphia -How the Appointment of the Hon. Henry D. Moore Was Received.

Referms in the Naval Depart partment-Exodus of Disappointed Politicians.

The Civil Terure Act.

FROM WASHINGTON.

Special Despatch to The Evening Telegraph. WASHINGTON, March 20. Secretary Borie Has Ac-

Secretary of the Navy Borie left last night for Philadelphia, to spend a few days with his family. Although Secretary Borie, when he took charge of the department, found it greatly disorganized and many abuses prevailing, he has in the short time, that he has been Secretary succeeded, with the assistance of Rear Admiral Porter, in organizing the chief bureaus of the department, and in laying down rules for the government of the officers and men which will greatly promote the efficiency of the navy.

Exodus of McClure & Co. from the Capital.

A number of Philadelphia politicians who have been here for some time looking out for places for themselves or their friends, have gone home disgusted with the delay of the President in sending in nominations and his refusal to make removals.

Among those who left last night were A. K. McClure, W. H. Kemble, and others. It is un derstood that neither Mr. McClure nor Mr. Kemble want anything for themselves. They are only anxious to see that some of the deserving men of the party are reasonably rewarded, and that has been their business here.

The Collectorship of Philadelphia. There seems to be no doubt that Hon, Henry D. Moore will be confirmed by the Senate at an early day. The reference of his name by the Committee on Commerce to a sub-committee, with instructions to confer with the Pennsylvania Sanators, arose from the fact that Mr. Moore's name having been sent in by the President without consultation with the Senators, they should according to a Senatorial custom, first be conferred with. It is not believed, however, that either Senator Jameron or Senator Scott has any object to Mr. Moore.

How Mr. Moore was Nominated, The statement telegraphed hence and published in one of your afternoon contemporaries, that the caucus of the Republican delegation in Congress from Pennsylvania selected Henry D. Moore for Collector of the Port of Philadelphia, is incorrect. I am informed by several members of the delegation that Mr. Moore was selected from half-a-dozen other names by he four members from Philadelphia-Messr

O'Neill, Myers, Kelley, and Taylor. Mr. Moore's name was handed to Secretary Borie, who gave it to President Grant, The only "pushing" done was, that the Philadelphia members called upon the President and informed him that Mr. Moore, if appointed, would be acceptable to the people of Philadelphia. No other recommendations are called for by the President.

The President Unwell. President Grant is quite indisposed to-day,

and no visitors are admitted to the Wnite House. The incessant labors since his inaugu, ration have been too much for him.

The Civil Tenure Repeal. Senators Morton and Sherman are very confident that there is a majority favorable to the repeal of the Civil Tenure act. The vote, however, will be very close, and it may be that the

Vice-President will be required to give the casting vote, which he will, if necessary, for its repeal. Not in Session.

The House not being in session to-day members of Congress, with their friends, throng the departments. Our Foreign Relations.

The French and English Ministers were in conference with the Secretary of State to-day. The new Spanish Minister is in receipt of despatches from the Spanish authorities in Cuba, showing that the revolutionists are not making much head way.

FROM MISSOURI.

Connection of Railroad Tracks—The Transfer of Merchaudise Facilitated. St. Louis, March 20 -The City Councils have granted the Iron Mountain, North Missouri, and Pacific Railroad Companies leave to connect their tracks on the levee. This will enable all goods to reach a large elevator on the river bank, and give great impetus to the grain trade in bulk. The Councils also granted the North Missouri Raliroad and Madison Ferry Com-pany leave to lay a track to the ferry landing in the northern part of the city. Under this privilege the ferry company will transfer laden cars across the river between the North Mis-souri and St. Louis and Chicago Raitroads, and will enable the freight on either of these roads to reach its destination either in Illinois or to reach its destination thanks, Missouri without changing bulk,

LEGAL INTELLIGENUE.

COURT OF OYER AND TERMINER — Judges Ludiow and Brewster.—In the case of the Commonwealth vs. Jeseph Flandigan, who was convicted of manslaughter, in shooting the boy Henry Pergins, at Richmond, on the 13th of October last, the Court overruled the motion for a new trial, and sentenced the prisoner to the County Prison for two years, and requiring him to give security in \$2000 to keep the peace for five years.

five years.

COURT OF QUARTER SESSIONS—Judge Ludlow.—The habeas corpus list was before the Court to day. One case heard was of a peculiar character, being an accusation of theft made by Martin Gregg against his daughter Catharine, a young lady of nineteen. He complained that she left his house to be married, and took with her a shawl that her deceased mother had left, and also two balls of carpet rags. She had habitually worn the shawl athome and abroad, and he had seen it upon her after she had gone away. The young lady answered that the shawl was a bequest from her mother, and the other articles she did not take.

take.

The Judge told the prosecutor that he had made a grave mistake in attempting to prove his own daughter a felon; and that the Court would do him the greatest kindest it was capable of by removing the stigma from her, and declaring that she was no felon; for by his own statement her conduct in this behalf was pure and honest. Therefore she was discharged.

THE WHITE HOUSE.

The Improvements Being Made at the Executive Mansion. A Washington correspondent says:—The President's family is now finally installed in the Executive mansion. The interior of the building has been very handsomely relited, repaired, and returnished, and is about to be adorned and embellished with statuary and other works of art, in which it has been greatly descient. Among the prominent works of art are fullintended to be placed in the hall in the rear of the man entrance; beautiful statuettes of Washington and his batchet; Franklin and his whistle; William Tell and his son; Napolson at condrmation Lincoln, and one representing freeding, by Rosetti. All will be placed in appropriate places in the east room and the reception rcoms. Adjoining the olue room is to have a splendid Louis XVI clocs, with Roman lamp in ormolu and gitt. The red room will have a real Sevres vase with handsome glit finish.
Other portions of the mansion will be decorated

to replace the service purchased in France by Consul Lee in Mouroe's administration. Mir. Grant has given her percoual supervision to the returnshing of the White House. She was warmly attached to the residence which she has just left; and she remarked a few days since that he should go to the White House with reluctance. She proceeded to remark:—"I in-tend to make Mr. Grant comfortable there, and shall no doubt soon feel at home. I am told that it has been customary to have the Com-missioner of Public Baildings superintend the consehold to a considerable extent, but I don lesire to have any gentleman do that for me. shall also engage the steward and servants, a as the steward's salary is paid from the Treasury, Ishali exercise great care in selecting him. -as under the Tenure-or-Office act I shall not be able to get 11d of him."

Our Financial Condition. The financial condition of the Treasury at the

close of the present fiscal year will undoubtedly be much more tavorable than was anticipated. This can be stated on semi-official authority. This can be stated on semi-omera according. The receipts from customs now promise to be the largest of any one year in the history of the Government. They will reach, without doubt, \$129,000,000 or \$20,000,000 in excess of the estimates, and it is not impossible that they may even reach the high figure of \$200,000,000. The even reach the bigh figure of \$200,000,000. internal revenue receipts to the present time are in excess of \$100,000,000. The remaining three and a half-montos will cover the greater portion of the income tax, and the special taxes which fail due May 1, and which will angment the receipts to \$150.000,000, and possibly to \$160,000,000. The will be fully up to Commissioner Wells, estimate on the internal revenue. sioner Wells' estimate for the internal revenue, and if the latter agure to reacted it will be considerably exceeded.— N. The inauguration ball has left a lawsuit in progress. The committee having charge of the affair, it seems, sgreed to give Mr. Grey, the carerer, one ball the proceeds for sapplying the supper. Now, however, the committee, inding the profits so steep refuse, it is said, to stand to the bond state that the careful of the profits is a stand to the bond state that the said to stand to the profits so steep refuse, it is said, to stand to the bond, and want the categer to receive less than he bargained for. The latter don't see it in the same light, and bas will am S. Hunlingtop, treasurer of the committee, to back him up. The categories in consequence, threatens to institute a lawsuit to establish his rights.—N. T. Hera d.
