The Civil Tenure Bill-The President's Power of Removal -Naval Orders.

FROM WASHINGTON.

The Civil Tenure Bill-Report of the Conference Committee. Special Despatch to The Evening Telegraph

WASBINGTON, March 31 .- Butler has just made a report of the conference committee on the Civil Tenure bill. It strikes out that part of the Senate bill which allows the Senate to restore to office any officer removed by the President whose successor shall not be confirmed by the Senate. The President is simply to send a new nomination for office to the Senate, and if he is not confirmed then another name is to be sent in. The power of removal by the President, either during the recess or when the Senate is in session, is complete; the only trammel being that the President must send in his nominations

thirty days after the Senate has resumed its session. Despatch to the Associated Press. Suspended. WASHINGTON, March 31 .- The Postmaster-

General has suspended Special Agent G. W. Summers and reinstated Foster Blodgett in charge of the Augusta Post Office. Lieutenant-Governor Dunn, of Louisiana (a colore 1 man), is in the city.

Callers at the White House.

The President is quite well to-day, and re-ceived callers as usual, among whon were Senators Cole, Sprague, Sherman, Morton, and a number of Representatives. No delegations visited the White House this morning. Among the nominations to be made for Jus-tice of the Peace of this District will be one colored man

Captain William Rouckendorff has been ordered to the naval rendezvous at Philadelphia. Lieutenant Commander John McFarland is ordered to the naval rendezvous at Poitadelphia, and Surgeon Charles Everfield is detached from the Examining Board and ordered to the naval rendezvous, Philadciphis.

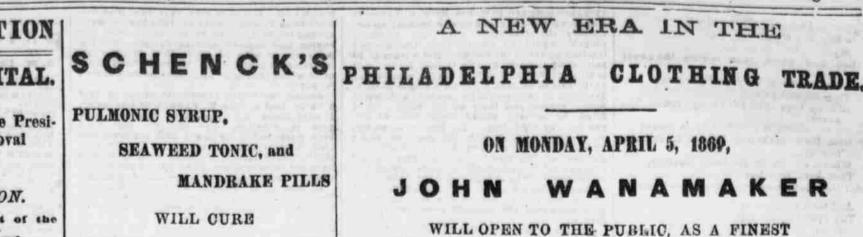

FORTY-FIRST CONGRESS-First Session.

Senate.

Continued from Second Edition. He (Mr. Howe) would be willing to remain in session a while longer for the purpose of setting the Georgia case, if he could see any prospect of making such settlement, but he had been here ever since 1862 trying to reconstruct Georgia and the other Southern States, and yet he believed they were no nearer reconstruct of the believed they were no nearer reconstruct a State, it had had time enough to do it; but to reconstruct successfully, in addition to Congress and time one thing more was needed, good sense. Mr. Summer asked what the Senator frem Wisconsin (Mr. Howe) proposed to do with the pending executive business. Mr. Howe did not believe there was enough such business to occupy an evening session, but thought, as a matter of course, that the Benate would remain in session long enough to dispose of all business of that kind. House of Representatives. Continued from Second Edition

House of Representatives.

Continued from Second Edition. Continued from Second Edition. Mr. Whittemore introduced a joint resolution postponing the election in Texas. Referred to the committee on Reconstruction. Mr. Johnson introduced, explained, and had passed by the Honse, a bill transferring the county of Sierra, California, from the Sacra-mento land district to the Maysville land dis-trict, and the county of Mendocino from the Hermbold land district to the San Francisco land district.

CONSUMPTION.

of Philadelphia, owes his

LIVER COMPLAINT,

AND DYSPEPSIA,

If taken according to the directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver, and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure Consumption. To these three medicines Dr. J. H. SCHENCK

In the treatment of Pulmonary Consumption. The Pulmonic Syrup ripens the morbid master in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe, a slight cough will throw it off, and the patient has rest, and the lungs begin to heal. To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and food will make good blood.

MANDRAKE PILLS

Act upon the liver, removing all obstructions; relax the ducts of the gall bladder, the bill starts freely, and the liver is soon relieved; the stools will show what the pills can do; nothing has ever been invented except calomel (a deadly poison, which is very dangerous to use unless with great care) that will unlock the gall bladder and start the secretion of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most Prominent Causes of Consumption.

8CHENCK'8

SEAWEED TONIC

Is a gentle stimu.ant and alterative, and the alkali in the seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring the stomach.

Foreign Planos, sold by agents, are generally the cheapest that can be found in the New York or Boston markets, and after all they cost the purchaser as much as first-class Sohomacker Pianos. The agent has already several commissions added before the customer obtains an instrument, and in a few years it becomes worthless, and there is no redress.

Our Pianos have maintained their high reputation as frat class for more than thirty years, and have been awarded the highest premiums, and are now admitted to be the finest and most highly improved instrumonte made in the country.

Our new and beautiful warerooms, No. 1103 Chesnut street, are constantly supplied from our exten sive factories with a full assortment of superior Grand, Square, and Upright Planos, which we offer on the most favorable terms. THE TRUE MEDICAL DOOTBINE -- Nature, when atruggling with disease, indicates unmistakably th

kind of assistance she requires. In cases of nervous weakness and general debility, the feeble pulse, the lack-lustre eye, the attenuated frame, the flaceid muscles, the melancholy visage, inform us as plainly as if each organ had a tongae, that a medicated stimufant is needed. It does not require the ald of a medical education to understand this dumb appeal for new vigor from an exhausted system. Every reader of these lines can comprehend it just as well as the graduate of a physicians' college. Let not this demand of enfeebled nature be neglected. Respond to is promptly by commencing a course of HOSTET TER'S STOMACH BITTERS & preparation uniting, in their highest excelience, the properties of a stimu. LANT, BD IN VIGORANT, and BN ALTERATIVE. Before three days have elapsed from the taking of the first ose, a marked beneficial change will be manifest in he bodily and mental condition of the patient. The alse will be stronger and more regular, the eys will begin to lose its dull expression, the mutcular and nervous systems to recover their tension, and the spirits to improve. Fernevere, and a complete revication of the depressed animal and mental power certain. In cases of dyspepsis and billousness, the mesalutary results will be obtained. The appetite ill revive, the sallowness of the skin disappear, and li the distressing symptoms which accompany dis rders of the stomach and liver will rapidly subside. he sudden changes of spring ofern intensify these omplaints by checking the perspiratory action by hich so much mothid matter is evaporated through ports of the body , and therefore the HITTERS are cially useful to the dyspep'ic and billous at this

BECAUSE & PERSON HAS & BAD COUGH It should not be inferred that Consumption has set in, although a case of Consumption is rarely met with unaccompanied by a distressing Cough. Where, however, a predisposition to Pulmonary Disease exis's, s Cough, if left to itself, strains and racks the Luogs and wastes the general strength, and soon establishes an incurable complaint. In all cases, then, it is the safer plan to get rid of a Cough, Cold, or Hoarse aces without delay; and for this purpose no remedy acts more promptly or surely, or with more benefit to the organs of the Chest, than Dn. D. JAYNE'S Er-PECTOBANT, an article scientifically compounded from carefully selected drugs, and which, on trial, will always be found worthy of its wor'd-wide reputation. Sold by all Druggists.

Mr. Washburne (Wis.) offered a resolution instructing the Committee of the District of Columbia to inquire into the condition of the Washington Aqueduct, and the causes of the insufficient quantity and bad quality of the water supplied. Also, as to the contracts for work ano payments for property taken, etc., with power to send for persons and papers. Adopted.

Adopted. Mr. Cleveland offered a resolution reciting the purpose of the New York American Insti-tute to hold an international exhibition of the industry of all nations in New York in 1876, and instructing the Committee on Manufac-

and instructing the Committee on Manufac-tures to inquire as to the propriety of rendering Government aid to such undertaking. Adopted: Mr. Strickland introduced s bill extending the time for the completion of the Portage Lake and Lake Superior Ship Canal. Referred to Committee on Public Lands. The House then, at 1 o'clock, proceeded to the consideration of the bill reported from the Reconstruction Committee for the organization of a Provisional Government for Missis sippi. Mr. Farnsworth, a member of the Reconstruc-tion Committee, offered a substitute for the b li procesing a resubmission to the people of Mississippi of the Constitution stready framed, b it processing a rearbinission to the people of Mississippi of the Constitution already framed, with separate votes on some of the objection-able features. He argued against the bill re-ported from the committee, which proposes to reassemble the convention, and to authorize it to appoint a provisional governor, with power on his part to fill all the other state offices.

to appoint a provisional governor, with power on his part to fill all the other state offices. That convention, he said, was not popular with the best classes of Union people in Mississippi, and to revive it would be to throw in a fresh apple of discord, and to prolong instead of to quiet the disorders reigning there. Mr. Ward inquired whether the gentleman hed any charge to make against the members of that convention? Mr. Farnsworth declined to discuss the per-sonal of the convention, but remarked, hat most of its members were themselves caudi-dates for office, and that it was suspected by the Uffion men that the whole game was got up in the interest of those candidates. The proposition that these candidates should elect a provisional governor, who would have the appointment of all the State officers, was ex-ceeding y distasted to the people. The obscussion was interrupted at 2 P. M., when Mr. Butler, Mass., rose and made a report from the conference committee on the Tanure-of Office built.

when Mr. Butler, Mass., rose and made a report from the conferences committee on the Tenure-of Office bill. The bill, as proposed to be adopted, rereats the 1st and 2d sections of the original Tenure-of-Office act of March 2, 1867. The 1st section of the Sense amendment is left untouched. The 2d section is amended so as to read as follow:--

as to read as follow::--Thet during any recess of the Sanate, the Pre-sident is hereby empowered in his discretion to suspend any civil officer appointed by and with the consent of the Senate, except Judges of the United Blates Couris, until the end of the next session of the Senate, and to designate some suitable person, subject to he removed in his ension of the Senate, and to designate some suitable person, subject to be removed in his discretion by the designation of another, to perform the dulles of such suspended officer in the meantime, and such person so designated shall take the oaths and give the bonds required by law to be taken and given by the suspended officer, and shall during the time he performs his dutles, be called to the salay and emoluments of such officer, and it shall be the duty of the President, within thirty days after the commencement of every session of the Benate, except for any officer which in his opinion onght not to be filled, to nominate persons to fill all vacancies in offices which exist to the meeting of the Senate, whether temporarily filled or not, and also in the place of all officer, then and nit otherwise, the President shall nominate acother person as soon as practicable to said se sion of the Senate for said officer.

THE CREAT REASON Why physicians do not cure Consumption is, they try to do too much: they give medicines to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they

derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies. Dr. SCHENCK, in his treatment, does not try

to stop a cough, night sweats, chills, or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs are in some way diseased, either tubercles, abscesses, bronchcal incitation, plueral adhesion, or the lungs are a mass of inflammation and fast decaying In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. SCHENCK'S three medicines,

which will bring up a tone to the stomach.

the patient will want food, it will digest easily and make good blood; then the patient begins to gain in fiesh, and as soon as the body begins to grow, the lungs commence to heat up, and the patient gets fleshy and well. This is the only way to care Consumption.

WHEN THERE IS NO LUNG DISEASE.

And only Liver Complaint and Dyspepsia. Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Man-

drake Pills freely in all bilious cases, as they are

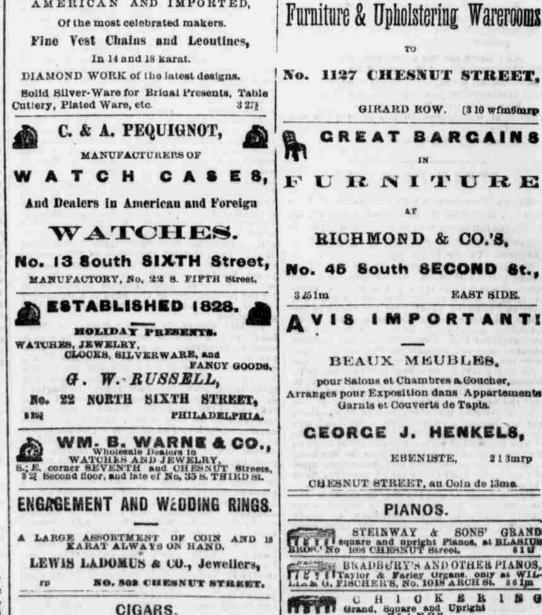

PERFECTLY HARMLESS.

Dr. SCHENCK, who has enjoyed uninterrupted health, was wasted away to a more keicton, in the very last stage of Palmonary Consumption, his physicians having pronounced his case hopeless, and abandoned him to his fate. He was cured by the aforesaid medicines. and since his recovery many thou-ands similarly afflicted have used Dr. Schenck's preparations twith the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck. unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office,
