SELECT COUNCIL.—A stated meeting was held yesterday afternoon, President William S. Stokley in the chair.

Stokley in the chair.

A message was received from the Mayor, vetoing the ordinance to authorize the removal of the city radirond tracks from Market streat west of Fi teenth street. The Mayor says: "It is agrave problem what its effect may be upon the trade and the general prosperity of our city. To remove to a more distant place the point from which our merchants receive, and to which they convey, their goods for shipment is to increase the expenses of drayage, and with the sharp competition under which business is done is perhaps to encourage the trade of rival cities at the expense of our own.

\* \* I submit, with great respect, to the wisdom of Councils, the propriety of maturely considering this whole subject before acting, and I will glacily approve any bill which is framed upon a thorough and comprehensive view of this important question. An important step in this direction was taken by Common Council at their last meeting, in the reference to the Radirond Committee of the question as to which streets shall, hereafter, be used for earlight of the question as to which streets shall, hereafter, be tion as to which streets shall, hereafter, be used for railroad purpo es. To determine in advance where forwarding warehouses should go, when by reason of the removal of the ralls they are obliged to leave Market street, seems to me to have much value."

The message was referred to the Commit-tee on Railroads.
