

FIRST EDITION CUBA.

Dulce's Announcement that the Rebellion "is Done For"—His Latest Predictions—Céspedes' Capture Re-nounced—Americans in Havana.

The New York Tribune of this morning publishes correspondence from Havana to April 18, in which we find the following:—The Spaniards again announce that the rebellion is done for. Four or five months ago it was almost crushed; later, it was doomed to instant death; and still it lives, though at the expense of the blood of the Spaniards, it is bound to die very soon. Everybody doubts this dictum, and, privately, a good many scout it. The authorities grimly affect to play their part in the cruel little drama as if it were all a comedy, and it is far from that. They lead a class of bayonets, and the bayonets act out a massacre as if it were a jest. After the bloody occurrence at the Pinar last Friday, the volunteers treated themselves to other disorders. In one instance a group of men in a saloon were heard crying out for Cuba. A frightened man, who was leaving the scene, was pounced upon by soldiers, and bayoneted to death, though doubtless he did not utter a word of sedition.

Dulce has never failed in the last three months to render obsequious homage to the courage and bravery of the volunteers, and his latest expressions are in accordance with his average sentiment in this respect. At a recent festivity in honor of the soldiers from Spain, he observed that the volunteer organization of Havana was as good as any of the volunteers in the world, and that in the massacre at the garrote they had acted bravely, becoming and loyal spirits deserving of imitation under all similar circumstances. What these exemplars of Spanish law and authority have wrought out in six different scenes of bloodshed during the year ought to be still fresh in the memory of the Spaniards. The Spanish organs extol and admire the volunteers. The first murmur of rebuke they utter is not heard in Havana. It is most difficult for a stranger to comprehend the total abjectness of the manifested opinions. On all sides the public is beset with fears which it dares hardly name. Some time ago it was believed that the life of the Captain-General was threatened by his own soldiers. That belief has not been controverted. So, from the Captain-General down, the public fears the whole gamut of authority. The Cubans are in dread of Fernando Po or volunteer bayonets; the volunteers are fiercely apprehensive of Cuban uprisings; the Spaniards are in dread of the volunteers; the minority, and the Captain-General has had reason to think himself in danger.

What trouble may occur to American citizens in this juncture has been made a colossal question by an article published in the New York Tribune. Foreign residents have, of course, undergone the general danger of discomfiture of living in Havana, and when professed sympathizers of the Cuban cause, or suspected of being in league with the enemy, are made the subjects of an article of this kind, the chances are that they will be driven to the rear. Foreign residents have, of course, undergone the general danger of discomfiture of living in Havana, and when professed sympathizers of the Cuban cause, or suspected of being in league with the enemy, are made the subjects of an article of this kind, the chances are that they will be driven to the rear.

Continued Successes of the Liberals—Arrival of a Portion of Hamilton's Brigade—The Scenes in the Interior—Blockade-Running. A correspondent of the Savannah Advertiser, writing in the Field, near Bayamo, Cuba, April 18, says:—Successes of the Liberals continue to be reported daily. General Gomez is actively harassing Valmaseda's forces, and Marcano, Poidres, and Thornton sweep the country for six leagues about Santiago de Cuba. Within a week a dozen Liberal victories, and the footing up of prisoners, arms, and stores captured will show. Every plantation in this section is a harbor for the Liberals; every cross-road is a gathering place for patriot camps, and every village has a band of patriots ready to rise. The trains sent out to San Luis, El Cristo, and Palma Loria have, for the third time since March 7, been either driven back or captured. The armed and unarmed patriots spring up upon the ground as did Marion's men in days gone by upon the Pedee, and their success is inevitable.

WAR ORDERS.

An Order Violates His Own Decree and is Shot. A correspondent of the Boston Traveller, writing from Fort Macon, North Carolina, last week, says:—To us it seems a little absurd that in time of peace there is hardly a possibility of a national foe, and much less of a secret one, that the same rigid order should be given and obeyed as if the life of the nation depended upon it. Last week a lieutenant, acting officer of the day, gave orders to the sentry to shoot any man who violated the parapet about the counter-scarp, and ordered the guards to shoot any intruder. An hour afterwards a chimney from the guards' casemate caught fire, and as the alarm was given the lieutenant rushed up to what would be thought of as extinguishing the fire, and, doubtless, forgot the orders he had given. "Halt," shouted the sentry, but as others were shouting too, the lieutenant did not hear. "Bang" went the guard's musket, and the lieutenant fell dead. Next came an orderly sergeant who paid no attention to the guard in his hurry. "Bang" again, and the sergeant was laid dead beside the lieutenant. Then an officer with the countersign came, the bodies were taken away, and the fire extinguished. Now the guard knew he was shooting a superior officer, and he should have been ordered to be killed. We think, yet such are the army regulations in time of peace, and for this nonsense two families are left without a house or the house of joy turned into the house of lamentation and tears, while the Government loses two tried and efficient officers.

A Menagerie Loose.

A letter from Mestra, Italy, relates an alarming incident which occurred in that town. A menagerie of wild beasts was about to leave for Venice, when a double cage, containing a lion and a leopard, fell on the quay where it was about to be embarked, and was broken to pieces, leaving the animals free. The lion, after reclaiming a moment apparently astonished at being set at liberty, proceeded towards the town, but without attacking any one; however, on meeting a flock of sheep, it worried and tore to pieces several of them. The inhabitants fled in terror in all directions, but presently the mistress of

the menagerie arrived with a whip, and fixing her eyes steadfastly on the animal, peremptorily ordered him to lie down. Immediately leaving the rest it had just commenced, it obeyed, and was soon replaced by her in another cage. The leopard plunged into the river and gained the opposite bank, and has not since been heard of. Hunting parties had been organized in pursuit of it.

FILIBUSTERS.

General Steedman's Expedition to Cuba—What a General is Said to be Doing for Cuban Independence. Correspondence from New Orleans, dated the 10th inst., to the N. Y. Times, says:—Some time since a filibustering expedition was planned here in order to reinforce the Cubans with men and arms. The Spanish consul in this city, after getting wind of this movement, asked Captain-General Dulce to send over from Cuba some adroit spies. Nearly every steamer from Cuba brought some spy, and they did not fare better than the consul, the volunteers and Cubans keeping a strict watch over them. It will be remembered that some time ago General Steedman visited Havana; that he was arrested there and released afterwards. This trip was undertaken for the purpose of recruiting and putting himself in connection with the Cuban patriots. Shortly after his return here, in the upper room of Hawkins' saloon, a bar-room of the *habe-coeur*, a secret meeting was held, at which the Executive Committee of the Cuban republic, the Mexican Consul, Senator Diaz, General Steedman, General Harry J. Hays, late Chief of the Louisiana Confederate Artillery, Colonel Nixon, late colonel in the Confederate Army, and proprietor of the *Greenback* newspaper, and many other influential residents of the city, met. General Steedman reported on what he had observed at Havana, after which a plan for an expedition was made. Since then the corps organized numbers over a thousand men, camping on different plantations in the neighborhood of the city. They have purchased two thousand rifles and two full batteries of artillery, and also hired a very fast steamer, a former blockade runner, to bring them to the northern coast of Cuba. This steamer has been reported since to have left for Cuba.

SPRAGUE.

Don Platt Rides Him be Content. From the Cincinnati Commercial. There is a strong temptation to dish up the little Senator. He has so many good things, we like to note the ugly ones. While we of the press are floating about on spars, he is captain of a big three-decker. He has fifteen millions gold. He has his seat in the Senate. Chief Justice Chase is his neighbor-in-law, and his wife is large-bosomed, graceful, accomplished, and lovely. By Jove, we are forced to balance the account of go mad. And so we say to him, when he appeals to us, as the Jove I swore by said to the peacock, when that gay bird prayed for the voice of the nightingale. "The content with your tail, old bird. It is a splendid tail; be proud of it, and don't attempt to sing, and you won't discover that you have no voice."

That Senator Sprague is honest, earnest, and has touched the popular heart in his wild protest against wrong, I am ready to admit. I will say more—that he has said some good things. When he said that nothing was more vicious and cowardly than five hundred thousand dollars, unless it was a million, he uttered a great speech in one sentence. That he feels for the unhappy condition of the country, and that he detests the corruption of politics and society, is to his credit, and I am willing to forgive his bad delivery and utter lack of sense of propriety. But I cannot forgive him for throwing away all these years of his life. He has been no student. With brains people about him, and no end of books in his library, he has never contented with his millions. Millions are grand things, and we bump our free and independent heads on the floor in their presence. But they are not everything. When Ingot comes before us, not only as a Senator and a lawyer, but as a leader, we get up and look at him, and listen to him, and if he falls in our eyes, we shall not be content with the points of little pins we puncture him.

Only yesterday, William of Rhode Island took to reading that dull sort of fiction called history; and jumping to the conclusion that what he read was as new to others as to himself, he injected huge volumes into his cot, and resorted to the great wrath of his brother Senators and the galleries.

If William were as thoughtful as he is brave and original, would send for David A. Wells and read my letters, he could take his millions and make a prodigious stir in the world. But then he won't. No man ever does. What golden opportunities besides those of the millions are thrown aside, or are passed unscathed and so neglected? D. P.

Vengeance and Bullets—A Duel in Prospect.

There is a prospect ahead of a scrimmage between two Senators. The former in his speech alluded to two Senators as the mastiff and the mongrel puppy dog. Abbott, supposing Sprague applied "puppy" to him, has prepared a speech, which he intends to deliver if he can get the Senate to sit with open doors for a few minutes. In this speech he will call upon Sprague for an explicit explanation, and if he discovers that the term puppy was intentionally applied to him (Abbott) by Sprague, he (Abbott) will then do desperate things. He will first demand a retraction, and, if being refused, he will insist on the satisfaction recognized among gentlemen. His friends say he will assault Sprague, if no other method is left him, and wallup Little Rhody from the Capitol to Georgetown Heights. The newspaper men are on the lookout for a lively scene. It is expected that the duel will be fought at the residence of P. L. Sprague, who had been in his seat most of the evening, has just put on his hat and coat and gone home. It appears that a friend, learning of Abbott's purpose, called Sprague out of the Senate and informed him of it. Sprague said Abbott had just been up and asked open doors for a few minutes in order that he might make a personal explanation relative to Sprague's attack. Sprague thereupon arose and said that if he was attacked any more in the Senate he would not only read letters, but he would read the letters of the Senator who called him a puppy, and advised him to keep cool and say nothing. Sprague asked the advice of the friend who called him out of the Senate, and he was told the best thing he could do would be to go home and not come back again during the session. Sprague took the advice and immediately thereafter left the Senate. Another version of the story is that Sprague has gone in pursuit of his shooting irons in order to be ready for the fray.—Herald Wash. Cor. of yesterday.
