Lutheran Clergymen Call Upon President Grant-Their Address and His Response -General Shaking of Hands.

From the Interior of the State.

Foreign Diplomats Entertained by Pennsylvanians.

FROM WASHINGTON.

Despatch to the Associated Press, Visit of Clergymen to the White House.

Washington, May 13.—About two hundred Luthe-an ministers paid their respects to President Grant his morning. They were received in the east room. Address to President Grant.

The President on entering was greeted with applause, when Rev. Dr. Pohlman of New York addressed him as follows:—It is not unusual for ecclestastical bodies holding their sessions at the capital of the nation to desire to pay their respects to the honored Chief Magistrate; but the custom of boring him with long speeches is, in my opinion, "more honored in the breach than in the observance," I shall therefore content myself with merely introducing these members of the General Synod, and then follow the example of the illustrious chief who said, "Let us have peace," and so I shall say, "Let us have peace." You see before you the representatives of the General Synod of the Evangelical Latheran Church in the United States. They are the representatives of the Control of the Evangelical Latheran Church in the United States.

I trust the day will come when the entire Lutheran Church will be in the unity of the spirit and the bonds of peace in the unity of the spirit and the bonds of peace. I wish, sir, I could relieve you from the labor of shaking hands and do it by proxy. If you would give me a hearty shake of the hand, and I then shake hands with all my brethren here, perhaps they would be

To this there was a general response, "No! no! We want to shake hands with him."

The President's Response.

The President then said to Dr. Pohlman, General Eakin, and Rev. Dr. Butler that he would shake hands with them individually. The ministers then separately approached the President, and were introduced and shaken by the hand. The President, when the ceremony was over, entered into conversation for a few minutes with the few that remained.

The New York Money Market.

From the Heraid.

"The satisfies of the London money market, which are so that you week ago, has evidently abated very little, for the cable to-day brought lower prices for bonds and someols. By one of those remarkable coincidences which are so frequent, and for that resison are so suggestive of trickery, the closing London quotation last right, which was much lower than at the one o'clook board, was mor received in the street until after business hours. Hence governments opened weak this morning, and much uncertainty existed as to the course of the market, which was figure 72 was received. 52s and 67s symmather than the close of business in London, and later private despatches placed it as low as 73%; but the Government market maintained its strength and refused to yield. The larger firms and prominent operators are long of bonds, and the market is not easily depressed. The abundance of money enables even weaker dealers to carry loads, and as the market has ateadily repeated the example of the toad in the well, advancing after each decline further than it fell, there is very general confidence in the final success of the built side of transactions.

"Gold was more sensitive to these foreign influences, and advanced to 133's before the actual closing of the Gold Room. Underlying the strength of the premium is the necessity of making payment in gold or its equivalent for the heavy excess of our imports over exports. Exchange has slowly crept up on this account. Hence, as the present prices of bends in the home market leave no margin for their shipment, which would afford the equivalent for gold in settling the balance of trade against us, the holders of gold are firmer in their demands. Gold went up, not for the immediate reason that bonds have gone down abroad, but because the necessity for shipping gold is more liminary in ginterest in their demands. Gold went up, not for the immediate reason that bonds have gone imminent. Were not the Government selling gold and disbursing interest

"Foreign exchange was firmer late in the day, and some of the 'good banks were asking 100% for sixty days sterling, prime bankers' bills of the same time ruling steady at 100%. The importing merchants were buying more freely to-day, which fact and the decline in bonds abroad strengthened the market."

THERE is a bogus strike among the Pennsylvania cal-miners, deliberately gotten up by the mineowners for the sake of an excuse to raise the price of coal. There is plenty of coal in market. The past winter was an open one, making the consumption of coal less than usual and keeping open the sources of fresh supply. The usual quantity will be mined this of iresh supply. The usual quantity will be mined this year, and, if anything, the market will be overstocked and competition will compel low prices. Therefore, do not be deceived by reports of the bogus strikes. Do not be in haste to buy next winter's supplies—coal will be both plenty and cheap. The Pennsylvania miners, not satisfied with picking the people's pockets by means of "protection," are trying now to swindle them by bogus strikes,—N. F. World this morning.

Address of the Emperor Francis Joseph.

By Atlantic Cable. VIENNA, May 15.—The Emperor Francis Joseph, in closing the sessions of the Reichsrath yesterday made a long and pleasant speech. He recalled the situation of Austria in 1866, compared that with the present condition of things, and traced the course of egislation of the Reichsrath since that time. He was rejoiced at the friendly arrangements made with Hungary, and the finances and condition of the army. He felt that peace was indispensable to national prosperity, and the present relations of Austria with the other powers of the world assured him of its continuance. He reviewed the late reforms enacted by the Reichsrath, and hoped they would become the basis of harmonious and pacific relations between the Church and State. In concluding, he thanked all the members for their past exertions, and expressed the hope that all would support the constitution. He was interrupted by long and loud

THE GREAT ZINGARI BITTERS BIOGRAPHICAL SHETCH

DR. CHEOPSUS.

THE DISCOVERER OF

THE ZINGARL

Dr. ALI SALMON CHEOPSUS, the discoverer of the powerful herb known as the ZINGA, or, as it is called by the Egyptians, Zingari, was an Egyptian, born in the valley of the Biblical historic Nile, in that part of Egypt who is the partial property of the Biblical historic Nile, in that part of Egypt who, in his nomadic course of life with his flocks, was allowed a substituted of the such his flocks, was dered far into the interior or upper regions of the Blue Nile, through the district of Sald and Vocatari. During the long and weavy days of berding in the fertile valleys and on the borders of the lakes, although a more box, One-opsus exhibited a natural or intuitive love and knowledges and on the borders of the lakes, although a more box, One-opsus exhibited a natural or intuitive love and knowledge extended to the control of the control

Imamm of Muscat, invited Cheopens, who was now called the Rofa a Mizzaim (the Doctor of Egypt), to their courts, and received him with the most distinguished consideration.

On one of his travels from Alexandria to the Island of Corfu, a fellow-passengor, a merchant from the city of Berlin, a relative of the proprietor of the ZINGARI HITTERS, made the doctor's acquaintance, and having shown him many favors during the tempestuous and dang-grous voyage, Cheopens, to be remembered by one from a distant land, gave him a receipt for the preparing of this great vegetable panacea. From Germany the present proprietor obtained this valuable recipe—comparatively but a few years ago; but the efficacy and healing qualities of this extraordinary preparation has already made it as famous and popular in America (inclusive of portions of the southern civisions of this continent as in the ancient kingdom of the Pharcahs. It is sold in almost every city, town, and village, and wherever it has been tried it has produced marvellons results. The proprietor has in his possession thousands of certificates from individuals who have been benefited by the Bitters.

The great ZINGARI BITTERS was but recently offered to the American public. Its high qualities were almost immediately recognized, and the demand for it increased so rapidly that the manufacturer with great difficulty kept the supply in advance of the consumption. The proprietors, disclaiming any attempt to establish a new system of medication, are warranted, on the light of past experience, to declare, without fear of successful contradiction, that they have produced a remedy against infectious, organic, malarious, epidemic, scrofulous, or inflammatory diseases, unsurpassed. As a preventive against those it has been thoroughly tested, and is always successful. It is the great Hygienic compound, and searches out diseased action in every part of the system, sending increased vitality into every channel. It has been widely and successfully tested in a great variety of cases of D

A WORD TO THE LADIES. The use of the Zingari Bitters will give to you that soft, semi-transparent complexion which flature fully intended that you should have—for it is nature's own powder and paint combined. By purifying the blood, stimulating the pigmentary cells of the dermis or true skin, and imparting health and life throughout the entire system, it gives that smooth clearness and beauty to the complexion so much to be desired, removing all roughness, blotches, freekles, pimples, and that rellow, sickly look so common in our days; and what is even better than this, it cures every species of irregularities and disease.

Read these certificates taken from a large collection:—THE MOST REMARKABLE CURE KNOWN TO

THE MOST REMARKABLE CURE KNOWN TO MEDICAL SCIENCE. This may certify that about four years ago I was attacked with what seemed a very obscure affliction. I felt not really sick, but continually suffered of a general uncasiness and peculiar pains in my legs. After suffering in this way for several months, sores commenced to broak out, and soon not less than fourteen unhealthy ulcers were established, and their acrofulous character fully shown. Every one said (including several physicians) that this was the worst case of Scrofula they ever saw, and my chances for recovery were regarded as very poor. I am sure nothing I used did me any good. I spent all the money I could raise with dectors and for patent medicines, but was not in the least benefited. I was, about a year ago, induced to use the ZingaRi BitTrera, and was completely cured by less than four bettles. Any one who may be incredulous can see me at the Iron City Hotel, corner of Walaut and Raihrod streets, Harrisburg, and see the scars for themselves. I do not believe that a more wonderful cure of this monstrous disease was ever effected by any medicine, and I confidently believe that almost every case of this complaint will yield to this extraordinary preparation. My general health is now excellent, and my appetite regularly good. I must have died but for your ZingaRi BitTrera.

Harmingura, Pa., December 7, 1866.

I have had occasion to use RAHTER'S ZINGARI BITTERS
in my family, and found them very officacious in all disorders of the bowels. I have recommended their use also
to friends in New York, where they have been found to
produce the same effect. Every family would do well to
have a supply at all times on hand.

David R. PORTER.

During the prevalence of Cholera in Columbia, Pa., If was attacked with rice water Diarrhoss and Cramps; in fact, all the symptoms of that dreadful disease. I was completely relieved by a few does of the ZINGARI BITTERS. I had also suffered, for over six months, of a pain in my breast and general debility which a half a bottle of the BITTERS wholly cradicated. I have gained nineteen pounds in weight since I used it. This BITTERS has greatly improved my health in every way—certainly did memore good than any medicine I ever used. I am stronger and healthier now than I have been for a number of years, I can confidently recommend this remedy to all who suffer as I did.

I, Jacob C. Scheaffer, do swear that the above statement is correct and true.
