NEW GOLDEN EAGLE FURNACE.

This is an entirely new heater. It is so constructed as to once commend itself to general favor, being a combination of wrought and cast iron. It is very simple in its construction, and is perfectly air-tight; self-cleaning, having no pipes or drums to be taken out and cleaned. It is so arranged with upright flues as to produce a larger amount of best from the same weight of coal than any furnace now in use. The hygrometric condition of the air as produced by my new arrangement of evaporation will at once demonstrate that it is the only Hot Air Furnace that will produce a perfectly healthy atmosphere.
