Galton has neither the voice nor culture of Miss Kellogg, and a comparison with Madame Rosa is too absurd to be even thought of. Miss Galton got into trouble once before through the extravagant praise of ill-advised friends, and her disastrous season at the Chesnut should be a lesson not only to her and her managers, but to those critics who are inclined to allow their enthusiasm and personal partiality to run away with their judgment. There is nothing but the most kindly feeling in this city towards Miss Galton, and we cor-

iady, it is doing her a great and positive injury. Miss Galton is one of the most attractive actress singers we have had in this city for a long time, and her merits in the light operettas of Offenbach and Levy, as well as in works of a higher class, have been fully acknowledged by the papers of Philadelphia. Miss Galton, however, did not make a success at the Academy of Music; and the most that can be said of her performance is, that it is an open question whether she is able to sing in so large a house. Miss

Kellogg, Rosa, and others will have to look will to their laurels, or the little English girl will become the true favorite of the people. However gratifying the extravagant laudation of the Press may be to Miss Susan Galton's vanity, her common sense must revolt at it; and while our contemporary is evidently anxious to serve the young

and that the performance was one of the most suc-ceasful ever given in this or any other city, even including the great New York. It is probable that she may again visit the "metropolis," and we feel sure that once on the boards of one of its great thea-tres, well supported, she will force from the writers the truth, and compel them to agree that she is all that we of this sity have declared her to be, and that Kellong, Rosa, and others will have to look well to
