A memorial was presented from some mem-bers of the Cedarville congregation and others, petitioning that as an honest difference of opinion existed on the Psalmody question, and some always had and would sing otherwise, mitable action be taken to make it a matter of Christian forbearance.

On motion of Dr. Steel, of Philadelphia, petitioners were referred to the action of Synod in 1866 and 1868, imperatively enforcing the Psalmody. Some of the above petitioners had been cited and tried by the Cedarville session for singing hymns at Methodist revivals.

### ATTORNEY-GENERAL HOAR.

An Important Opinion Relative to National Banks Adopting the Old State Bank System. The following opinion has just been promulrated:-

ATTORNEY-GENERAL'S OFFICE, May 16, 1869. Sir:-In your letter of April 6, 1869, transmit-

ing a copy of a letter from the Comptroller of the Currency of the same date, calling attention to his letter of October 18, 1868, and referring to a letter of the late Secretary of the Treasury to my predecessor of October 16, 1865, you request my advice upon the points presented therewith, which have been carefully considered, and upon which I am now prepared to submit my opinion. The Comptroller states in his letter of pril 6 that he is informed, and has reason to believe, that quite a number of national banks in the city and State of New York, in order to avoid the restrictions and limitations imposed by act of Congress, contemplate a return to the State system, under what they now call the enabling act, passed by the Legislature of that State for that purpose; and in his letter of October 15, 1868, he states that the President and directors of the National Mechanics' and Farmers' Bank of Albany, an institution organized under act of Congress to provide a national currency, secured by a pledge of United States bonds, and to provide for the circulation and redemption thereof, passed June 8, 1864, claim to have converted their bank into a State banking association, under the provi-sions of an act passed by the Legislature of the State of New York, April 20, 1862, entitled "An act enabling national banking associations to become State banking associations," etc., and that by virtue of such conversions they are absolved from all allegiance, and responsibility as a national bank to this office, and to the requirements of the act of Congress. I am of the opinion that it is not within the power of the Legislature of New York to alter, modify, add to, or diminish the powers, duties or liabilities created in or conferred upon a banking association established under ct of Congress. The powers, privileges, and dutics of a corporated body are wholly derived from the sovereignty which gave it existence. The Legislature of New York may undoubtedly incorporate or provide by law for the incorpora-tion of banking associations in that State: but banking associations thus created are new and distinct bodies corporate, with which corporations deriving their existence from the United States cannot be merged, or in any manner identified, without authority of Congress. Any law-ful contract which a national banking association might make with a private person, or with another corporation, may undoubtedly be made with a corporation established by the State of New York for banking purposes, and authorized by that State to enter into such a contract on the dissolution of a national banking association, in the manner provided by the laws of the United States. The property of such an asso-clation may be disposed of by its owners to any other parties competent by the local law to receive such transfer, so far as the restrictions, liabilities, and duties imposed by act of Congress upon the corporation winding up its affairs will admit. But it seems to me that it is a misuse of language to say that the National Banking Association is in any sense changed into a banking corporation created by the laws of the State and merged in it, and I can perceive no authority existing in the Legislature of New York by which the property of the national corporation shall, by act of law and without any conveyance or transfer, be vested and become the property of such State banking association. The statutes of New York city, indeed, provide for the crea-tion of a corporation, clothed with the capacity to receive a transfer of property in such manner as the Legislature of the State may determine, and as far as its capacity to receive is concerned, the Legislature of that State has full control over the subject, but the creation of the capacity on the new corporation is an entirely different thing from the attempt to transfer from the national corporation its property. The powers and mode of action of the national corporation depend wholly upon the action of the National Legislature. I am further of the opinion that when a national banking association has taken the proper measures for its own dissolution in conformity with its articles of association, and under the provisions of the act of Congress of June 3, 1864, such resolution is not complete until the necessary action has been taken for the redemption of its circulating notes, either by actually redeeming them and surrendering them to the Comptroller of the Currency, or by de-positing an amount of Treasury notes with him idequate to their redemption, as provided by that act, and that until these acts are com pleted the existence of the national banking association continues under the law; that its capital cannot be lawfully distributed among its shareholders, or transferred to any other person or body corporate; that it remains under the supervision of the Comptroller of the Currency in the manner and to the extent prescribed by act of Congress to the same extent as before its liquidation commenced that it is still required to make regular and proper reports and returns of its condition to the Comptroller in the manner required by the statute: that it is subject to the penalty which the statute provides for a failure to make such returns; that its obligation to keep its reserve of lawful money still continues; that its directors must still be the owners of so much of its capital stock as the statute directs, and that it unlawful to endanger the lien of the United States upon its assets by a transfer of them, without other consideration than the transformation of a new banking association by the same stockholders. It follows as a con-sequence that whatever remedies the act of sequence that whatever remedies the act of Congress gives for a violation of its provisions may be pursued by the Comptroller of the Cur-rency, whether such a remedy is to be found in obtaining a decree of forfeiture and the appoint-ment of a receiver, by the exaction and collec-tion of penalties only on injunction from a court

of equity, to restrain acts from which loss or danger to the rights of the United States may be reasonably apprehended, will depend, of course, upon the special facts of the case, and upon the nature and extent of the violations of is corporate duty, which the national banking esociation, undertaking to dissolve its corporate existence and liquidate its affairs, may be found to commit. I return herewith the papers transmitted.

I have the honor to be, very respectfully, your obedient servant, E. R. HOAR, Attorney-General,

To Hon, George S. Boutwell, Secretary of the Treasury.

## FROM NEW YORK.

# Proceedings of the Old School Presbyterian Assembly.

Despatch to The Ecening Telegraph.

NEW YORK, May 26.-The business session opened with prayer by the Moderator, the ual devotional exercises having been held at the Church of the Covenant in connection with the other Assembly. Before taking up the order of the day, which was reported by the commit tee to correspond with the officers of the Grand Army of the Republic, a communication was read from the proper officers of Long Island to the effect that the decoration of soldiers' graves would take place, according to previous an-nonucement, on the 30th inst., but that no decorating ceremony would take place. It con-cluded with an invitation to the Assembly to ttend at Cypress Hills Cemetery.

It was reported also from Long Island Presby-tery that it had rejected the proposed union on the basis proposed. It was hoped by the presytery, however, that a union would be consum nated on the common standard without refering the subject again to presbyteries. The first order of the day was taken up at ten o'clock The report of the Committee on Disabled Minis-Fund was presented to the house by Dr. W R. Marshall, chairman, Total amount devotes to this object during the year, including interest on permanent fund and contributions taken, was \$39,840, an increase of \$6850 on last year. Of this amount, \$3609 remain in the treasury. The report concluded with the following-

*Resolved*, That in the constant and increasing pros-perity of this cause the General Assembly recog-nizes, both with the approbation of the Master and an emphatic infimation of the churches, the duty to prosecute the scheme vigorously and sustain it iberally.

ed. That, believing its object but imperfectly the injunctions which in former years it laid upon churches and presbyteries.

The report was discused at large by Dr. Hale, Rev. Mr. Plumley, and Rev. Theodore Strong. The importance of the subject, in view of the words "Inasmuch as ye do it to one of these little ones, ye do it to me," was recognized. Rev. Mr. Campbell, of Nashville, spoke of the

deficiency in the salary of ministers. He said that in his vicinity there was an actual want of the necessaries of life

Rev. Mr. Fox added to what had been said his hearty approval and sympathy, and recom-mended that a fund, in addition to the present amount of \$24,000, he set apart for the object of helping needy ministers.

Discussion was interrupted by Dr. Blackwood. who wished the order deferred for the hearing of delegates from corresponding bodies. It was so decided, and the report will be resumed at another time.

#### New School Assembly-Sixth Day,

The New School General Assembly met this morning as usual. The first hour was occupied in holding a joint prayer meeting of the two assemblies, which was presided over by Rev. tribes, called on Secretary Boutwell yesterday Strange as it may appear, his visit in nowise affected the price of gold or United States bonds. -The letter on the Alabama claims, which appeared in the London Times on the 12th inst., signed an "American Citizen," and which exercised a soothing influence upon the English mind, was written by Senator Grimes.

### Foreign Affairs.

LONDON, May 26 .- The Derby was won by Pretender, who was recently winner of the two thousand guineas at Newmarket, who beat Ruy Gomez by a short head, the Drummond being third, a length behind Gomez. Twenty-two horses ran, and the remainder finished in the following order:-Duke of Beaufort, Rupert. Rysworth, Alpenstock, Martyrdom, King Coppetua, Thorwalsden, Defender, Ethus, Devere Perry, Down, The Ægean, Border Knight, Lord Hawthorn, Neufchatel, Tenedos, Jasman, Ladas and Belladrum. Distance run, mile and a balf, weight carried, 129 pounds; time, 2 minutes 52 seconds; value of stakes, £6900 sterling. There was probably a quarter of a million of persons on the ground. The Prince and Princess of Wales and Prince Teck were present. The Epsom town plate was won by Conrad. The Bentwick

place was won by Myisotis. LIVENPOOL, May 26-Midnight.-The Cham-ber of Commerce held a meeting to-night, and voted an address of welcome to Mr. Motley, the American Minister. Mr. Patterson, in a speech in support of the vote, regretted the failure of the law officers to prevent the escape of the Alabama. He said the precedent was bad and the maritime interests of England were to suffer from it. If moderate compensation would can-cel this precedent, he would rejoice if it were grante 1

MADRID, May 26 .- The Cortes is now debating the clauses in the Constitution which refer to the colonies. Senor Castelar, alluding to Cuba, said if Spain had followed the example of England in respect to Canada, by granting the liberties which the colonies now claim for themselves, the outbreak in Cuba would have been prevented.

Serrano replied that General Dulce granted the required liberties when he entered the Cuban Government, but party spirit blinded some of the inbabitants to the intentions of the Home Government. By a demonstration of physical force, the rebellion had been suppressed. but moral disorder was disappearing very slowly. When the normal state of the island is restored. the Home Government, in conjunction with the Deputies of Cuba, will suppress slavery, and punish all persons engaged in the slave trade. PARIS, May 26 .- An accurate classification of the members of the new Corps Lagislatif cannot yet be made, as all the elections have not been decided, and the returns are incomplete. In fifty-nine districts the result is so close that a ballot is necessary. Of those candidates whose election is sure, forty-one were not members of the last Chamber. The opposition gain six new members, but lose three old ones. Dreole and Estange are elected.

FLORENCE, May 26. -Fourteen arrests have been made at Leghorn in connection with the attempted assassination of Colonel Greaville. It has been ascertained that political animosity. growing out of the conduct of Colonel Grenille at the siege of Rome, in 1819, was the cause of the assault.
